July 22, 2022

Madison Students and Families:

I hope this letter finds you well as we prepare for the 2022-23 school year. Due to the need for remote learning during the pandemic, the district was able to provide families in need with hotspots so that the internet was accessible in their households over the past two school years.

The contract for the service to those hotspots concludes on September 9, 2022. Because we are no longer in an ongoing period of remote learning, and the grant funds that were used to cover the cost of the hotspots and internet service are no longer available, the district will not be renewing the contract, and thus the hotspots will no longer provide internet service effective September 9, 2022.

As an alternative, eligible parents can apply for free hotspots for their children through T-Mobile's Project 10 Million plan (see attached link). Thank you for your understanding in this matter as we attempt to provide you with the opportunity to find an internet service alternative prior to September.

Respectfully,

Rob Peterson
Superintendent
Madison Local School District
