

South Fayette Township School District

3680 Old Oakdale Road · McDonald, PA 15057-2580

November Campus Construction Update

The following is our monthly update for our current and upcoming facility projects. Be sure to check out the District's website if you are interested in more detailed progress.

Intermediate School Additions and Alterations

All aspects of this project are on schedule. We will be moving teachers and students into the three new corner classrooms and the orchestra room over Winter Break to begin use in January 2026. Teachers, students, and families will be notified if they are impacted by the mid-year moves. The three-story wing addition, on the side of the building closest to Old Oakdale Road, is progressing toward its scheduled completion date for the start of the 2026-27 school year.

Elementary School

Plans continue to be finalized for the design of the new K-2 Elementary School. The architects continue to meet with administrators, educators, and school personnel to finalize the design of the building. We tentatively expect to go out to bid on or around January 2026. Once bids are awarded, the construction project will last approximately 30 months. The project includes an additional turf field and tennis courts.

Bus Depot/Maintenance Building

Plans are also underway for moving the bus depot/maintenance facility across from the campus at the former Dimun Property. The Board will approve the contractors at next week's board meeting. We expect work to begin at the start of the new year. Due to the new Elementary School moving to the current site of the Transportation Department, and the need to start prepping the space, we will be temporarily moving the department to a location on Miller's Run Road. This space is approximately 4 miles from the campus. We will house all of our transportation department personnel and equipment in this temporary location from approximately April 2026 through August 2027.

Middle School Pool Upgrades

Maintenance and upgrades to the pool facility occurred over the summer and into the fall. We have also completed upgrades to the pool locker rooms to provide additional privacy options when students are changing clothes.

Cell Phone Coverage

We have been working to enhance cell phone coverage across campus as part of our ongoing commitment to safety for our Lion Learners and Educators.

- The Middle and High School upgrades are now completed.
- The Intermediate School will be upgraded as the new wing of the building is built and should be completed in spring/summer 2027.
- The Elementary School currently has the best coverage on the campus, and we will ensure that coverage is included in the new building project.

Middle School PA System Upgrade

The Middle School's PA System will be replaced in the coming weeks. We do not anticipate any interruptions to the student school day while they install the new system.

Thank you for your patience as we continue to upgrade our facilities.

With Lion Pride,
Dr. Michelle Miller
Superintendent
