Bath Community,

Last night we received information about a concerning social media post from a student that currently does not attend Bath Local Schools. We immediately contacted the Allen County Sheriff's Department who took action and the individual was taken into custody last night. There was no specific threat made towards any student or staff member at Bath schools. Since last night, we have been in constant communication with the sheriff's department as this is an ongoing investigation. At no point was there a need for us to consider disrupting school operations. The sheriff's office investigation is ongoing and we cannot release any additional details at this time.

Thanks,

Rich Dackin
Superintendent
