Policies For Approval

Policy Code: 3320 School Trips

School trips designed to stimulate student interest and inquiry may be appropriate classroom extensions and may enhance learning in the classroom. School trips may help meet educational goals and objectives by connecting learning with experiences outside of the classroom environment.

All eligible students will be given an opportunity to participate in school trips. No student will be denied participation because of economic hardship or because the student has a disability.

A. Authorization of School Trips

A school trip occurs when a student or group of students leaves a school campus under the sponsorship of the school and under the supervision of school employees to extend the educational experiences of that student or group. This includes such trips taken by extracurricular groups but does not include trips by athletic teams to participate in athletic events or competitions that are part of the team's regular season or playoffs. The principal must approve all school trips in advance. School trips that involve travel out of state and/or an overnight stay must also receive prior approval from the superintendent or designee and the board. School trips that require travel outside of the continental United States are prohibited.

To be approved, a school trip must:

- (1) provide an effective method for accomplishing curriculum objectives;
- (2) be consistent with the educational goals of the board; and
- (3) keep to a minimum any disruptions of other educational programs and/or loss of instructional time.

The superintendent shall develop procedures for the request and approval of school trips.

B. Parental Notice and Consent

All students who participate in a school trip must provide signed parental consent forms to participate, unless a student is officially emancipated, in which case the student can consent on his or her own behalf. A student who fails to provide a signed consent form may be denied participation in the trip. No student's grade may be lowered or raised based on parental consent to participate in the school trip. The superintendent or designee shall develop procedures to ensure parents are given proper notice of trip details and that parents provide signed authorization and consent regarding their child's participation and care during the trip.

Students are prohibited from sharing sleeping quarters with anyone of the other biological sex as defined in G.S. 12-3.3 during a school trip unless (1) the member of the other biological sex is the student's immediate family member (i.e., a parent, sibling, or grandparent, including step or half relationships).

C. Costs

Pursuant to policy 4600, Student Fees, and any corresponding fee waiver or reduction procedures, any fees imposed for school trips will be waived or reduced for students who demonstrate real economic hardship. The superintendent shall establish procedures to review requests for fee waivers or reductions and to notify students and parents of the availability of and the process for requesting a waiver or reduction of fees.

D. Student Safety and Discipline

Policy 1510/4200/7270, School Safety, applies to all students, school employees, and volunteers while they are taking part in school trips. Students are also subject to the student behavior policies in the 4300 series, the Code of Student Conduct, and all school rules while participating in a school trip. The superintendent shall develop any additional regulations necessary to ensure student safety, provide adequate supervision, and clarify student behavior standards.

E. Transportation and Other Accommodations

Policy 6320, Use of Student Transportation Services, applies to the use of vehicles for all school trips. Policy 6315, Drivers, applies to all drivers of school buses and activity buses but does not apply to drivers of charter buses who are not subject to school board authority, aside from any agreed upon provisions in the contract with the charter company.

Any contracts with outside companies to provide transportation, lodging, or other accommodations related to a school trip must be approved in accordance with policy 6340, Transportation Service/Vehicle Contracts, and policy 6420, Contracts with the Board.

The superintendent or designee shall develop any necessary additional regulations governing transportation on school trips.

F. Chaperones and Volunteers

All chaperones and volunteers accompanying students on school trips must meet the standards established by policy 5015, School Volunteers. The superintendent or designee shall develop any necessary additional regulations governing chaperones and volunteers on school trips.

G. Non-School Sponsored Trips

A non-school sponsored trip is a trip or tour organized and sponsored by (1) an individual teacher or group of teachers acting as private citizens and not as school employees, (2) a travel agency, or (3) any other individual or association not employed by, sponsored by, or under contract with the board. The board and the school system assume no responsibility or liability for non-school sponsored trips.

Non-school sponsored trips may be promoted or advertised in the schools only in accordance with policy 5240, Advertising in the Schools. Promotional materials may be displayed or distributed in the schools only in accordance with policy 5210, Distribution and Display of Non-School Material. All promotional materials for non-school sponsored trips must prominently state that the trip is not sponsored or endorsed by the school or school system. Moreover, any employee who sponsors or recruits students for a non-school sponsored trip shall notify the students and their parents or guardians that the trip is not sponsored or endorsed by the school or school system and shall obtain a signed acknowledgement from each parent that the trip is not school-sponsored.

School employees shall not engage in any planning or administrative tasks associated with a non-school sponsored trip during the employee workday. School employees who want to use school facilities to hold a meeting concerning a non-school sponsored trip must follow the process set forth in policy 5030, Community Use of Facilities, and any corresponding regulations. School employees must use eligible leave for any time missed from work during a non-school sponsored trip.

School employees are prohibited from participating in non-school sponsored trips that conflict with instructional school days or are scheduled fewer than 10 school days prior to final exams or other state-mandated assessments.

Students will not be required to participate in any non-school sponsored trip. Students are discouraged from participating in non-school sponsored trips that conflict with instructional school days or are scheduled fewer than 10 school days prior to final exams or other state-mandated assessments. Absences for non-school sponsored trips will be designated as excused or unexcused in accordance with policy 4400, Attendance.

Asheboro City Schools

Policy Code: 3620 Extracurricular Activities and Student Organizations

The board recognizes the value of interscholastic athletics and extracurricular activities in promoting leadership and team skills, practicing democratic principles, and encouraging the lifelong learning process. Students are encouraged to participate in opportunities available at the school, including interscholastic athletics and student organizations. All activities are open to all students attending that school unless a restriction is justified and has been approved by the principal. The principal shall ensure that students and parents are notified of the various opportunities for participation in extracurricular activities and shall establish rules, as necessary, to govern such activities.

A. Requirements for Participation in Extracurricular Activities

Participation in extracurricular activities, including student organizations and interscholastic athletics, is a privilege, not a right, and may be reserved for students in good academic standing who meet behavior standards established by the board, the superintendent, or the school.

Participation in extracurricular activities may be restricted if a student (1) is not performing at grade level as provided in policy 3400, Evaluation of Student Progress; (2) has failed to meet any applicable attendance requirements; (3) has violated the student conduct standards found in the 4300 series of policies; or (4) has violated school rules for conduct or (5) has not passed the required physical examination. School administrators choosing to exercise this authority to restrict participation shall provide this policy and any additional rules, including attendance requirements, developed by the superintendent or the principal to all parents, guardians, and students.

The grievance procedure provided in policy 1740/4010, Student and Parent Grievance Procedure, may be utilized by parents or students who believe that a student has been aggrieved by a decision made pursuant to this policy.

B. Additional Rules for Specific Activities

1. Interscholastic Athletics
 - a. General Rules

In addition to meeting the general requirements listed above, to be eligible for interscholastic athletics participation, students must have been in daily attendance 85 percent of the previous semester and must meet all applicable eligibility standards of law and the State Board of Education as well as any locally established requirements for interscholastic athletics participation.

A student participating in high school interscholastic athletics may participate only on the team consistent with the gender on the student's birth certificate.

b. Participation by Sixth Graders

Students in the sixth grade are eligible to participate in all interscholastic athletics except tackle football.

c. Students Who Transfer Schools Within the School System

It is the policy of the board that a student who transfers from one school in the school system to another school in the school system will be immediately eligible to participate in interscholastic athletics at the new school, if otherwise permitted under the rules of the State Board of Education.

d. Name, Image, and Likeness (NIL) Agreements

A student participating in interscholastic athletics may enter an agreement to use the student's name, image, or likeness subject to the requirements of [16 N.C.A.C. 6E .0211](#).

e. Home School Students

Any home school student whose primary residence (as defined in [16 N.C.A.C. 6E .0207](#)) is in the school system and who is dually enrolled in accordance with the school system's enrollment and assignment policies and procedures is eligible to participate in high school interscholastic athletics if the student complies with the requirements of this subsection and meets all applicable eligibility standards of law and the State Board of Education as well as any applicable locally established requirements for interscholastic athletics participation.

The student must present a home school card from the Division of Non-Public Education for the previous and current years as well as a transcript, attendance record, and immunization records. Prior to the first date of practice, the student must provide the results of a nationally standardized achievement test, taken within the last year, that indicates the student was on grade level at the time the test was taken. The student must also present proof of catastrophic accident insurance coverage unless the student is covered under the board's catastrophic athletic accident insurance policy.

The student must have been enrolled in a registered home school for 365 days prior to participation in athletics. Once dually enrolled and

deemed eligible to participate in athletics, the student must maintain continuous dual enrollment. Failure to maintain continuous dual enrollment would render the student ineligible for athletic participation for 365 days.

The student must participate in a class schedule at the assigned school that is at least one half of the assigned school's instructional day. The student must pass all classes in which the student is enrolled at the assigned school in order to maintain athletic eligibility.

The student must notify the principal of the assigned school in writing of the student's intent to try out for an athletic team at least 10 days prior to the first practice date of each sport season in which the student wishes to participate. Failure to comply with this requirement renders the student ineligible for that sport season.

2. Student-Initiated, Noncurriculum-Related Student Groups at the Secondary Level

Student-initiated, noncurriculum-related, secondary school student groups will be permitted to conduct voluntary meetings on school grounds during noninstructional time, regardless of the size of the group or the religious, political, philosophical, or other content of the speech at the meetings, provided that the meetings do not materially and substantially interfere with the orderly conduct of the educational activities of the school. The principal shall establish viewpoint neutral rules governing such meetings, including restrictions on when and where meetings may occur.

School employees may not promote, lead, or participate in student-initiated meetings but may be present at meetings to maintain order and discipline, to protect the well-being of the students and faculty, and to assure that attendance of students at the meetings is voluntary. School employees may not influence the form or content of any prayer or other religious activity or require any person to participate in prayer or other religious activity. In addition, non-school persons may not direct, conduct, control, or regularly attend the activities of the groups.

No public funds will be expended on behalf of the student-initiated, noncurriculum-related student groups except for the incidental cost of providing space for the group meetings.

