

Bloodborne Pathogens Training

Northwest Ohio Educational Service Center Website address: www.nwoesc.k12.oh.us

What: This program can be taken as online material with assessments. The material has been certified by Betty Rettig, RN, MA, CPHQ, Director of Quality Control / Risk Management for the Defiance Regional Medical Center.

When: Web-based material can be accessed and completed at anytime. **Registrations will be good for 90 days.**

Where: Participants may use any computer able to connect to the Internet with a web browser.

How: Register as an individual and receive a username, password and directions through email. The participant should email the NwoOESC after completing the course. When the time requirement has been achieved and the online assessments have been completed, the NwoOESC will then issue a certificate of completion through email as a PDF attachment.

Please mail to the address indicated below, a completed registration form and a personal check or an organization's warrant or check made payable to the NwoOESC for \$35.00.

Why: Ohio's OSHA Law for Public Employees states that public employees must attend a training session on "blood and other potentially infectious materials". Also, any individual who furnishes services, subject to the direction and control of the public employer, must take employee training sessions. All employers want employees to work in a safe environment. Employees can never predict when they might come in contact with blood or other body fluids that may cause infection.

This registration form is interactive ... you can type your information before printing, then detach and mail the lower portion.
