FEBRUARY 2025

FOCUS 3 PURSUE EXCELLENCE

Dear BCI Families,

At BCI, we believe in setting high expectations for learning and personal development. We encourage our students to take on challenges, try new things, and always put forth their best effort. By doing this, they not only improve themselves but also inspire their classmates to do their best.

We Focus on Learning and Improvement!

We teach our students that with dedication and hard work, they can strengthen their skills and abilities over time. Intelligence and talent are just the starting points—what truly matters is effort and perseverance. Mistakes are not failures but opportunities to learn. We encourage students to be open to feedback, listen to new ideas, and always strive to do better than they did the day before.

We Strive for Excellence!

BCI has a strong tradition of success, and we are always looking ahead to an even brighter future. We want our students to be the best they can be, both in the classroom and beyond. By fostering a love of learning and encouraging a strong work ethic, we help them develop skills that will benefit them for life.

Thank you for partnering with us to support your child's journey. Together, we can help them grow, achieve, and excel every day!

Sincerely,
Dr. Monroe and Mr. Cline

CALENDAR

February 3-6 -CogAT testing (4th grade only)