Student-initiated, noncurriculum-related groups will have the same access to communication channels for publicizing their meetings as is allowed to all other noncurriculum-related student groups. However, school officials may indicate in such communications that the meetings are not sponsored by the school.

For purposes of this subsection, a noncurriculum-related student group is one that is not directly related to the curriculum. A student group will be considered curriculum-related only if (1) the group's subject matter is taught in a regularly offered course or relates to the curriculum as a whole; (2) participation in the group is required as part of a course; or (3) participation in the group results in course credit.

3. Overnight Trips

Students are prohibited from sharing sleeping quarters with anyone of the other biological sex as defined in G.S. 12-3.3 during any activity or event authorized by the school unless (1) the member of the other biological sex is the student's immediate family member (i.e., a parent, sibling, or grandparent, including step or half relationships).

C. Special Circumstances

1. Students with Disabilities

Students with disabilities must be accorded the legal rights required by federal and state law.

2. Children of Military Families

School administrators shall facilitate the inclusion and participation in extracurricular activities of children of military families, as defined in policy 4050, Children of Military Families, transferring into the school, to the extent they are otherwise qualified, by:

- a. providing information about extracurricular activities to incoming children of military families; and
- b. waiving application deadlines.

D. Appeals Process

The grievance procedure provided in policy 1740/4010, Student and Parent Grievance Procedure, may be utilized by parents or students who believe that a student has been aggrieved by a decision made pursuant to this policy.

USE OF WIRELESS COMMUNICATION DEVICES

Policy Code:

4318

The board recognizes that cellular phones and other wireless communication devices are an important tool through which parents communicate with their children and through which students gather information. The board also understands that excessive use of wireless communication devices may pose significant health, social, and academic risks for students. Therefore, to balance these interests and the needs of students, parents, and the school community, the board limits the use of wireless communication devices as provided in this policy.

A. DEFINITIONS

For the purposes of this policy, the following definitions apply.

1. “Instructional time” is the time during which students are assigned to a teacher for the primary purpose of instruction.
2. A “wireless communication device” is any portable wireless device that has the capability to provide voice, messaging, or other data communication between two or more parties, including but not limited to cellular telephones, tablet and laptop computers, paging devices, two-way radios, and gaming devices.

B. AUTHORIZED USE DURING INSTRUCTIONAL TIME

Students are permitted to possess wireless communication devices on school property so long as the devices are not turned on, used, or displayed during instructional time or as otherwise directed by school rules or school personnel.

Additionally, individual students may use wireless communication devices as required by the student’s Individualized Education Program or Section 504 plan or to manage the student’s health care in accordance with a documented medical condition. Teachers may authorize individual students to use the devices for instructional purposes, provided that they supervise the students during such use, or in the event of an emergency.

C. AUTHORIZED USE DURING NON-INSTRUCTIONAL TIME

Although use of wireless communication devices is generally permitted during non-instructional time and before and after school, the principal may establish additional limitations on the use, possession, or display of such devices consistent with this policy. Use of wireless communication devices may be prohibited on school buses when noise from such devices interferes with the safe operation of the buses. In addition, elementary and middle school students who participate in after-school programs are prohibited from using wireless communication devices during such programs.

D. CONSEQUENCES

School employees may immediately confiscate any wireless communication devices that are on, used, or displayed in violation of this policy. In general, the confiscated device will be returned to the student at the end of the school day. However, an administrator may require a student's parent to recover a confiscated device if the student has repeatedly violated this policy.

The disciplinary consequences for violations of this policy shall be consistent with Section D of policy 4300, Student Behavior Policies. The superintendent or designee shall list in the Code of Student Conduct the specific range of consequences that may be imposed on a student for violations of this policy.

The following factors should be considered when determining appropriate consequences: whether the wireless communication device was used (1) to reproduce images of tests, obtain unauthorized access to school information or assist students in any aspect of their instructional program in a manner that violates any school board policy, administrative regulation, or school rule; (2) to bully or harass other students; (3) to send illicit text messages; (4) to take and/or send illicit photographs; or (5) in any other manner that would make more severe disciplinary consequences appropriate.

E. SEARCH OF WIRELESS COMMUNICATION DEVICES

In accordance with policy 4342, Student Searches, a student's wireless communication device and its contents, including, but not limited to, text messages and digital photos, may be searched whenever a school official has reason to believe the search will provide evidence that the student has violated or is violating a law, board policy, the Code of Student Conduct, or a school rule. The scope of such searches must be reasonably related to the objectives of the search and not excessively intrusive in light of the nature of the suspected infraction.

F. LIABILITY

Students are personally and solely responsible for the security of their wireless communication devices. The school system is not responsible for the theft, loss, or damage of a personal wireless communication device.

EMERGENCY EPINEPHRINE DELIVERY SYSTEMS

Policy Code: **5024/6127/7266**

Anaphylaxis is a severe systemic allergic reaction from exposure to allergens that is rapid in onset and can cause death. Many severe allergies are undiagnosed, and students or others may experience their first severe allergic reaction while at school. Epinephrine delivery systems can be used to administer epinephrine to provide rapid, convenient first aid for persons suffering a potentially fatal anaphylactic reaction. This policy addresses the use of emergency epinephrine delivery systems administered under a non-patient specific prescription. Student-specific orders for epinephrine delivery systems are addressed in policy 6125, Administering Medicines to Students.

Designated trained school personnel are authorized to use emergency epinephrine delivery systems to deliver emergency medical aid to any person suffering from an anaphylactic reaction during the school day or at a school-sponsored event on school property. The superintendent shall ensure that at least two emergency epinephrine delivery systems are located at each school for this purpose and are stored in secure, but unlocked and easily accessible, locations.

Each school principal shall designate one or more school personnel, as part of the medical care program under G.S. 115C-375.1, to receive initial training and annual retraining from a school nurse or qualified representative of the local health department regarding the storage and emergency use of epinephrine delivery systems. Only such trained personnel are authorized to administer epinephrine to persons believed to be having an anaphylactic reaction. The principal shall make reasonable efforts to notify other school staff members as to which employee(s) has received this training in order to facilitate a prompt emergency response.

The principal, in collaboration with appropriate school personnel, shall create an emergency action plan for the use of epinephrine delivery systems that complies with all state law requirements. Principals are encouraged to include in the plan school-wide employee training in recognizing symptoms of anaphylaxis.

Epinephrine delivery systems provided by the school are intended for unforeseen emergencies. Students known to have medical conditions requiring the availability of an epinephrine delivery system are expected to provide such a delivery system for their use at school. Parents of students with known life threatening allergies and/or anaphylaxis should provide the school with written instructions from the students' health care provider for handling anaphylaxis and all necessary medications for implementing the student specific order in accordance with policy 6125, Administering Medicines to Students. Students who meet the conditions established in policy 6125 may possess and self-administer their own medication.

This policy does not require emergency epinephrine delivery systems to be available at activities held off school grounds during or after the school day, including field trips or off-site athletic events, or during transportation to or from school, except as may be required pursuant to an individual student's IEP, Section 504 Plan, or health or emergency plan.

PUBLIC RECORDS – RETENTION, RELEASE, AND DISPOSITION

Policy Code: **5070/7350**

The board is committed to providing access to public records and public information. All employees shall comply with the public records law and this policy.

A. PUBLIC RECORD DEFINED

Any record, in any form, that is made or received by the board or its employees in connection with the transaction of public business is a public record that must be made available to the public, unless such record is protected from disclosure by federal or state law or is otherwise exempted from the public records law, G.S. 132-1 through 132-9. (See policy 5071/7351, Electronically Stored Information Retention, for specific information regarding public records in electronic form.)

Though the school improvement plan is a public record, the school safety components of the plan are not public records subject to public records law. Schematic diagrams, as described in G.S. 115C-105.53 and -105.54, and emergency response information, as described in G.S. 115C-47(40) and -105.54, are also not considered public records subject to public records law.

The official records of students are not public records subject to inspection and examination. (For additional information regarding the release of information about students, see policy 4700, Student Records.) Further, any written material containing the identifiable scores of individual students on any test taken pursuant to the state testing program described in Chapter 115C, Article 10A of the North Carolina General Statutes is not a public record. Any test that is developed, adopted, or provided as part of the state testing program is not a public record until the State Board of Education designates that the test is released.

Any report received from the Teachers' and State Employees' Retirement System pursuant to G.S. 135-8(f)(2)(f) is not a public record and will be treated as confidential.

Information in school system employee personnel files is protected from disclosure in accordance with G.S. 115C-319, except that the following employee information is public record.

1. Name.
2. Age.
3. The date of original employment or appointment.

4. The terms of any past or current contract by which the employee is employed, whether written or oral, to the extent that the board has the written contract or a record of the oral contract in its possession.
5. Current position.
6. Title.
7. Current total compensation from all funding sources, including at least salary (including pay, benefits, incentives, supplements, bonuses, deferred compensation, and all other forms of compensation paid to the employee) and reimbursements and allowances (including travel-related reimbursements and allowances).
8. The date and amount of each increase or decrease in total compensation with the board.
9. The date and type of each promotion, demotion, transfer, suspension, separation, or other change in position classification with the board.
10. The date and general description of the reasons for each promotion with the board.
11. The date and type of each dismissal, suspension, or demotion for disciplinary reasons taken by the board. If the disciplinary action was a dismissal, a copy of the written notice of the final decision of the board setting forth the specific acts or omissions that are the basis of the dismissal.
12. The office or station to which the employee is currently assigned.

The name of a participant in the North Carolina Address Confidentiality Program is not a public record and must be redacted from any records released. As necessary, school personnel may combine public and confidential records to meet the business needs of the system. However, if a record contains confidential information as well as public information, school officials must provide the requested public record with the confidential information removed or redacted.

B. DESIGNATION OF RECORDS OFFICER

The superintendent shall designate a records officer or otherwise ensure that the duties of a records officer are met.

