

## Moving Past Next Activity Errors

Typically, a student needs to be on a lesson or activity for at least 1 minute before moving on. Sometimes, there is a continual error message saying they need to complete the activity they just finished before moving on.

Here is how to move past it:

Do the lesson/video/reading, then click Next Activity.

The screenshot shows a learning management system interface. At the top left, there is a profile icon and the text "Test Test" and "Grade 3 Science: Classify Animals - Read It". At the top right, there is a "Next Activity >" button circled in red. Below the header, there is a "Contents" sidebar on the right with a list of items: "Course Ov", "Course Re", "Plants an", "Welco", "Lesso", "Cla", "An", "Th", "Be", "Cla", "Cla", "Cla". The main content area has a blue header with "Read It" and a menu icon, and "Plants and Animals Classify Animals". Below the header, there is a "Print" button and a navigation arrow. The "Objective" section states: "You will identify ways to classify animals." The "Introduction" section states: "Animals can belong to many different groups. You can find out to which group (or groups) an animal belongs to by looking at the animal's characteristics and matching them to a group's description. For example, dolphins..."

When that message comes up about completing the activity you just completed, click the title of the one it is telling you to complete within the message.

The screenshot shows a page header with a profile icon, the text "Test Test", and "Grade 3 Science: Animal Classification - Watch It". A "Next Activity >" button is in the top right. A central message reads: "Before attempting this assignment, you must complete **Classify Animals - Read It.**" A red arrow points to this link. On the right, a "Content" sidebar lists a course structure with "Plants and Animals" highlighted in yellow.

That will take you back to what you just did. BUT, this time, there should be a little green check mark in the upper right corner of the activity. If that checkmark is there, click Next Activity again, and it should let you proceed.

The screenshot shows a page header with a profile icon, the text "Test Test", and "Grade 3 Science: Classify Animals - Read It". A "Next Activity >" button is in the top right, with a red arrow pointing to it. A green checkmark is circled in red in the upper right corner of the activity area. Below the header is a blue banner with "Read It" and a list icon, and "Plants and Animals Classify Animals". A "Print" button and navigation arrows are also visible. The "Objective" section states: "You will identify ways to classify animals." The "Content" sidebar on the right is partially visible.
