2019-2020

K-5th Grade Final Project

Hello Dear Friends! We are now at the very end of our school year and it is time for us to demonstrate our new skills, creative ideas and unique abilities with a final project. Please complete this project by Monday, May 18th, 2020 to receive a P for a passing grade. You can take a picture and send it to my email at cali.sanker@trimblelocalschools.org OR you can log on to Flipgrid.com and enter the classroom code *sanker* to share your artwork there! Remember there is no right or wrong way to make art! You are the artist in charge of your creations! I can't wait to see what you make!!

Please choose your project idea:

- 1.) **Self Portrait:** Draw yourself as you are now, when you were younger or what your future self will look like. Be sure to think about the details you will add. Think about what you will be wearing, where you will be and what you will be doing.
- 2.) **Landscape:** Create a landscape. Consider what kind of landscape you will create. Will there be a mountain range in the background, a setting sun in the middle ground or a variety of plants and flowers or animals in the foreground? Will this landscape be the rolling green hills and pastures of Athens County or the dry, sandy terrain of New Mexico?
- 3.) **Summer Fun:** Create a piece of art that is all about the summer months! Think about the hot sun, the abundance of green plants and flowers. Think about the clothes you wear in summer, the people you see, the people you don't see, sunglasses, kiddie pools, playing outside and visiting the library. What are you looking forward to?
