21st CCLC Cub Club Program Registration ~ 2023-2024

Tuesday, September 5, 2023

Greetings, Union City Area Elementary School Families!

We are so excited to be opening up registration for Year #4 of our 21st CCLC Cub Club program. This year's program is certain to be filled with fun and engaging activities with our +9 instructors and staff members. We are offering everything from daily homework help to mathematics and reading instruction, science and STEM activities, fun and fitness, mindfulness, study skills, arts and crafts, ukulele, and more! Our full schedule of activities and calendar events will be sent home with families at the kick-off of this year's program.

Our program runs Monday through Thursday from 2:30-5:30 at the Union City Area Elementary School, beginning **Monday, September 18, 2023**. Our district provides transportation for the program, along with a meal each day. We also schedule quarterly open house events with our families as well as monthly Parent Cafe events with our partners at the Union City Family Support Center. We are looking forward to a great year with our students!

Please review our Cub Club expectations with your child and complete the attached registration form as soon as possible. Your child **cannot participate on the first day of programming** unless you have completed the attached registration form by **Wednesday, September 13, 2023** and received a confirmation email from our Program Director; we have a limited number of openings based on staffing, so please send in your paperwork with your child's **homeroom teacher** as soon as possible.

Should you have any questions in the meanwhile, please reach out to me via email at ppituch@ucasd.org. Thank you!

Sincerely,

Mrs. Pauline Pituch

Admission is open to all regardless of race, color, national origin, sex, age or disability.

Union City Area Elementary School

21st CCLC Cub Club Student Expectations

Funded in full or in part with a grant provided by the Pennsylvania Department of Education

21st CCLC Cub Club students are expected to be...
