All students are expected to promptly report violations of the Code of Conduct to District staff, such as a teacher, counselor, and the appropriate school designee. All District staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any member of the school community observing a student possessing a weapon, ammunition, alcohol, or illegal substance on school property or at a school function, shall report this information immediately appropriate school designee. Any weapon, ammunition, alcohol, or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and of the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

B. Acts of Discrimination, Harassment, or Bullying

Any student, parent, teacher, staff member or visor may report an incident of discrimination, bullying (including cyber-bullying) and/or harassment. Such reports may be made to any staff member, including the principal or the principal's designee, teachers, administrators, and guidance counselors. Allegations of discrimination, bullying and/or harassment will be treated as confidential and private to the greatest extent possible.

In the event that a report is made to a staff member other than the principal, or upon a staff member's witnessing of discrimination, bullying (including cyber-bullying) and/or harassment, such staff member shall immediately report the incident, in accordance with the following:

- School employees who witness harassment, bullying, and/or discrimination or receive an oral or written report of such acts shall promptly orally notify the principal, superintendent, or their designee not later than one school day after such employee witnesses or receives a report of such acts, and shall also file a written report with the principal, superintendent, or their designee no later than two school days after making an oral report.

- The principal, superintendent or the principal's or superintendent's designee shall lead or supervise the thorough investigation of all reports of harassment, bullying and/or discrimination, and ensure that such investigation is completed promptly after receipt of any written reports. The principal or principal's designee will inform the parents of all students involved in the alleged incidents, including the outcome of the investigation.
- When an investigation verifies a material incident of harassment, bullying, and/or discrimination, the superintendent, principal, or designee shall take prompt action, reasonably calculated to end the harassment, bullying, and/or discrimination, eliminate any hostile environment, create a more positive school culture and climate, prevent recurrence of the behavior, and ensure the safety of the student or students against whom such behavior was directed.
- The principal, superintendent, or their designee may notify promptly the appropriate local law enforcement agency when it is believed that any harassment, bullying or discrimination constitutes criminal conduct.
- Each principal shall provide a regular report, at least once during each school year, on data and trends related to harassment, bullying, and/or discrimination to the superintendent.

Pursuant to Education Law Section 13, retaliation by any school employee or student shall be prohibited against any individual who, in good faith, reports or assists in the investigation of harassment, bullying, and/or discrimination.

C. Notification to Law Enforcement

The building principal or his or her designee must notify the appropriate local law enforcement agency of those Code violations that may constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal or his or her designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the Code of Conduct and constituted a crime.

Any weapon, ammunition, alcohol, or illegal substance found shall be confiscated immediately if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, including notifying appropriate law enforcement if warranted.

IX. Disciplinary Penalties, Procedures and Referrals

Discipline is most effective when it deals directly with the problem at the time and place it occurs and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair, and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.

3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers, and/or others, as appropriate.
6. The effects of the inappropriate behavior on the rights, well-being, and teaching of other students.
7. Student disability or religious/sacred institution.
8. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations. However, the District reserves the right to impose non-progressive disciplinary penalties based on the severity and circumstances of a specific offense.

If the conduct of a student is related to a disability or suspected disability, the District will adhere to the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability.

A. Penalties/Consequences

Students who are found to have violated the District's Code of Conduct may be subject to the following penalties, either alone or in combination.

2. Oral warning
3. Written warning
4. Notification to parent
 - a. Verbal
 - b. Written
5. Detention: all posted rules must be followed
 - a. after school (2:35-3:15 p.m.)
 - b. late detention (2:30 – 4:30 p.m.)
6. Saturday detention (8:00 a.m. – 11:00 a.m.)
7. Suspension from transportation
8. Suspension from athletic participation
9. Suspension from social or extracurricular activities, including Moving Up ceremonies and graduation
10. Suspension of other privileges
11. In-school suspension
12. Removal from classroom by teacher
13. Short-term (five days or less) out-of-school suspension
14. Long-term (more than five days) out-of-school suspension

The length of time for the above penalties will be determined by the Administration using the principles of progressive discipline and in accordance with the provisions of the New York State Education Law.

B. Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity, at the appropriate time, to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning, or notification to their parents, are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

1. Detention

Teachers, principals and the Superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal, or the Superintendent, or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance, the District will make appropriate arrangements to provide for the student's education. Students with disabilities who receive "special transportation" as a service on their individualized education programs ("IEPs") or Section 504 Plans will be entitled to the separate requirements of this Code of Conduct for disciplining students with a disability as appropriate.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extracurricular activities and other privileges

A student subjected to a suspension from athletic participation, extracurricular activities, or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

4. In-school suspension

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the Superintendent to place students in "in-school suspension," based on a Code of Conduct violation.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. Teacher disciplinary removal of disruptive students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "timeout" in an elementary classroom or in an administrator's office; (2) sending a student into the hallway briefly; (3)

sending a student to the main office for the remainder of the class time only; or (4) sending a student to a school counselor or other District staff member for counseling.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions, repeatedly violates the teacher's classroom behavior rules or interferes with the learning process of others.

A classroom teacher may remove a disruptive student from class for one day. The removal from class applies to the class of the removing teacher only.

If the disruptive student does not pose a danger or on-going threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class. If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24 hours.

The teacher must complete a District-established disciplinary removal form and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

Within 24 hours after the student's removal, the principal or another District administrator designated by the principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

The teacher who ordered the removal is expected to attend the informal conference, unless specifically directed otherwise by the administrator in charge.

If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following:

- a. The charges against the student are not supported by substantial evidence.

- b. The student's removal is otherwise in violation of law, including the District's Code of Conduct.
- c. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The principal or his or her designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48 hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must keep a complete log (on a District provided form) for all cases of removal of students from his or her class. The principal must keep a log of all removals of students from class.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under State or Federal law or regulation.

6. Suspension from school

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent, or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the building principals.

Any staff member may recommend to the Superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the Superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases, a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The Superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case or suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

Short-term (5 days or less) suspension from school

When the Superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision

to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may established.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The Superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the Superintendent's decision, they must file a written appeal to the Board of Education with the District Clerk within 10 business days of the date of the Superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

Long-term (more than 5 days) suspension from school

When the Superintendent or building principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her, and the right to present witnesses and other evidence on his or her behalf.

The Superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall take findings of fact and recommendations as to the appropriate measure of discipline to the Superintendent. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof.

An appeal of the decision of the Superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the District Clerk within 10 business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

Procedure after suspension

The Board may condition a student's early return from a suspension on the student's voluntary participation in counseling or specialized classes, such as anger management or dispute resolution. The Board retains discretion in offering this opportunity. If and when the student and/or parent/guardian agree to this option, the terms and conditions shall be specified in writing. Students who do not agree to conditions for an early return will serve the full suspension.

C. Minimum Periods of Suspension

1. Students who bring a weapon to school.

Any student, other than a student with a disability as applicable according to the procedures for suspending students with disabilities provided by this Code and relevant State and Federal law, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214.

The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

- a. The student's age.
- b. The student's grade in school.
- c. The student's prior disciplinary record.
- d. The Superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents, teachers, and/or others.
- f. Input from parents, teachers and/or others.
- f. Other extenuating circumstances.

2. Students who commit violent acts other than bringing a weapon to school

Any student, other than a student with a disability as applicable according to the procedures for suspending students with disabilities provided by this Code and relevant State and Federal law, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity or a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom

Any student, other than a student with a disability as applicable according to the procedures for suspending students with disabilities provided by this Code and relevant State and Federal law, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will receive a minimum of one day of in-school suspension. For purposes of this Code of Conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this Code on four or more occasions during a semester. If the penalty is the minimum one-day in-school suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the penalty exceeds a five-day suspension, the student and the student's parent will be given the same notice and opportunity

for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the out of school suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

D. Referrals

1. Counseling

The Counseling Office shall handle all referrals of students to counseling.

