

BSS Board Update – SB 210 Compliance

FY 2022-2023

Alliance for Healthier Generations and Senate Bill 210

- Alliance For a Healthier Generation
 - The Alliance for a Healthier Generation, founded in 2005, is a joint venture between the American Heart Association and the William J. Clinton Foundation with a mission to eliminate childhood obesity
 - May 2009 ~ Sodexo signed an agreement to adopt the Alliance For Healthier Generations (AHG)
 - May 2011 ~ All districts that Sodexo serves, throughout the United States, are AHG compliant
 - BSS has been compliant since the beginning of the 2010-11 school year
- Senate Bill 210 (became law June of 2010)
 - Any district that participates in the National School Lunch/Breakfast programs and receives Federal reimbursements money for these programs, Senate Bill 210 states that no food or beverages can be sold to students that competes with the breakfast or lunch program; meaning, no sales of any beverages or foods during breakfast and lunch times that is not supported by the Food and Beverage Restrictions listed within Sections 3313.814/814(C)/816. It also states all foods/beverages sold during school hours must adhere to the Alliance for Healthier Generations (AHG) standards which has been adopted by the State through the Senate Bill 210.
 - BSS became compliant with Senate Bill 210 for the 2011-12 school year

Food and Beverage Compliance Report

Ohio Revised Code Section 3313.814 requires schools to report their organization's compliance with standards governing the types of foods and beverages sold on school premises.

Sec. 3313.814: Adoption of standards for food and beverage sales by district and schools

Continuing law requires school districts to adopt standards governing the types of food that may be sold on school premises. These standards must specify the time and place each type of food may be sold. In adopting its standards, a district must consider each food's nutritional value.

✓ **BSS is compliant**

The act applies the requirement for the adoption of standards for food sales to community schools, STEM schools, and chartered nonpublic schools. It also requires all school districts, community schools, STEM schools, and chartered nonpublic schools to adopt standards for beverage sales on school premises, including time and place restrictions. Besides considering the nutritional value of foods and beverages, districts and schools must:

- (1) consult with a licensed dietitian, a dietetic technician registered by the Commission on Dietetic Registration, or a school nutrition specialist certified or credentialed by the School Nutrition Association in developing their standards and

✓ **BSS is compliant**

- (2) Consult the Dietary Guidelines for Americans and, to the maximum extent possible, incorporate the guidelines into their standards

✓ **BSS is compliant**

Each district's and school's standards must comply with the act's provisions regulating the nutritional content and times of sale for foods and beverages, but a district or school may adopt stricter standards if it chooses. As it is required to do for food sales under continuing law, the State Board of Education must adopt guidelines for beverage sales, which districts and schools may follow in developing their standards.

✓ **BSS is compliant**

Sec. 3313.814(C): Placement of vending machines

The food and beverage standards adopted by districts and schools generally must prohibit the placement of vending machines in classrooms where students are provided instruction. The act makes an exception for instructional spaces where students also are served meals. For instance, if a school's cafeteria doubles as a classroom during the school day, it would not be necessary to remove vending machines from that area. Nevertheless, vending machines may be placed anywhere if they sell only milk, federally subsidized complete meals, or food and beverage items that are part of a federally subsidized complete meal and are sold as individually priced items in serving portions of the same size as in the complete meal.

✓ **BSS is compliant**

Sec. 3313.816: Beverage Restrictions

No public or chartered nonpublic school shall permit the sale of a la carte beverage items other than the following during the regular and extended school day:

- Prior to January 1, 2014, eight ounces or less of low-fat or fat-free milk, including flavored milk, that contains not more than one hundred seventy calories per eight ounces;
✓ **BSS is compliant**
- Beginning January 1, 2014, eight ounces or less of low-fat or fat-free milk, including flavored milk, that contains not more than one hundred fifty calories per eight ounces.
✓ **BSS is compliant**
- Eight ounces or less of one hundred per cent fruit juice, or a one hundred per cent fruit juice and water blend with no added sweeteners that contain not more than one hundred sixty calories per eight ounces.
✓ **BSS is compliant**
- Prior to January 1, 2014, sixteen ounces or less of low-fat or fat-free milk, including flavored milk, that contains not more than one hundred seventy calories per eight ounces
✓ **BSS is compliant**
