

Dear Parent/Guardian:

We are pleased to be transporting your student(s) to and from school.

The following is some information from the **Transportation Department** for the upcoming school year 2022/23.

- Postcards will be sent out August 5th. On the postcards will be the times, bus stop and bus number. If you don't receive a postcard by August 12th, or you have any questions please call Transportation at 419-589-3473.
- The safety of our students is of the utmost importance. The stop location is where the bus physically stops. We are asking that all students stand in a safe place at that location on their "residential side of the road". Should your student(s) bus stop be on the other side of the street, **please do not** have your student(s) cross until bus driver arrives and driver will cross student(s).
- Any opened enrolled student(s) parent may call the Transportation Department (419-589-3473) after September 15 to see if there is room on a bus for their student(s) to ride to an alternate address in Madison district.