1. Duties of the Records Officer

The duties of the records officer include the following:

- a. determining whether records are public or confidential by law, with assistance from the local board attorney as necessary;

- b. determining the most cost-effective means of storing and retrieving public records that include confidential information;
- c. providing training, consultation, and guidelines to school officials who respond to or are otherwise involved in public records requests;
- d. determining the actual cost of providing copies of public records in various forms, such as paper or electronic media, in which the school system is capable of providing the records;
- e. determining the cost of a request for copies of public records when a special service charge is applicable or when the school system is voluntarily creating or compiling a record as a service to the requester; and
- f. reviewing appeals of any denial of a request for public records.

2. Other Duties

A designated electronic records officer, or other employee(s) as determined by the superintendent, shall review all electronic data-processing systems created by the school system or being considered for acquisition through lease, purchase, or other means, to ensure they are designed and maintained in a manner that:

- a. will not impede the school system's ability to permit public inspection and examination of public records; and
- b. provides a means of obtaining copies of such records.

C. REQUESTS FOR PUBLIC RECORDS

All requests for examining or obtaining copies of public records should be in writing or recorded by school system personnel. This policy, administrative guidelines, information on the actual cost of producing public records, information on how to reach the records officer, information about how to appeal a denial of a public records request, and information regarding any computer database indexes must be made available to individuals requesting public records.

Public records must be released in accordance with the law. Any denial of a public records request must be made in writing and must include the basis for the denial. The superintendent or designee may issue additional guidelines consistent with this policy to further clarify the process for requesting public records.

D. FEES FOR COPIES OF PUBLIC RECORDS

Persons requesting copies of public records will be charged any applicable fees as determined by the records officer (see subsections B.1.d and B.1.e above). The school system shall not charge any fees for separating confidential information that is commingled with public records.

E. ELECTRONIC MAIL LISTS

A school employee may be authorized by the superintendent or designee to maintain an electronic mail list of individual subscribers. Such a list may be used only: (1) for the purpose for which the subscribers subscribed to it; (2) to notify subscribers of an emergency to public health or public safety; or (3) in the event of deletion of the list, to notify subscribers of the existence of any similar lists. Although such electronic mail lists of individual subscribers shall be available for public inspection in either printed or electronic format to the extent permitted by law, school officials shall not provide anyone with copies of such lists. Release for public inspection of any subscriber list must be consistent with the Family Education Rights and Privacy Act (FERPA) if the list contains personally identifiable information from student education records. See policy 4700, Student Records.

F. DESTRUCTION OF PUBLIC RECORDS

To the extent required by law, school personnel shall maintain public records in accordance with the applicable records retention and disposition schedule(s) issued by the North Carolina Department of Natural and Cultural Resources. The superintendent may establish regulations for the destruction of records in accordance with the approved schedules.

Policy Code: 6125 Administering Medicines to Students

The board recognizes that students may need to take medication during school hours. School personnel may administer medication prescribed by a health care practitioner upon the written request of a student's parent. In limited circumstances, a student may be authorized to self-administer medications. To minimize disruptions to the school day, students should take medications at home rather than at school whenever feasible. School officials may deny a request to administer any medication that could be taken at home or when, in the opinion of the superintendent or designee in consultation with school nursing personnel, other treatment options exist and the administration of the medication by school personnel would pose a substantial risk of harm to the student or others.

For purposes of this policy, all references to "parent" include parents, legal guardians, and legal custodians. In addition, for purposes of this policy, the term "health care practitioner" is limited to licensed medical professionals who are legally authorized to prescribe medications under North Carolina law, such as doctors of medicine, doctors of osteopathic medicine, physician assistants, and nurse practitioners.

Unless otherwise indicated, the terms "medication" and "medicine" include any substance intended for use in the diagnosis, cure, mitigation, treatment, or prevention of any disease. The term includes all prescription medications and all such substances available over-the-counter without a prescription, such as drugs, herbs, alternative medicines, and supplements (hereinafter "over-the-counter drugs"). The administration of any prescription or over-the-counter drug to students by school employees is prohibited except when performed in accordance with Section A.

The self-administration of any prescription or over-the-counter drug by students at school is prohibited and constitutes a violation of policy 4325, Drugs and Alcohol, except in the limited circumstances described in Section C.

The administration, including by parents, school employees, or self-administration, of any substance containing cannabidiol (CBD) or tetrahydrocannabinol (THC) at school is prohibited unless the CBD or THC product is available by prescription only and has been approved by the U.S. Food & Drug Administration (FDA) and all requirements of this policy are met.

A. Medication Administration by School Employees

1. Conditions for Administering Medication

Authorized school employees may administer medication to students when all of the following conditions are met. These conditions apply to all medications, including those available over-the-counter without a prescription.

- a. Parental Consent: The student's parent must make a signed, written request that authorizes school personnel to administer the medication to the student.
- b. Medication Authorization/Order: A health care practitioner must prescribe the medication for use by the student and provide explicit written instructions for administering the medication.
- c. Certification of Necessity: The student's health care practitioner must certify that administration of the medication to the student during the school day is necessary to maintain and support the student's continued presence in school.
- d. Proper Container/Labeling: If the medication to be administered is available by prescription only, the parent must provide the medication in a pharmacy-labeled container with the child's name, the name of the medication, the exact dose to be given, the time/frequency the medication is to be given, the route of administration, the number of doses in the container, and the expiration date of the medication. If the medication is available over-the-counter, it must be provided in the original container or packaging, labeled with the student's name.
- e. Proper Administration: The employee must administer the medication pursuant to the health care practitioner's written instructions provided to the school by the student's parent, and in accordance with professional standards.

The board of education and its employees assume no liability for complications or side effects of medication when administered in accordance with the instructions provided by the parent and health care practitioner.

2. Procedures for Administering Medications

The superintendent shall develop procedures for the implementation of this policy. The procedures and a copy of this policy must be made available to all students and parents each school year. The superintendent's procedures should be developed according to the guidelines listed below.

- a. The health and welfare of the student must be of paramount concern in all decisions regarding the administration of medication.
- b. Procedures for medication administration must be consistent with recommendations of the School, Adolescence and Child Health Unit of the Whole Child Health Section of the Division of Child and Family Well-Being of the N.C. Department of Health and Human Services, as described in the *North Carolina School Health Program Manual*.

c. Students with special needs are to be afforded all rights provided by federal and state law as enumerated in the *Policies Governing Services for Children with Disabilities*. Students with disabilities also are to be afforded all rights provided by anti-discrimination laws, including Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act.

d. Except as permitted by this policy, no student may possess, use, sell, deliver, or manufacture any drug or counterfeit drug prohibited by policy 4325, Drugs and Alcohol, nor be under the influence of any drug in violation of that policy.

e. The board generally encourages school personnel to administer medication from a centralized location. However, in all instances, whether administered from a centralized location or multiple locations, any medications kept at school for a student must be kept in a locked and secure place. An exception to the requirement for locked storage may be made for emergency medications that must be immediately accessible. Access to controlled substances should be limited to the school nurse, school staff person authorized to administer medication, and the principal or designee.

f. All school personnel who will be administering medications must receive appropriate training.

g. Only medications clearly prescribed for the student may be administered by school personnel. At the time a parent brings a medication to school for administration, if school personnel have concerns regarding the appropriateness of the medication or dosage for a student, a confirmation should be obtained from the student's health care practitioner or another health care practitioner prior to administering the medication or allowing a student to self-administer the medication.

h. Although efforts should be made not to disrupt instructional time, a parent has the right to administer medication to his or her child at any time while the child is on school property, unless otherwise prohibited by this policy.

i. Written information maintained by school personnel regarding a student's medicinal and health needs is confidential. Parents and students must be accorded all rights provided by the Family Educational Rights and Privacy Act and state confidentiality laws. Any employee who violates the confidentiality of the records may be subject to disciplinary action.

- j. The first dose of any new medication should be administered at home.

B. Emergency Medication

Students who are at risk for medical emergencies, such as those with diabetes, asthma, or severe allergies, must have an emergency health care plan developed for them to address emergency administration of medication. Students must meet the requirements of subsection A.1, above, including providing authorization and instructions from the health care practitioner and written consent of the parent, in order for emergency medication to be administered by school personnel while the student is at school, at a school sponsored activity, and/or while in transit to or from school or a school-sponsored event.

C. Student Self-Administering Medications

The board recognizes that students with certain health conditions like diabetes or asthma, or an allergy that could result in an anaphylactic reaction, may need to possess and self-administer medication on school property in accordance with their individualized health care plan or emergency health care plan.

Students are prohibited from self-administering medication at school unless (1) the medicine has been prescribed for the treatment of diabetes, asthma, or anaphylactic reactions, including insulin or a source of glucose, a prescribed asthma inhaler, or a prescribed epinephrine delivery system; (2) the medicine is administered in accordance with the student's individualized health care plan or emergency health care plan and any relevant administrative regulations; and (3) the requirements of this section are met. The superintendent shall develop procedures for the possession and self-administration of such medication by students on school property during the school day, at school-sponsored activities, and/or while in transit to or from school or school-sponsored events.

1. Authorization to Self-Administer Medication

Before a student will be allowed to self-administer medication pursuant to this subsection, the student's parent must provide to the principal or designee all of the documents listed below:

- a. written authorization from the student's parent for the student to possess and self-administer the medication;
- b. a written statement from the student's health care practitioner verifying that:
 - 1) the student has diabetes or asthma, or an allergy that could result in anaphylactic reaction;

2) the health care practitioner prescribed the medication for use on school property during the school day, at school-sponsored activities, or while in transit to or from school or school-sponsored events; and

3) the student understands, has been instructed in self-administration of the medication, has demonstrated the skill level necessary to use the medication and any accompanying device;

c. a written treatment plan and written emergency protocol formulated by the prescribing health care practitioner for managing the student's diabetes, asthma, or anaphylaxis episodes and for medication use by the student;

d. a statement provided by the school system and signed by the student's parent acknowledging that the board of education and its employees and agents are not liable for injury arising from the student's possession and self-administration of the medication; and

e. any other documents or items necessary to comply with state and federal laws.

