

Wellness Policy Assessment Tool and Report Template

Background

Federal regulations at [7 CFR 210.31](#) require local education agencies (LEAs) participating in the National School Lunch Program to complete an assessment of their local school wellness policy at least once every three years and make the results available to the public. This triennial assessment must measure the implementation of the local school wellness policy and include:

- The extent to which schools under the jurisdiction of the LEA are in compliance with the local school wellness policy;
- The extent to which the LEA's local school wellness policy compares to model local school wellness policies; and
- A description of the progress made in attaining the goals of the local school wellness policy.

LEAs may use a variety of methods to assess compliance and determine progress of their goals and objectives. Action planning documents that contain timelines, goals, and key tasks may assist in assessing changes over time. For example, the [School Health Index \(SHI\)](#) from the Centers for Disease Control and Prevention is a comprehensive self-assessment tool that helps with action planning and recordkeeping (a shorter version of the SHI is available from [Alliance for a Healthier Generation](#)), and the [WellSAT 3.0](#) is an online tool that indicates the strengths and weaknesses of your written policy.

Triennial Assessment Tool and Report Template

When completed in full, this form may serve as both a triennial assessment tool and public report to meet the requirements in federal regulations and prepare for the Administrative Review by the Pennsylvania Department of Education (PDE), Division of Food and Nutrition. This document is intended to be completed using LEA-level information; however, the LEA may determine that a report from each school site, or alternatively, each school level (i.e., elementary, middle, high school) works better in assessing compliance and progress over time. For larger school districts, reporting on a district level may be challenging due to variation in sites' programs and progress in attaining wellness goals. If completing this report for the entire LEA, answer questions using the best available information and consider noting individual building variations or concerns in the "notes" sections.

In the left columns, indicate whether the listed goal or practice is included in your local school wellness policy. **Bolded** policy elements are required by federal regulation. When bolded items are not in the local policy, include an explanation. This tool uses the Pennsylvania School Boards Association's school wellness policy template (available on PDE's [Local School Wellness Policy Information webpage](#)) as the model wellness policy for comparison purposes, but it can be used regardless of the template used to develop your local policy.

In the right columns, indicate implementation of the goal or practice at schools within the LEA. LEAs are always encouraged to develop additional policy elements and goals for schools under their jurisdiction to create a supportive environment for student nutrition and physical activity.

Space is provided at the end of the form for the LEA to describe the progress made in attaining the goals of the local school wellness policy as required.

		Other goal (describe):				

Notes on goals for physical activity:

We partner with our community municipality for seasonal activities and special events in the district.

We encourage our families to use the track and playgrounds, however, we do not encourage students to walk or bike to school because we live in a rural area and many neighborhoods do not have sidewalks. Some have students have only recess. They only have PE 2

Physical Education (PE)

<input checked="" type="radio"/>	<input type="radio"/>	We implement a PE program consistent with state academic standards. All students participate in PE.		<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input checked="" type="radio"/>	<input type="radio"/>	PE instruction promotes skills and knowledge necessary for lifelong physical activity.		<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Report on the progress made in attaining the goals of the wellness policy (REQUIRED):

Our Student Wellness Team is in the process (Jan 2022) of completing this years Triennial Assessment.

We are in the process of adding a new "Wellness" Tab to our districts web-page. (Goal 1) Completed 3/2022

We will continue to send home helpful tips and informational menus.

As of Jan 2022 - We have selected a new Student Wellness Team. We have hosted an informational meeting on Jan 27 2022. Our next meeting is March 31st 2022.

To be Added to our Wellness Policy

Non- Sold Competitive Foods

Our district shall not use food and beverage as a reward or incentive. Our district does not offer foods or beverages at classroom parties or school activity with the exception of an education activity such as (guest chef, field trip to farm or farmers market or instructional education lesson taught by our guest Chef, Food Service Staff or Food Service dietetic intern. Our celebrations or classroom parties are non-food based gatherings.

Marketing/Contracting -

Any foods and beverages marketed or promoted to students on the school campus during the school day shall meet or exceed the established federal nutrition standards (USDA Smart Snack in School) and comply with established board policy and administrative regulations.

Exclusive competitive food and /or beverage contracts shall be approved by the Board, in accordance with provisions of law. Existing contracts shall be reviewed and modified to the extend feasible to ensure compliance with established federal nutrition standards, including applicable marketing restrictions.

Management of Food Allergies in District Schools

The district shall establish Board policy and administrative regulation to address food allergy management in the district schools in order to:

- 1) Reduce and/or eliminate the likelihood of severe or potentially life- threatening allergic reactions.
- 2) Ensure a rapid and effective response in case of a severe or potentially life- threatening allergic reaction.
