

The mission statement of the Asheboro City Schools is as follows: We are committed to providing high quality learning opportunities for all students in a safe and inviting environment so that our students can become successful lifelong learners, prepared for 21st century global citizenship.

Policies are the primary means by which the board expresses its vision for the school district. In formulating specific policies, the board is guided by its duty to provide students with the opportunity to receive a sound basic education as defined by the North Carolina Supreme Court in *Leandro v. State*. It is further guided by governing principles it considers critical to meet that obligation by providing a system of excellent schools where students can succeed. These governing principles are referenced frequently in the board policies and also are set out below.

1. Student success. As its top priority, a system of excellent schools provides opportunities for individual students to succeed and overall student performance to improve.
2. Parental involvement. A system of excellent schools involves parents in decisions regarding their own children, the educational program and the schools.
3. Safe, orderly and inviting environment. A system of excellent schools creates and maintains a safe and orderly environment where staff and students are focused on and excited about learning.
4. School initiatives. In a system of excellent schools, each school initiates improvements to the educational program and services for students in alignment with system-wide goals and involves staff, parents and students in the school level decision-making processes.
5. Professional development. A system of excellent schools provides continuous professional development and training to help personnel gain the skills and knowledge needed to meet State Board and local board expectations, especially as they relate to improving student performance.
6. Removal of barriers. A system of excellent schools prohibits illegal discrimination and harassment of staff and students, encourages tolerance and respect, and seeks to eliminate or lessen other barriers that may impede a student's ability or opportunity to learn, including economic disadvantages, poor nutrition, ill-health and lack of transportation.
7. Stewardship of resources. A system of excellent schools conserves financial and environmental resources and operates in an efficient manner.
