April 7, 2021

Dear Parents & Students,

I hope all of you have had a very restful Spring Break! As we return for the final stretch of the 2020-2021 school year, I would like to take a few moments to explain our process for the administration the spring End of Course Exams.

End of Course Exams

In addition to the coursework students are required to complete to meet graduation requirements, they also are required by the state of Ohio to meet testing requirements through End of Course Exams (EOCs) that will be administered over the course of your child's four years in high school. The state of Ohio has adjusted the testing graduation requirements over the past few years, and while some requirements are similar for each graduating class, others differ. Your child's school counselor will work with you and your child to clarify these requirements and to develop a plan specific to your child. If you ever have any questions regarding your child's graduation status with regard to testing or credits, please contact your child's school counselor.

Students Required to Test

This year the EOCs will be administered between April 19th and May 8th, according to the schedule listed below. Your child will take the EOC for each course in which he/she is currently enrolled. It may also be necessary for your child to take additional tests if he/she did not perform well enough to meet the graduation requirements during a previous administration.

Test Dates

April 19 th & 20 th	English/Language Arts (Parts 1 and 2)
April 21 st & 22 nd	English/Language Arts Makeups
April 26 th	Biology
April 27 th	Algebra I
April 28 th	Geometry
April 29 th	American Government/Social Studies 3
April 30 th	American History/Social Studies 2
May 2 nd through May 8 th	Math, Science, and Social Studies Makeups

Test Time and Location

General education testing will take place in the gymnasium. Testing with accommodations will take place in computer labs. All students should report to their first period and then will be dismissed to their test location through announcements. Testing should begin shortly after students arrive in their assigned locations.

MOA Students

There is no virtual option for the EOC Exams. Any Madison Online Academy student enrolled in tested subjects are to report to the high school to take their test in-person on the scheduled date. Students should arrive between 7:30 am- 7:40 am. MOA students should just report to the cafeteria and wait to be called to the gymnasium or testing room by announcements. Each administrator and teacher taking temperatures at the door will also be able to assist students to their testing location.

School Issued Devices

All students who have a school issued device should bring it with them **(fully charged)** on any day they are testing. If a student has not yet checked out a chrome book, they are encouraged to do so immediately.

Transportation Home for MOA Students - Only

At the conclusion of the test, MOA students may leave for the day. Those students will need to arrange for transportation. In-person students will return to their normal classes and complete the school day. Testing should conclude at approximately 10:30am.

Ram Pride

While there can be additional pathways to meet the testing graduation requirement, the EOCs are the most basic and most readily attainable for students, which is why we are asking for your assistance in making sure that your child receives a good night's sleep and a good breakfast on their testing days. Research has shown that students achieve higher on standardized tests if they have eaten and are well rested as they take the test. Our teachers are working diligently to prepare our students for these tests. Please assist us by communicating the importance of these tests with your child and reinforcing the importance of a good night's rest, breakfast, and full attendance during the testing period. We take great pride in the success of Madison students, as it is our goal to perform at a high level as a building and as a district. Please join us in this venture; and thank you for the opportunity to work with your child and for your assistance and cooperation as we prepare for the Spring of 2021 testing period.

Ram Pride,

Sean Conway
Principal