Prior to being permitted to self-administer medication at school, the student also must demonstrate to the school nurse, or the nurse's designee, (1) the skill level necessary to use the medication and any device necessary for its administration; and (2) sufficient knowledge and maturity to be independent in the management of the medication with no oversight from school staff.

The student's parent must provide to the school backup medication that school personnel are to keep in a location to which the student has immediate access in the event the student does not have the required medication.

All information provided to the school by the student's parent must be reviewed by the school nurse and kept on file at the school in an easily accessible location. Any permission granted by the principal or designee for a student to possess and self-administer medication will be effective only for the same school for 365 calendar days. Such permission must be renewed each school year.

2. Responsibilities of the Student

A student who is authorized in accordance with this policy to carry medication for self-administration must carry the medication in the original labeled container with the student's name on the label.

3. Consequences for Improper Use

A student who uses his or her medication in a manner other than as prescribed or who permits another person to use the medication may be subject to disciplinary action pursuant to the school disciplinary policy. However, school officials shall not impose disciplinary action on the student that limits or restricts the student's immediate access to the diabetes, asthma, or anaphylactic medication.

The board does not assume any responsibility for the administration of medication to a student by the student, the student's parent, or any other person who is not authorized by this policy to administer medications to students.

RECRUITMENT AND SELECTION OF PERSONNEL

Policy Code:

7100

A. GENERAL PRINCIPLES

It is the policy of the board to provide all applicants for employment with equal employment opportunities and to provide current employees with training, compensation, promotion, and other benefits of employment without regard to race, color, religion, national origin, military affiliation, genetic information, sex, age (40 or older), or disability, except when sex, age, or physical requirements are essential occupational qualifications. All candidates will be evaluated on their merits and qualifications for positions. All employment decisions will be consistent with the board's objective of providing students with the opportunity to receive a sound basic education, as required by state law.

The board also is committed to diversity throughout the programs and practices of the school system. To further this goal, the recruitment and employment program should be designed to encourage a diverse pool of qualified applicants.

B. RECRUITMENT

Recruitment for a specific vacancy will be undertaken only after the need and qualifications for the position are established and proper authorization is obtained.

All vacancies must be adequately publicized within the school system so that employees will be informed of opportunities for promotion or transfer to new jobs; however, the superintendent or designee may forgo publicizing a vacancy if the position will be filled through a lateral assignment, reassignment, or promotion of a current employee or if exigent circumstances necessitate that the position be filled immediately. Vacancies also may be publicized externally to attract qualified applicants.

C. CRIMINAL HISTORY

1. Reporting Arrests, Charges, and Convictions

Except as otherwise provided in Section D of this policy, applicants must notify the assistant superintendent of human resources immediately if they are arrested, charged with, or convicted of a criminal offense (including entering a plea of guilty or *nolo contendere*) other than a minor traffic violation (i.e., speeding, parking, or a lesser violation). Notice must be in writing, must include all pertinent facts, and must be delivered to the assistant superintendent of human resources no later than the next scheduled business day following the arrest, charge, or conviction, unless the applicant is hospitalized or incarcerated, in which case the applicant must report the alleged violation within 24 hours after his or her release. Upon judicial action in the matter, the applicant must report the disposition and pertinent facts in writing to the assistant superintendent of human resources no later than the next business

day following adjudication.

2. Criminal History and Sex Offender Registry Checks of Candidates for Employment

A criminal history check and a check of sex offender registries must be conducted on all final candidates for employment with the school system. Criminal history checks must be conducted in accordance with state law and any procedures established by the superintendent. The board will pay for costs associated with criminal history checks of candidates for employment. School officials shall not require candidates to disclose expunged arrests, charges, or convictions and shall not ask candidates to voluntarily disclose such information without first advising that disclosure is not required. The superintendent or designee shall report to the State Board of Education any licensed individual who is found to have a criminal history, as required by State Board policy.

Special requirements are described in Section D of this policy for criminal history checks of candidates for certain positions working with pre-school children or working in afterschool or developmental day programs.

3. Criminal History and Sex Offender Registry Checks for Contractors

Each contract executed by the board with an independent contractor or for services of independent contractors must require the contractor to check sex offender registries as specified in policy 5022, Registered Sex Offenders.

Any individual contracted under G.S. 115C-253 to provide transportation services to students must also undergo a criminal history check before acting as a driver under the contract. The terms of the contract may require the individual to pay for the cost of the criminal history check. A new criminal history check will not be required if the board receives the results of a criminal history check performed on the individual by another North Carolina school system within the past three years in accordance with the requirements of G.S. 115C-332(k).

4. Exclusion from Hiring Based on Criminal Conduct

A final candidate for employment or for hiring as an independent contractor will be excluded from hiring on the basis of criminal conduct only when doing so is job-related and consistent with business necessity. If a final candidate is found to have been convicted (including entering a plea of guilty or *nolo contendere*) of a criminal offense, other than a minor traffic violation, the superintendent shall determine whether the individual is qualified for employment despite the criminal history by considering, among other things, whether the individual poses a threat to the safety of students or personnel or has demonstrated that he or she does not have the integrity or honesty to fulfill the duties of the position. The following factors will be considered in making this determination: (1) the nature and gravity of the offense or conduct; (2) the time that has passed since the offense or conduct and/or

completion of the sentence; and (3) the nature of the job sought. Before the superintendent may exclude a final candidate based on his or her past criminal convictions, the superintendent must give the candidate the opportunity to demonstrate that the exclusion does not properly apply to him or her. The requirements of this paragraph do not apply to a child care provider who is determined to be disqualified by the Division of Child Development and Early Education on the basis of a criminal history check conducted pursuant to G.S. 110-90.2, 42 U.S.C. 9858f, and 45 C.F.R. 98.43. (See Section D of this policy).

The board has determined that every position with the school system, regardless of whether the position is located in a school or elsewhere, potentially entails contact with students, either on a regular, occasional, or emergency basis. For that reason, no individual who is a registered sex offender subject to the provisions of policy 5022, Registered Sex Offenders, will be hired for any position with the school system.

D. CRIMINAL HISTORY CHECKS OF CHILD CARE PROVIDERS

For purposes of this section, a “child care provider” is:

1. any person who works or is a final candidate seeking to work in a classroom or program licensed by the Department of Health and Human Services, Division of Child Development and Early Education (DCDEE); and
2. any person, including a volunteer, who has unsupervised contact with children enrolled in such classrooms or programs.

Before beginning initial employment or volunteer service and at least every five years thereafter, each child care provider must complete a criminal background check that meets the requirements of G.S. 110-90.2, 42 U.S.C. 9858f, and 45 C.F.R. 98.43 and present a letter issued by DCDEE indicating that the individual is qualified to have responsibility for the safety and well-being of children based on the individual’s criminal history.

No person shall (1) be employed, continue to be employed, or be permitted to volunteer as a child care provider, or to otherwise have unsupervised contact with students enrolled in a licensed classroom or program operated by the school system or (2) be counted in the staff/child ratio of such classroom or program, unless the person holds a current valid qualification letter issued by DCDEE. However, a child care provider with provisional status may be employed pending final results of the criminal background check but shall be subject to the restrictions established by 10A N.C.A.C. 09 .2703(f).

The application fee and cost of fingerprinting associated with the DCDEE criminal history check process shall be borne by the board.

A child care provider who has incurred any pending charges, indictments, or convictions (other than minor traffic offenses) since the last qualification letter was issued by DCDEE

shall notify the assistant superintendent of human resources in writing of such charges within five business days or before returning to work, whichever comes first. The assistant superintendent of human resources shall notify DCDEE within one business day of being notified.

The superintendent or designee shall include the criminal history mandatory reporting requirement in all new employee orientation information for child care providers. The superintendent shall also be responsible for establishing effective recordkeeping methods and other processes as necessary to ensure compliance with all legal requirements pertaining to criminal history record checks of child care providers.

E. SELECTION

1. Qualifications

Candidates for employment must be selected based upon their likely ability to fulfill duties identified in the job description as well as performance standards established by the board. In making the determination, the following information must be considered:

- a. application;
- b. education and training;
- c. licensure and certification (when applicable);
- d. relevant experience;
- e. personal interviews; and
- f. references and/or background checks.

When several applicants for the same position are equally qualified and suitable for the position, employees within the school system will be given priority.

2. Nepotism

- a. For purposes of this subsection, the following definitions apply.
 - i. “Immediate family” means spouse, parent, child, brother, sister, grandparent, or grandchild. The term includes the step, half, and in-law relationships.
 - ii. “Central office staff administrator” includes directors, supervisors, specialists, staff officers, assistant superintendents, area superintendents, superintendents, and principals.

- b. Before any immediate family of any board of education member or central office staff administrator is employed by the board or engaged in any capacity as an employee, independent contractor, or otherwise, (1) the board member or central office staff administrator must disclose the familial relationship to the board and (2) the prospective employment or engagement must be approved by the board in a duly called open session meeting.
 - i. An employee who knowingly fails to disclose a familial relationship to the board as required will be subject to disciplinary action up to and including dismissal.
 - ii. Notification by the employee to the assistant superintendent of human resources will be deemed disclosure to the board. The assistant superintendent of human resources is responsible for conveying the disclosure to the board before the board takes action on the prospective employment or engagement.
- c. When making recommendations for the selection and assignment of personnel, the superintendent shall attempt to avoid situations in which one employee occupies a position in which he or she has influence over the employment status, including hiring, salary, and promotion, of another employee who is a member of the first employee's immediate family.
- d. No administrative or supervisory personnel may directly supervise a member of his or her immediate family.

