

PARENTAL INVOLVEMENT IN EDUCATION

The Board believes that parental/guardian involvement is an important part of the education program. Current research indicates that a home-school partnership and greater involvement on the part of parents/guardians in the education of their children generally results in higher achievement scores, improved student behavior and reduced absenteeism. All parents/guardians are encouraged to take an active role in the education of their children.

The Board requests the administration to develop the necessary regulations to ensure that the parental involvement is of the highest level possible. The regulations:

1. encourage strong home-school partnerships;
2. provide for consistent and effective communication between the parents and school officials;
3. offer parents/guardians ways to assist and encourage their children to do their best;
4. offer ways parents/guardians can support classroom learning activities and
5. provide opportunities for parents/guardians in the parental involvement program.
