Hot Topic:

Millcreek Schools Shiver Shock Success Story:

This month I wanted to share Millcreek Schools success story with Shiver Shock. Ellie is the Food Service director here and she and her team have had so much fun with this product. Also, she gets full credit for the "donut on the straw" idea!

What Ellie has to say about Shiver Shock:

"I just wanted to share our continued success at breakfast. We fed 140 regular breakfast meals today along with an additional 29 students who purchased an ala carte item and milk. Today we offered our normal wide variety of choices which allows room for personal preference. Pictured is the strawberry banana shiver shock with 3 wg chocolate donuts. The shiver shock is so easy, it is definitely not labor intensive, which allows the staff to prepare other items in a short amount of time. For comparison on our Dr. Seuss celebration we had 180 kids go through the line and today we were just 11 short that number! Nothing different about today just a normal Wednesday. Ever since we incorporated shiver shock to our breakfast choice our participation has increased and has remained steady! Just goes to show keeping new, kid friendly, grab n go, and options in front of the kids that it pays. More kids consuming a breakfast is definitely a win both in and out of the classroom! Along with the options, I have regularly utilized social media to promote and share with the community. I try to think positively about Facebook because it is a part of the world we live in. What better way to keep our school meal program fresh in the eye of parents, kids, and grandparents!"