3. Employment Procedures

All applicants selected for employment must be recommended by the superintendent and approved by the board. In situations in which the employee must be hired between board meetings, the superintendent is authorized to approve hiring such personnel, contingent upon approval by the board at its next scheduled board meeting.

State guidelines must be followed in selection and employment procedures. The superintendent shall develop any other procedures necessary to implement this policy.

The superintendent shall develop procedures for verifying new employees' legal status or authorization to work in the United States as required by law.

Personnel files, which may consist of paper or electronic records, will be maintained in the human resources office for all employees as provided by law. The superintendent and all supervisors are directed to ensure that all appropriate employment-related information is submitted to the files. Employees will be provided with all procedural protections as provided by law.

The superintendent has overall responsibility for granting or denying access to personnel records consistent with this policy.

A. RECORDS MAINTAINED

The following records must be maintained in the personnel file:

1. evaluation reports made by the administration;
2. commendations for and complaints against the employee (see Section C);
3. written suggestions for corrections and improvements made by the administration;
4. certificates;
5. employee's standard test scores;
6. employee's academic records;
7. application forms;
8. any request to the State Board of Education to revoke the employee's teaching license; and
9. other pertinent records or reports.

B. CERTAIN EMPLOYEE RECORDS MAINTAINED SEPARATELY

The following employee information must be kept separate from the employee's general personnel information, in accordance with legal and/or board requirements.

1. Pre-Employment Information

Letters of reference about an employee obtained before his or her employment and, for teachers, any other pre-employment information collected, must be filed separately from the employee's general personnel information and must not be made available to the employee.

2. Criminal Record Check

Data from a criminal history check must be maintained in a locked, secure location separate from the employee's personnel file. The superintendent shall designate which school officials have a need to know the results of the criminal history check. Only those officials so designated may obtain access to the records.

3. Medical Information

Employee medical information, including the following, must be kept in a separate confidential file and may be subject to special disclosure rules:

- a. health certificates (see policy 7120, Employee Health Certificate);
- b. drug test results, except that drug use or alcohol use contrary to board policy or law also may be documented in the employee's personnel file (see policy 7241, Drug and Alcohol Testing of Commercial Motor Vehicle Operators);
- c. information related to an employee's communicable disease/condition or possible occupational exposure to bloodborne pathogens (see policies 7260, Occupational Exposure to Bloodborne Pathogens, and 7262, Communicable Diseases – Employees);
- d. medical information related to leave under the Family and Medical Leave Act (see policy 7520, Family and Medical Leave); and
- e. genetic information, as defined by the Genetic Information Nondiscrimination Act of 2008.

4. Complaints/Reports of Harassment or Discrimination

The superintendent or designee shall maintain records of all reports and complaints of harassment and discrimination and the resolution of such complaints. Allegations of harassment or discrimination must be kept confidential to the extent possible. Employees involved in the allegations will be identified only to individuals who need the information to investigate or resolve the matter, or to ensure that due process is provided to the accused employee (see policies 1710/4020/7230, Discrimination and Harassment Prohibited by Federal Law, 1720/4030/7235, Title IX Nondiscrimination on the Basis of Sex, 1725/4035/7236, Title IX Sexual Harassment – Prohibited Conduct and Reporting Process, 1726/4036/7237, Title IX Sexual Harassment Grievance Process, and 1735/4329/7311, Bullying and Harassing Behavior Prohibited).

If the allegations are substantiated through investigation, the superintendent or designee shall ensure that the provisions of Section C, below, are followed to the extent that they do not conflict with the rights of any individual.

C. PLACEMENT OF RECORDS IN PERSONNEL FILE

All evaluations, commendations, complaints, or suggestions for correction or improvement must be placed in the employee's central office personnel file after the following requirements are met:

1. the comment is signed and dated by the person who made the evaluation, commendation, complaint, or suggestion;
2. if the comment is a complaint, the employee's supervisor has attempted to resolve the issue raised therein and documentation of such efforts is attached with the supervisor's recommendation to the superintendent as to whether the complaint contains any invalid, irrelevant, outdated, or false information; and
3. the employee has received a copy of the evaluation, commendation, complaint, or suggestion five days before it is placed in the file.

All written complaints that are signed and dated must be submitted regardless of whether the supervisor considers the complaint to be resolved.

The supervisor is expected to use good judgment in determining when a document should be submitted to the file immediately and when a delay is justified, such as when there exists a plan of improvement that is frequently revised. However, all evaluations, commendations, complaints, or suggestions for correction or improvement should be submitted by the end of the school year or in time to be considered in an evaluation process, whichever is sooner. The supervisor or principal should seek clarification from the associate superintendent of human resources as necessary to comply with this policy.

The employee may offer a denial or explanation of the evaluation, commendation, complaint, or suggestion, and any such denial or explanation will become part of his or her personnel file, provided that it is signed and dated.

The superintendent may exercise statutory authority not to place in an employee's file a letter of complaint that contains invalid, irrelevant, outdated, or false information, or a letter of complaint when there is no documentation of an attempt to resolve the issue.

As provided in policy 7900, Resignation, if a career employee who has been recommended for dismissal under the applicable state law resigns without the written consent of the superintendent, then: (1) the superintendent shall report the matter to the State Board of Education; (2) the employee shall be deemed to have consented to the placement of the written notice of the superintendent's intention to recommend dismissal in the employee's personnel file; and (3) the employee shall be deemed to have consented to the release to prospective employers, upon request, of the fact that the superintendent has reported this employee to the State Board of Education. For purposes of this provision, "career

employee” means (1) a teacher or an administrator with career status, or (2) an administrator or a non-career status teacher during the term of his or her contract.

D. ACCESS TO PERSONNEL FILE

1. Every employee has the right to inspect his or her personnel file, including any portions of the file maintained in electronic format only, during regular working hours, provided that three days’ notice is given to the human resources office.
2. The following persons may be permitted to access a personnel file without the consent of the employee about whom the file is maintained:
 - a. school officials involved in the screening, selection, or evaluation of the individual for employment or other personnel action;
 - b. members of the board of education, if the examination of the file relates to the duties and responsibilities of the board member;
 - c. the board attorney;
 - d. the superintendent and other supervisory personnel;
 - e. the hearing officer in a demotion or dismissal procedure regarding the employee; and
 - f. law enforcement and the District Attorney to assist in the investigation of a report made to law enforcement pursuant to G.S. 115C-288(g) or regarding an arson; an attempted arson; or the destruction of, theft from, theft of, embezzlement from, or embezzlement of any personal or real property owned by the board. Five days’ written notice will be given to the employee prior to such disclosure.
3. No other person may have access to a personnel file except under the following circumstances:
 - a. when an employee gives written consent to the release of his or her records, which specifies the records to be released and to whom they are to be released;
 - b. pursuant to a subpoena or court order;
 - c. when the board has determined, and the superintendent has documented, that the release or inspection of information is essential to maintaining the integrity of the board or the quality of services provided by the board; or

- d. the superintendent or designee determines that disclosure to a court of law, or a state or federal administrative agency having a quasi-judicial function, is necessary to adequately defend against a claim filed by a current or former employee against the board or a school official or employee for any alleged act or omission arising during the course and scope of his or her official duties or employment. Such disclosures will be limited to those confidential portions of the personnel file of the employee who filed the claim and only to the extent necessary for the defense of the board.
4. Each request for consent to release records must be handled separately.
5. It is a criminal violation for an employee or board member to do either of the following:
 - a. knowingly, willfully, and with malice, permit any unauthorized person to have access to information contained in a personnel file; or
 - b. knowingly and willfully examine, remove, or copy a personnel file that he or she is not specifically authorized to access pursuant to G.S. 115C-321.

E. INFORMATION AVAILABLE TO PARENTS OF STUDENTS ATTENDING TITLE I SCHOOLS

The following information about a student's teacher(s) or paraprofessional(s) providing services to a student must be provided upon request to the parent of a student attending a Title I school:

1. whether the teacher has met North Carolina qualification and licensing criteria for the grade level(s) and subject area(s) in which the teacher provides instruction;
2. whether the teacher is teaching under emergency or other provisional status through which North Carolina qualification or licensing criteria have been waived;
3. whether the teacher is teaching in the field of discipline of his or her certification; and
4. the qualifications of any paraprofessional providing services to the student.

 - a. name;
 - b. age;

- c. the date of original employment or appointment;
 - d. the terms of any past or current contract by which the employee is employed, whether written or oral, to the extent that the board has the written contract or a record of the oral contract in its possession;
 - e. current position;
 - f. title;
 - g. current total compensation from all funding sources, including at least salary (including pay, benefits, incentives, supplements, bonuses, deferred compensation, and all other forms of compensation paid to the employee) and reimbursements and allowances (including travel-related reimbursements and allowances);
 - h. the date and amount of each increase or decrease in total compensation with the board;

- 2. The name of a participant in the North Carolina Address Confidentiality Program is not a public record, is not open to inspection, and must be redacted from any records released.
 - 3. Volunteer records are not considered public records.
 - 4. Under no circumstances will the following be released pursuant to a public records request or as part of any employee directory:
 - a. personal identifying information, as defined in policy 4705/7825, Confidentiality of Personal Identifying Information; or

CLASS SIZE EXCEPTION STATEMENT

Asheboro City Schools currently has one classroom that exceeds the Legislative Class Size individual class maximum pursuant to N.C.G.S. § 115C-301(c). This third-grade class at Donna Lee Loflin Elementary has 21 students—one above the allowable maximum. The other third-grade class had 20 students at the time of reporting (10/31/2025) and has since decreased to 19 students.

After consultation with Principal Hayes, we do not believe it is in the best interest of students to initiate a classroom reassignment at this point in the school year. Maintaining consistency and stability is critical for student success. A mid-year classroom change can significantly disrupt a child's social-emotional well-being, established peer relationships, and overall sense of belonging within their classroom community. Students in both classes have already developed strong connections with their teacher, their peers, and daily routines and expectations. Transitioning a student to a new classroom environment this late in the year would require rebuilding those supports, potentially creating unnecessary stress and hindering academic and social-emotional progress.