2. PINS Petitions

The District may file a PINS (Person in Need of Supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law §221.05. A single violation of §221.05 will be a sufficient basis for filing a PINS petition.

3. Youth Court

The District with parent/guardian agreement may refer a case to Genesee County Youth Court, or a locally established Youth Court in combination with or in lieu of consequences in school. Youth Court is a process by which student adjudicators rule on cases, and collectively determine consequences and no court record follows the student. Students may be referred to youth court under the following circumstances:

- a. When they have admitted guilt or been found guilty of the offense by school administration;
- b. Continued to violate the Code of Conduct despite the consequences available within the school;
- c. Committed one of the following offenses: disorderly conduct, criminal mischief, petit larceny, truancy, school violations, violation of Penal Laws, non-violent misdemeanors, shoplifting, vandalism, trespassing, underage possession of alcohol or marijuana, unauthorized use of a motor vehicle, possession of stolen property, harassment.

4. Juvenile Delinquents and Juvenile Offenders

The Superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The Superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

X. Alternative Instruction

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the District will take immediate steps to provide alternative means of instruction for the student.

XI. Discipline of Students with Disabilities

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities are entitled to certain procedural protections in specific circumstances prescribed by State and Federal law when school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable Federal and State law and regulations.

A. Authorized Suspensions or Removals of Students with Disabilities

1. For purposes of this section of the Code of Conduct, the following definitions apply

A “student with a disability” means a student who falls within one of the classifications set forth in the Individuals with Disabilities Education Act (IDEA) and Section 200.1(zz) of the Commissioner of Education regulations, and who, because of such classification, needs special education or related services. This also includes students who qualify as a student with a disability pursuant to Section 504 of the Rehabilitation Act, and who, because of such qualification, need a Section 504 Plan.

A “student presumed to have a disability” means a student who the school district is deemed to have knowledge was a student with a disability before the behavior that precipitated disciplinary action. This includes the District having knowledge that such student had a disability if prior to the time the behavior occurred:

- a. The parent of such student expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency or to a teacher of the student that the student is in need of special education, provided that such expression of concern may be oral if the parent does not know how to write or has a disability that prevents a written statement; or
- b. The parent of the student requested a Committee on Special Education (CSE) or Section 504 evaluation of the student; or
- c. A teacher of the student, or other personnel of the District, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the director of special education or to other supervisory personnel of the school district.

A student is not presumed to have a disability when:

- a. The parent of the student has not allowed a CSE or Section 504 evaluation of the student;
- b. The parent of the student has refused CSE or Section 504 services; or
- c. It was determined that the student is not a student with a disability as defined by the CSE or Section 504 Team.

Students presumed to have a disability are entitled to the same disciplinary protections as students with disabilities.

A “suspension” means a suspension pursuant to Education Law § 3214.

A “removal” means a removal for disciplinary reasons from the student’s current educational placement other than a suspension for misconduct that is determined to not be a manifestation of the student’s disability and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others; or a

change in placement to an IAES ordered by the Superintendent for misconduct in which the student was found guilty at a long-term suspension hearing, but was determined to be a manifestation of the student's disability, because the student inflicted serious bodily injury upon another person while at school, on school premises or at a school function; carries or possesses a weapon to school, on school premises or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises or a school function.

