**PLEASE NOTE:** The Smart Aid Parent Application is optimized for several of the most popular browsers available today. Most parents report best experiences using Google Chrome or Mozilla Firefox. This doesn't mean it will not work on other browsers (Internet Explorer, Safari, etc.), but depending on the specific version that the parent is using, they may encounter mishaps. For the best possible Smart Aid experience, it would be our recommendation for parents to use either Google Chrome or Mozilla Firefox when completing an application.