For these reasons, the school recommends maintaining current placements while continuing to support all students within the existing classroom structures and a waiver request has been submitted for consideration.

PURSUANT TO N.C.G.S. 115C-301(j)

I, Aaron M. Woody first being sworn, attest that:
(Print Name)

1. I am the Superintendent of Asheboro City Schools.
(Print Name of Local School Administrative Unit)
2. This affidavit is based on my personal knowledge and upon information made available to me in the performance of my official duties.
3. STUDENT AND PARENT GRIEVANCE PROCEDURE

Policy Code: **1740/4010**

A. OPTIONS FOR RESOLVING COMPLAINTS

The board strives to resolve concerns and complaints of students and parents whenever possible. To this end, the board has provided opportunities for students and parents to express their concerns through processes established in board policies. Policy 1742/5060, Responding to Complaints, identifies these different processes, including a mechanism for resolving complaints in an informal manner.

While the board encourages resolutions of complaints through informal means, it recognizes that, at times, a formal process may be necessary for certain types of complaints or if the informal process did not produce satisfactory results. This policy provides a complaint procedure that may be used as described below.

Any parent or student who has questions about the options for proceeding with a complaint or concern may contact the principal or superintendent for further information and copies of all applicable board policies.

B. DEFINITIONS

1. Days

Days are working days, exclusive of Saturdays, Sundays, vacation days, or holidays, as set forth in the school calendar. In counting days, the first day will be the first full working day following the receipt of the grievance. After May 1, time limits will consist of all weekdays (Monday – Friday) so that the matter may be resolved before the close of the school term or as soon thereafter as possible.

2. Final Administrative Decision

A final administrative decision is a decision of a school employee from which no further appeal to a school administrator is available.

3. Grievance

A grievance is a formal complaint regarding specific decisions made by school personnel that alleges that such decisions have adversely affected the person making the complaint. A grievance includes, but is not limited to, circumstances such as when a student or parent believes that board policy or law has been misapplied, misinterpreted, or violated. The term “grievance” does not include any matter for which the method of review is prescribed by law, for which there is a more specific board policy providing a process for addressing the concern, or upon which the board is without authority to act.

4. Grievant

The grievant is the parent, student, or group of parents or students submitting the grievance.

5. Parent

All references to parent include a student's parent, legal guardian, legal custodian, or another caregiver adult authorized to enroll a student under policy 4120, Domicile or Residence Requirements.

C. TIMELINESS OF PROCESS

The number of days indicated at each step of the grievance process should be considered a maximum, and every effort should be made to expedite the process.

Failure by a school system official at any step to communicate a decision within the specified time limit will permit the grievant to appeal the grievance to the next step unless the official has notified the grievant of the delay and the reason for the delay, such as the complexity of the investigation or report. The official shall make reasonable efforts to keep the grievant apprised of progress being made during any period of delay. Delays that interfere with the exercise of the grievant's legal rights are not permitted.

Failure by the grievant at any step of the process to appeal a grievance to the next step within the specified time limit will be considered acceptance of the decision at the current step, unless the grievant has notified the appropriate school system official of a delay and the reason for the delay and the official has consented in writing to the delay.

D. GENERAL REQUIREMENTS

1. No reprisals of any kind will be taken by the board or by an employee of the school system against any grievant or other student or employee because of his or her participation in a grievance filed and decided pursuant to this policy.
2. All meetings and hearings conducted pursuant to this policy will be private unless the Open Meetings Law requires that a board meeting or hearing be open to the public (see policies 2320, Compliance with the Open Meetings Law, 2321, Closed Sessions, and 2500, Hearings Before the Board).
3. The board and school system officials will consider requests to hear grievances from a group of grievants, but the board and officials have the discretion to hear and respond to grievants individually.
4. The grievant may have a representative, including an attorney, at any stage of the grievance. However, if the grievant intends to be represented by legal counsel, he

or she must notify the appropriate school official in advance so that school personnel also will have the opportunity to be represented by legal counsel. At any meeting or hearing during the grievance process, a student grievant may be accompanied by a parent as well as a representative.

E. PROCESS FOR GRIEVANCE

1. Filing a Grievance

- a. Whenever a student or parent believes that he or she has been adversely affected by a decision of a school employee, the student or parent may file a grievance as provided in this policy.
- b. A grievance must be filed as soon as possible but no later than 30 days after disclosure or discovery of the facts giving rise to the grievance. For a grievance submitted after the 30 day period that claims a violation, misapplication or misinterpretation of state or federal law, the superintendent or designee shall determine whether the grievance will be investigated after considering factors such as the reason for the delay; the extent of the delay; the effect of the delay on the ability of the school system to investigate and respond to the complaint; and whether the investigation of the complaint is necessary to meet any legal obligations. However, students and parents should recognize that delays in filing a grievance may significantly impair the ability of the school system to investigate and respond effectively to such complaints.
- c. A student or parent who has a grievance must provide the following information in writing to the principal: (1) the name of the school system employee or other individual whose decision or action is at issue; (2) the specific decision(s) or action(s) at issue; (3) any board policy, state or federal law, state or federal regulation, or State Board of Education policy or procedure that the parent or student believes has been misapplied, misinterpreted, or violated; and (4) the specific resolution desired. If there is not a specific decision or action at issue and no concern that state or federal law has been misapplied, misinterpreted, or violated, then the procedure established in policy 1742/5060 is appropriate, and the principal shall address the concern following that policy.
- d. Even if the principal is the employee whose decision or action is at issue, the student or parent must submit the grievance first to the principal in order for the principal to address the issue within the formal process. If, however, the grievance claims that a state or federal law has been misapplied, misinterpreted, or violated, the student or parent may submit the grievance directly to the superintendent or designee.
- e. If a student or parent wants to initiate a formal grievance regarding a

decision by the superintendent that directly and specifically affects the student or parent, the general process described in this policy will be used, except that the grievance will be submitted to the assistant superintendent of human resources, who shall forward the grievance to the board chairperson.

2. Investigation

- a. The principal shall schedule and hold a meeting with the grievant within five school days after the grievance has been filed with the principal.
- b. The principal shall conduct any investigation of the facts necessary before rendering a decision.

3. Response by Principal

- a. The principal shall provide a written response to the grievance within 10 days of meeting with the grievant. The response will include the principal's decision regarding resolution of the grievance and the basis for the decision. In responding, the principal may not disclose information about other students or employees that is considered confidential by law.
- b. A copy of the grievance and the principal's response will be filed with the superintendent.

4. Response by Superintendent

- a. If the grievant is dissatisfied with the principal's decision, the grievant may appeal the decision to the superintendent. The appeal must be made in writing within five days of receiving the principal's decision.
- b. The superintendent may review the written documents and respond or the superintendent may schedule and hold a conference with the grievant, principal, and any other individuals the superintendent determines to be appropriate within five school days after receiving the appeal.
- c. The superintendent shall provide a written response within 10 days after receiving the appeal. In responding, the superintendent may not disclose information about other students or employees that is considered confidential by law.

5. Appeal to the Board

If the grievant has alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or local board of education policy or procedure, the grievant will have the right to appeal a final

administrative decision to the board of education (see subsection E.5.a, Mandatory Appeals, below). If a grievant has not alleged such specific violations, he or she may request a board hearing, which the board may grant at its discretion (see subsection E.5.b, Discretionary Appeals, below).

a. Mandatory Appeals

- 1) If the grievant is dissatisfied with the superintendent's response to his or her grievance and has alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or local board of education policy or procedure, the grievant may appeal the decision to the board within five days of receiving the superintendent's response.
- 2) A hearing will be conducted pursuant to policy 2500, Hearings Before the Board.
- 3) The board will provide a final written decision within 30 days of receiving the appeal unless further investigation is necessary or the hearing necessitates that more time be taken to respond.

b. Discretionary Appeals

- 1) If the grievant is dissatisfied with the superintendent's response to his or her grievance but has *not* alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or local board of education policy or procedure, then within five days of receiving the superintendent's response, the grievant may submit to the superintendent a written request for a hearing before the board of education.
- 2) If the full board will be meeting within two weeks of the request for a hearing, the board will decide at that time whether to grant a hearing. Otherwise, the board chairperson will appoint a three-person panel to review the request and determine whether to (1) deny the appeal; (2) review the superintendent's decision on the written record only; or (3) grant a hearing. The panel will report the decision to the board. The board may modify the decision of the panel upon majority vote at a board meeting.
- 3) If the board denies the appeal, the decision of the superintendent will be final and the grievant will be notified within five days of the board's decision.
- 4) If the board decides to grant a hearing, the hearing will be conducted pursuant to policy 2500.

- 5) The board will provide a final written decision within 30 days of the decision to grant an appeal, unless further investigation is necessary or the hearing necessitates that more time be taken to respond.

F. NOTICE

The superintendent or designee is responsible for providing effective notice to students, parents, and school system employees of the procedures for reporting and investigating grievances.

G. RECORDS

Appropriate records shall be maintained in accordance with state and federal law.

It is the policy of the board, in keeping with the ultimate goal of serving the educational welfare of children, to develop and practice reasonable and effective methods of resolving difficulties that may arise among employees. The intent is to reduce potential areas of grievances and to establish and maintain recognized channels of communications between staff and administration. The purpose of this procedure is to secure, at the lowest possible level, equitable solutions to the problems that arise from time to time and affect employees.

A. INFORMAL RESOLUTION

It is desirable for an employee and his or her immediate supervisor to resolve problems through free and informal communication. When informal procedures fail or are inappropriate or when the employee requests formal procedures, a grievance will be processed pursuant to the steps set forth in this policy.

