From: Rob Peterson, Superintendent
Date: June 1, 2021
Re: Rescinded State Health Orders

Effective June 2, 2021, and in accordance with the rescinding/removal of current state health orders due to the pandemic, the Madison Local School District will no longer require masks or face coverings to be worn by students or employees. However, both students and employees may wear masks or face coverings if they opt to.

In order to continue to promote a safe learning environment, the district will continue to encourage hand washing/hand sanitizing, social distancing when possible, cleaning and sanitizing by our custodial staff, and other basic health and safety protocols.

Because quarantining is not a part of the state health order, students who test positive for COVID-19 will continue to require quarantining as will those who are determined to be close contacts of those who test positive for COVID-19. However, students who have been fully vaccinated for two weeks will not be required to quarantine as a close contact.

Thank you for your understanding and cooperation in this matter.
