

## COMMON QUESTIONS

### What is Kids on Campus?

Kids on Campus is a summer enrichment program for students who are interested in improving their math, music, science, technology, or visual arts skills through exciting, hands-on learning activities. The program is coordinated by Pickaway WORKS with support from Ohio Christian University and PPG Industries.

#### Who may attend?

Students who are highly motivated to participate in summer learning.

#### What ages may attend?

Kids on Campus is offered to students who are **currently** in the 1st, 2nd, 3rd, or 4th grade during the 2018-19 school year.

#### How much does it cost?

The cost is \$40.00 per session for the week. The cost will include a Kids on Campus T-shirt and educational materials.

#### Will transportation be provided?

No, parents or guardians will be responsible for the transportation of their students.

(Signs will direct you)

# Programs Available

## Grades 1 and 2

### Mathematics

Students will explore number sense, measurement, geometry, and symmetry through exciting games, puzzles, hands-on activities, and art. Fun with math is the goal for the week.

### Music

Students will participate in active and engaging music experiences including singing, creating, reading, listening, moving to music, playing games, and playing instruments. We will play various pitched and non-pitched percussion instruments, explore music in children's literature, and see how music connects to other subjects like math, science, and language arts.

## Grades 3 and 4

### Mathematics

Students will explore numbers, place value, measurement, geometry, and reasoning in unique and exciting ways. Each day will be an adventure filled with games, activities, and mathematical experiences.

### Music

Students will be exposed to vocal technique, music notation, choreographed movement, two-part vocal harmony, and rhythmic combination. We will explore various elements of music (dynamics, tempo, melody, harmony, rhythm, tone color, form, texture, and expression) while we are drumming, composing music, playing recorders and bells, singing, and moving to music.

### Science

Students will have fun and learn at the same time while conducting experiments about Life, Earth and Space, and the Physical Sciences. Students will observe weather patterns, predict the weather, and get up close and personal with Sir Isaac Newton and his laws of motion. Fun will be had learning about energy and energy sources, as well as studying about solids, liquids, and gases.

### Technology

Students will explore aspects of a computer in a safe hands-on environment!

- What's inside my computer?

### Science

Physical, Earth and Space, and Life Science will be brought to life as students design and conduct various experiments. Students will explore habitats and their changes and the difference between renewable and nonrenewable energies. Tons of hands-on activities will make the complex world of science relevant and exciting.

### Technology

Students will explore aspects of a computer in a safe hands-on environment!

- What's inside my computer?
- Basic Computer functions
- Word processing
- Google Docs
- Web 2.0 Tools-Glogster, Voki

- student comment

"I feel like a  
smart teenager!"

- Basic computer functions
- Keyboarding/word processing
- Internet safety

### Visual Arts

Students will focus not only on producing art, but also on examining and appreciating various art forms. Students will explore art materials, observe works of art, and study basic elements of design: line, shape, color, and texture all while having fun.

- Internet safety
- World Wide Web exploration, YouTube, Friv, QR codes
- Creating kid-friendly personal websites

### Visual Arts

In addition to painting and drawing, students will make their first attempts at graphic illustrations. They will discover methods of creating texture in different media and experiment with complementary color, hue and color intensity. This class is designed for students to have fun and enjoy creating their own masterpieces.

## Student Registration

**Register according to this year's, 2018-2019, grade level.**  
\$40 registration includes instructional materials and a t-shirt.  
Registration must be received no later than Friday, May 24, 2019.