B. DEFINITIONS

1. Days

Days are the working days, exclusive of Saturdays, Sundays, vacation days, or holidays, as set forth in the aggrieved employee's employment calendar. In counting days, the first day will be the first full working day following receipt of the grievance. When a grievance is submitted on or after May 1, time limits will consist of all weekdays (Monday – Friday) so that the matter may be resolved before the close of the school term or as soon thereafter as possible.

2. Final Administrative Decision

A final administrative decision is a decision of a school employee from which no further appeal to a school administrator is available.

3. Grievance

A grievance is a formal written claim by an employee regarding specific decision(s) made by another employee and alleging that such decision(s) have adversely affected the person making the claim. A grievance may include, but is not limited to, the following allegations:

- a. that there has been a violation, misapplication, or misinterpretation of state or federal law or regulations, school board policy, or administrative procedure;
- b. that an employee's employment status or the terms or conditions of his or her employment have been adversely affected; or

- c. that there exists a physical condition that jeopardizes an employee's health or safety or that interferes with an employee's ability to discharge his or her responsibilities properly and effectively.

The term "grievance" does not apply to any matter for which the method of review is prescribed by law, for which there is a more specific board policy providing a process for addressing the concern, or upon which the board of education is without authority to act.

4. Grievant

The grievant is the employee(s) making the claim.

5. Parties in Interest

"Parties in interest" refers to the grievant and the person against whom the grievance is filed.

C. TIMELINESS OF PROCESS

Failure by a school system official at any step to communicate a decision within the specified time limit will permit the grievant to appeal the grievance to the next step unless the official has notified the grievant of the delay and the reason for the delay, such as the complexity of the investigation or report. The official shall make reasonable efforts to keep the grievant apprised of progress being made during any period of delay. Delays may not impermissibly interfere with the exercise of the grievant's legal rights.

Failure by the grievant at any step to appeal a grievance to the next step within the specified time limit will be considered acceptance of the decision at that step, unless the grievant has notified the appropriate school system official of a delay and the reason for the delay and the official has consented in writing to the delay.

D. GENERAL REQUIREMENTS

- 1. At all times during the grievance process, all parties in interest and their representatives must conduct themselves in a professional manner, including respecting the confidentiality of personnel matters.
- 2. The board or an employee of the school system will take no reprisals of any kind against any party in interest or other employee on account of his or her participation in a grievance filed and decided pursuant to this policy.
- 3. Each decision will be in writing, setting forth the decision and reasons therefore, and will be transmitted promptly to all parties in interest.

4. All meetings and hearings conducted pursuant to this policy will be private unless the Open Meetings Law requires that a board meeting or hearing be open to the public (see policies 2320, Compliance with the Open Meetings Law, 2321, Closed Sessions, and 2500, Hearings Before the Board).
5. The board and administration will consider requests to hear grievances from a group of grievants but have the discretion to hear and respond to grievants individually.
6. The board and administration will cooperate with the grievant and representative in the investigation of any grievance and will furnish the grievant or representative information pertinent to the grievance without cost to the grievant or the employee against whom the grievance is filed.
7. The grievant may have a representative, including an attorney, at any stage of the grievance. However, if the grievant intends to be represented by legal counsel, he or she must notify the appropriate school official in advance so that school personnel also will have the opportunity to be represented by legal counsel.
8. Should, in the judgment of the superintendent or designee, the investigation or processing of any grievance require the absence of the grievant and/or representative from regular work assignments, such absences will be excused without loss of pay or benefits.

E. PROCESS FOR GRIEVANCE

1. Filing a Grievance
 - a. A grievance must be filed as soon as possible but no longer than 30 days after disclosure or discovery of the facts giving rise to the grievance. For a grievance submitted after 30 days that claims a violation, misapplication, or misinterpretation of state or federal law, the superintendent or designee shall determine whether the grievance will be investigated after considering factors such as the reason for the delay; the extent of the delay; the effect of the delay on the ability of the school system to investigate and respond to the complaint; and whether the investigation of the complaint is necessary to meet any legal obligations. However, employees should recognize that delays in filing a grievance may significantly impair the ability of the school system to investigate and respond effectively to such complaints.
 - b. All grievances must be in writing, and the written statement of grievance must remain the same throughout all steps of the grievance procedure. The written grievance must include the following information: (1) the name of the school system employee or other individual whose decision or action is at issue; (2) the specific decision(s), action(s), or physical condition at issue; (3) any local board policy, state or federal law, state or federal regulation,

or State Board of Education policy or procedure that the grievant believes has been misapplied, misinterpreted, or violated; and (4) the specific resolution desired. If there is not a specific decision, action, or physical condition at issue, or no concern that federal or state law, federal or state regulation, State Board of Education policy or procedure, or board policy or procedure has been misapplied, misinterpreted, or violated, then the procedure established in policy 1742/5060, Responding to Complaints, is appropriate, and the principal or immediate supervisor shall address the concern following that policy.

- c. The employee(s) shall present the grievance in writing to his or her immediate supervisor or the supervisor's designee, unless the grievance alleges that a state or federal law has been misapplied, misinterpreted, or violated, in which case the grievance may be presented instead to the assistant superintendent of human resources (or to the superintendent if the employee's supervisor is the assistant superintendent of human resources). The person receiving the grievance hereinafter will be referred to as "official." Any grievance against the superintendent should be filed directly with the board in accordance with subsection E.4, below.

2. Response by Official

- a. The official shall arrange for a grievance file number to be assigned by the human resources office.
- b. In the event the official determines at the outset that review by the official is inappropriate, the official shall forward the formal grievance to the superintendent who will investigate and respond as provided below in subsection E.3.
- c. The official shall meet with the grievant at a mutually agreed-upon time within five days after receipt of the grievance.
- d. The official shall conduct any investigation of the facts necessary before rendering a decision.
- e. The official shall provide the grievant with a written response to the grievance within 10 days after the meeting.

3. Response by Superintendent

- a. If the grievant is dissatisfied with the official's response, the grievant may appeal in writing the decision to the superintendent for review by the superintendent or designee within five days of receipt of the official's response.

- b. The superintendent or designee shall arrange for a meeting with the grievant to take place within five days of the receipt of the appeal.
- c. The superintendent or designee shall conduct any investigation necessary before arriving at a decision. The superintendent or designee shall provide the grievant with a written decision within 10 days after the meeting with the grievant.

4. Appeal to the Board

If the grievant has alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or board policy or procedure, or has alleged that a specific decision of a school official adversely affects the grievant's employment status or the terms or conditions of his or her employment, the grievant shall have a right to appeal a final administrative decision to the board of education (see subsection E.4.a, Mandatory Appeals, below). If the grievant has not alleged such specific violations, he or she may request a board hearing, which the board may grant at its discretion (see subsection E.4.b, Discretionary Appeals, below).

a. Mandatory Appeals

- 1) If the grievant is not satisfied with the superintendent's response and has alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or local board policy or procedure, or has alleged that a specific decision of a school official adversely affects the grievant's employment status or the terms or conditions of his or her employment, the grievant may appeal in writing the decision to the board within 10 days of receiving the superintendent's response.
- 2) A hearing will be conducted pursuant to policy 2500, Hearings Before the Board.
- 3) The board will provide a final written decision within 30 days of receiving the appeal unless further investigation is necessary or the hearing necessitates that more time be taken to respond.

b. Discretionary Appeals

- 1) If the grievant is not satisfied with the superintendent's response but has not alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or local board policy or procedure, or has not alleged that a specific decision of a school official adversely affects the grievant's employment status or the terms or conditions of his or her

employment, the grievant may submit to the superintendent a written request for a hearing before the board of education within 10 days of receiving the superintendent's response.

- 2) If the full board will be meeting within two weeks of the request for a hearing, the board will decide at that time whether to grant a hearing. Otherwise, the board chairperson will appoint a three-person panel to review the request and determine whether to (1) deny the appeal; (2) review the superintendent's decision on the written record only; or (3) grant a hearing. The panel will report the decision to the board. The board may modify the decision of the panel upon majority vote at a board meeting.
- 3) If the board denies the appeal, the decision of the superintendent will be final and the grievant will be notified within five days of the board's decision.
- 4) If the board decides to grant a hearing, the hearing will be conducted pursuant to policy 2500.
- 5) The board will provide a final written decision within 30 days of the decision to grant an appeal, unless further investigation is necessary or the hearing necessitates that more time be taken to respond.

F. RECORDS

Appropriate records will be maintained in accordance with state and federal law.

Policy Code: 2115 Unexpired Term Fulfillment

Vacancy of a board member elected in a non-partisan election:

All vacancies in the membership of the board of education caused by death, resignation or otherwise of a member who was elected in a non-partisan election, will be filled by a person appointed by the remaining members of the board to serve until the next election of board members, at which time the remaining unexpired term will be filled by election.

Immediately upon the occurrence of a vacancy in the membership of the board, an announcement of such vacancy shall be made at a board meeting. Asheboro City Schools

An evaluation system of students' academic performance is necessary to help ensure that all students are succeeding within the framework of the educational goals and objectives of the board. The board believes that the formal issuance of student evaluations on a regular basis promotes continuous assessment of a student's performance; informs the student, his or her parents or guardians, and the school counselor about the student's performance and progress; and provides a system of notice that allows intervention strategies to be implemented if necessary to improve the student's performance. The board encourages teachers and principals to pursue innovative methods of evaluating progress.

The superintendent or designee shall establish an evaluation system for assessing an individual student's academic achievement and progress relative to benchmarks set for students at that instructional level. The evaluation system should provide for regular communication with parents so that they may be informed and involved in their child's education.

Teachers shall evaluate student performance and keep accurate records in order to substantiate a grade or assessment given in a course.

All high schools, middle schools, and elementary schools will use the following grading scale.

A	90-100
B	80-89
C	70-79
D	60-69
F	< 59

The following letter grades also may be used as applicable.

