OPERATION PLAYGROUND

As you know, earlier this year our PTO sponsored the NEON NIGHT dance as a K-5 fundraiser to raise money for both SBE and BCI playground equipment upgrades. Due to the high-level of participation and generosity, we raised enough to upgrade the playground equipment and supplies, and then some. Meanwhile, Mrs. Culler's third grade class

has been engaged in a PBL (Problem-Based Learning)

surrounding making a typical school playground like ours inclusive to all of our friends, especially those with mobility or sensory challenges. We'll be able to apply the surplus raised last fall as seed money for this project. Since the PBL's launch, they have been able to partner with their student council representatives and Mrs. Martin, the student council adviser, to take their project to new heights. There will be many other fundraisers, small and large, to help the students reach their goal, which may take a

couple of school years or more. There was a recent news story that got national coverage. We are so excited to be able to bring the same level of inclusive and accessible play to our community and school. If you're interested in seeing the story, it's linked here: [Playground Story](#)

Curriculum Instruction Assessment

This month as we start the new semester, Mr. Phelps, Ms. Urbaniak, and Mrs. Weber are meeting with each teacher to review students' academic progress, social & emotional (soft skills or job skills) progress, behavioral progress, attendance, and other needs. We review all data points (MAP testing, state testing where applicable, grades in courses, Benchmark, ExactPath, and more). From here, we determine if students need more support, whether that means interventions or enrichment and make plans for how to address those needs. The group reconvenes three times each year for formal CIA Meetings, but we discuss and monitor progress on an ongoing basis. Progress Reports are sent home to caregivers once all information is gathered through the CIA process.
