RE: Individualized Continuous Learning Plans

In the upcoming weeks, our educational teams will be working to provide all students with Continuous Learning Plans. The plans will be in place to ensure we meet the needs of our students who receive special education services in the event of a schedule change due to COVID-19. Your child's special education teacher and/or case manager will be connecting with you to discuss options and supports needed for your student. In the instance that schools are not on a typical schedule, special education services and support will continue; however, services will not be identical to what is offered while attending school, full-time, in buildings. Our goal is to address your student's Individualized Education Plan (IEP) goals, as well as support your family, the best we can. We are committed to partnering with you and collaborating to provide special education services and supports.

To that end, special education staff will be developing Individualized Continuous Learning Plans for all special education students over the next few weeks. This instructional plan will address your student's specific IEP goals and ensure appropriate support is in place so that your student can be successful in the event of an alternative school schedule.

Please feel free to contact your child's special educator or myself if you have any questions or concerns.

Kindest Regards,

William Burton, Ed.D.