FF	FF may be used for a student who does not have a passing grade based on content and also has been absent for at least 10% of the classes for the course.
INC	If a student has extenuating circumstances, such as a medical condition, the superintendent, principal, or other designee may approve the temporary use of incomplete (INC).
P	Pass (P) may be used for elective courses but may not be awarded for non-elective graduation requirements, unless a student transfers from an unaccredited or international school.
WP	Withdraw (WP) may be used for courses from which a student withdraws during the current semester and receives no course credit.
CDM	Credit by demonstrated mastery (CDM) will be used to reflect earning credit for a course through the CDM process.

The board recognizes the importance of setting rigorous graduation requirements to help ensure that students are receiving an education that will prepare them to be career and college ready and productive members of society.

In order to graduate from high school, students must meet the following requirements:

1. successful completion of all State Board of Education course unit requirements as described in Section A; and
2. successful completion of cardiopulmonary resuscitation instruction.

Principals shall ensure that students and parents are aware of the number and nature of credits required for high school graduation, the potential to complete high school graduation requirements in three years, and the availability of early graduate college scholarships.

A. COURSE UNITS

As described in State Board of Education Policy GRAD-004, all students must fulfill the course unit requirements of the Future-Ready Core Course of Study, unless they are approved for the Future-Ready Occupational Course of Study. The tables below list the course unit requirements for the Future-Ready Core Course of Study and the Future-Ready Occupational Course of Study, as well as additional course units recommended by the board, based on the student's year of entry into ninth grade for the first time. School counseling program staff shall assist students in selecting high school courses to ensure that students are taking all required units and selecting electives consistent with their post-graduation plans.

In accordance with policy 3101, Dual Enrollment, and State Board of Education requirements, students may earn high school credit for college courses completed. In addition, students may earn credit for certain high school courses in the Future-Ready Core Course of Study completed prior to grade nine, as authorized by the State Board of Education. Students also have the opportunity to meet course unit requirements without completing the regular period of classroom instruction by demonstrating mastery of the course material in accordance with policy 3420, Student Promotion and Accountability, and State Board of Education requirements. For students who have transferred to the school system during high school or who, for other reasons, have completed course work outside of the school system, the principal shall determine what course work will be applied as credit toward graduation. See policy 3420 for information regarding receiving credit toward graduation for courses taken abroad.

All awards of high school course credit must be consistent with State Board of Education requirements. Any inconsistency between board policy and State Board graduation requirements will be resolved by following the State Board requirements. While the board

endeavors to keep its policy up to date with current State Board of Education graduation requirements, students should verify current requirements with their school counselors when planning course schedules or making other decisions based on graduation requirements.

High school students must take all end-of-course (EOC) tests and Career and Technical Education (CTE) State Assessments required by the State Board of Education and pursuant to policy 3410, Testing and Assessment Program.

C. SPECIAL CIRCUMSTANCES

1. Honor Graduates

Honor graduates may be designated by principals on the basis of criteria established

by the superintendent. Recognition of honor graduates may be included in graduation programs.

2. Students with Disabilities

Graduation requirements must be applied to students with disabilities to the extent required by state and federal law and State Board policy.

3. Children of Military Families

In order to facilitate the on-time graduation of children of military families, as defined in policy 4050, Children of Military Families, school officials shall comply with the requirements of the Interstate Compact on Educational Opportunity for Military Children (G.S. 115C-407.5), G.S. 115C-407.12, and the following requirements.

a. Waiver Requirements

Specific course work required for graduation will be waived for children of military families if similar course work has been satisfactorily completed in another school system. If a waiver is not granted, school administrators shall provide the student with reasonable justification for the denial. If a waiver is not granted to a student who would qualify to graduate from the sending school, the superintendent or designee shall provide the student with an alternative means of acquiring the required course work so that the student may graduate on time.

b. Testing Requirements for Graduation

The superintendent shall accept from children of military families the following in lieu of any local testing requirements for graduation: (1) the end-of-course exams required for graduation from the sending state; (2) national norm-referenced achievement tests; or (3) alternative testing. If these alternatives are not feasible for a student who has transferred in his or her senior year, subsection c below will apply.

c. Transfers During Senior Year

If a child of a military family who has transferred at the beginning of or during his or her senior year is ineligible to graduate from the school system after all of the alternatives listed above have been considered and the student meets the graduation requirements at his or her sending school, then school officials from the school system shall collaborate with the sending school system to ensure that the student will receive a diploma from the sending board of education.

4. Early Graduation

Students have the option of graduating early by completing the State Board of Education minimum graduation requirements on an accelerated three-year pathway. Students choosing to use an accelerated pathway must follow the process required for early graduation as described in State Board Policies GRAD-001 and GRAD-006.

5. Graduation Certificates

Graduation certificates will be awarded to eligible students in accordance with the standards set forth in State Board Policy GRAD-010.

6. Diploma Endorsements

Students have the opportunity to earn diploma endorsements as described in State Board Policy GRAD-007. No endorsement is required to receive a diploma.

The board recognizes the unique circumstances faced by children of military families who are often required to transfer to a new school system because their parents or guardians have a new military assignment. The board also recognizes that children whose immediate family members are deployed by the military may be at increased risk of emotional, psychological, or other harm. The board is committed to supporting these children in the school system and undertaking to serve their unique needs.

A. IDENTIFICATION OF MILITARY-CONNECTED STUDENTS

Each principal shall annually identify all military-connected students enrolled in the school and shall develop a means for serving their unique needs. For purposes of this section, a military-connected student is defined as a student who has a parent, step-parent, sibling, or any other person who resides in the same household serving in the active or reserve components of the United States Army, Navy, Air Force, Marine Corps, Coast Guard, Space Force, or National Guard.

The identification of military-connected students is not a public record subject to public records law.

B. PROVIDING EDUCATIONAL OPPORTUNITY FOR CHILDREN OF MILITARY FAMILIES

The board strives to promote flexibility and cooperation among the school system, parents and guardians, and children of military families, to promote the children's well-being, and to assist these children in achieving educational success when transitioning to their new schools. To achieve these goals, the board has adopted policies consistent with the Interstate Compact on Educational Opportunity for Military Children (hereinafter "Compact") and G.S. 115C-407.12 to facilitate the enrollment of children of military families and to provide continuity in their educational services, including in the areas of education records, immunizations, age requirements for initial entry, course and education program placement, special education services, and extracurricular activities. Policy Code: 4130 Discretionary School Assignment

The Asheboro City Board of Education believes that in almost all cases the child should attend the school that serves his/her domicile. There are situations in which the superintendent or designee shall approve of an admission to the district from a different school system, release a student from the district to attend a different school system, or approve for a student to attend a school within the district other than the one the student is domiciled to attend. The superintendent or designee shall approve or deny requests for Discretionary School Assignment for students who do not meet the domicile or residence requirements outlined in policy 4120, Domicile or Residence Requirements. Applications from residents of the school system will be given consideration before others. Requests may be granted for up to one full school year. An application for Discretionary School Assignment must be submitted each subsequent school year in which Discretionary School Assignment is desired.

A. Criteria for Discretionary School Assignment

The parent, legal guardian, or legal custodian must make a written application to the office of the superintendent for Discretionary School Assignment. Such an application must be submitted by June 1. A decision will be made and notice mailed by June 30. In instances where there are extraordinary, compelling and specific circumstances that make the June 1 deadline impossible to comply with, the superintendent or designee may accept the application after June 1. In such cases, a decision will be made and notice mailed within 20 working days. A non-domiciled student may be admitted, at the discretion of the superintendent, or designee, under the following conditions.

1. One of the following criteria are met:

a. Employee of a Public School System

A student whose parent, legal guardian, or legal custodian is a permanent employee of the Asheboro City Schools may be admitted.

b. Change of Domicile

A student whose parent, legal guardian, or legal custodian plan to move within 90 days after the beginning of the school year may be assigned at the beginning of the school year to the school serving the student's new domicile. A student who changes his/her domicile during the course of the school year may be admitted to the school previously attended for the remainder of the school year. However, the student will be assigned according to the area in which they live at the beginning of the next school year. A student who changes his/her domicile during or after the completion of the 11th grade may be admitted for the 12th grade to the school serving his/her prior domicile.

c. Hardship

A student may be admitted because of undue hardship, or extraordinary, compelling, specific circumstances.

d. Special Curricular Needs

A student who is unable to obtain specially needed courses or programs in their regularly assigned school may be admitted to the Asheboro City Schools.

e. School Utilization

A student may be admitted when it would provide for the more orderly and efficient administration and operation of the schools in the district.

2. The superintendent or designee has determined that space is available in the school district and in the particular school or program in which the student seeks to enroll.

3. The student must demonstrate that he or she was in good standing in the previous school attended by that student, in terms of academics, discipline, attendance, and other measures of standing and progress in the school district. The student also must satisfy the requirements in policy 4115, Behavior Standards for Transfer Students.

4. With the initial application, the student must furnish a transcript and other student record data, including evidence of compliance with the North Carolina immunization requirements.

5. If the student is transferring from another school district in North Carolina, the student must submit a release approved by the board of education of the other school district from which the transfer is being made.

6. The student resides with his/her parent, legal guardian, or legal custodian.

B. Inter-District Agreement

In full compliance with North Carolina General Statutes [115C-366](#) and [366.1](#):

The Asheboro City Schools shall not accept a non-domiciliary student, who is not otherwise entitled to enroll, from another public school system in North Carolina unless the student presents a release of assignment from the public school system in which he/she is domiciled. If the release is accepted by the superintendent, subject to the standards established in policy 4130, this release and acceptance shall serve as the agreement between the two

school systems. The release and acceptance shall be filed in the office of the superintendent and shall serve as the official records of the board. 6. Administrative Assignment

The superintendent or designee may administratively assign a student to a school other than the one to which the student would otherwise be assigned under this policy when deemed in the best interest of the student and/or the effective administration of the schools, such as for reasons related to student safety, discipline, or programmatic issues, or when required by law.