An "IAES" means a temporary educational placement for a period of up to forty-five (45) days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum although in another setting, to continue to receive those services and modifications, including those described on the student's current IEP or Section 504 Plan, that will enable the student to meet the goals set out in such IEP or, as appropriate, Section 504 Plan, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:

- a. The Board, the District (BOCES) Superintendent of Schools, or a building principal may suspend a student with a disability for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior, except when such short-term suspension will result in a change in placement at identified below.
- b. The Superintendent may suspend a student with a disability up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior. Such suspension cannot be determined to result in a change in placement as identified below. Students with disabilities who are suspended for more than five consecutive schools days pursuant to a finding of guilt at a superintendent's hearing shall be entitled to a manifestation determination review ("MRD") at the second phase of that hearing. Should a manifestation be found at that MDR, the student is entitled to return to school immediately, even if the student has not served the full period of suspension.
- c. The Superintendent may order additional suspensions of not more than 5 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement as described below.

3. Placement in an Interim Alternative Education Setting ("IAES"):

- a. When a student with a disability is found guilty at a long-term suspension hearing and the misconduct is determined to be a manifestation of the student's disability by the MDR team, the Superintendent may order the placement of a student with a disability in an IAES to be determined by the CSE for the same amount of time that a student without a disability would be subject to discipline, but not more than forty-five (45) days, if the student inflicts serious bodily injury, carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the same of a controlled substance while at school or a school function.
 1. "Serious bodily injury" means bodily injury which involves a substantial risk of death, extreme physical pain, protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

2. “Weapon” means the same as “dangerous weapon” under 18 U.S.C. § 930(g)(w) which includes “a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except...[for] a pocket knife with a blade of less than 2 1/2 inches in length.”
 3. “Controlled substance” means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
 4. “Illegal drugs” means a controlled substance except for those legally possessed or used under the supervision of a licensed health care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
- b. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to forty-five (45) days at a time, if maintaining the student’s current educational placement poses a risk of harm to the student or others. Placement in an IAES by an impartial hearing officer would require the District to first initiate an impartial due process hearing. Placement in an IAES for an impartial hearing officer does not require student disciplinary proceedings.

B. Change of Placement Rule

1. A disciplinary change in placement means a suspension or removal from a student’s current educational placement that is either:
 - a. for more than 10 consecutive school days; or
 - b. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the nature of the conduct/behavior that resulted in the suspension or removal, the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal (as described above, based on the nature of the conduct/behavior for each suspension/removal, the length of each suspension/removal, the total amount of time the student is removed, and the proximity of the suspensions or removals to one another) unless a manifestation determination review is first conducted and no manifestation is found according to the procedures below.
 - a. However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the MDR has determined that the behavior was not a manifestation of the student’s disability. Students whose behavior was determined to be a manifestation of their disability may be placed in an IAES by the superintendent according to the requirements provided above when their behavior involves serious bodily injury, weapons, illegal drugs, or controlled substances. Students may also be placed in an IAES by an impartial hearing officer as a result of an impartial due process hearing according to the procedures provided above when the student’s current educational placement poses a risk of harm to the student or others.

C. Special Rules Regarding the Suspension or Removal of Students with Disabilities

1. The District's Committee on Special Education/Section 504 Team shall:

Conduct a functional behavioral assessment and implement a behavior intervention plan when an MDR Team determines that a student's behavior that resulted in suspension/removal is a manifestation of his/her disability. In the event that the District has already conducted a functional behavioral assessment and implemented a behavior intervention plan, the CSE/Section 504 Team will meet to review the plan and its implementation and modify the plan and its implementation as necessary to address the behavior that resulted in the change in placement.

2. The MDR Team will conduct a review of all relevant information related to the student's conduct to determine whether the student's conduct is a manifestation of the disability. Such review must be made immediately, if possible, but in no case later than 10 school days after:

- a. A decision is made by the superintendent to change the placement of a student to an interim alternative educational setting; or
- b. A decision is made by an impartial hearing officer to place a student in an interim alternative educational setting; or
- c. A decision is made by the Board of Education, superintendent, or building principal to impose a suspension that constitutes a disciplinary change in placement.

The team will determine whether the conduct in question was caused by or had a direct substantial relationship to the student's disability or the conduct in question was the direct result of the District's failure to implement the IEP.

3. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for special education or Section 504 services at the time of the misconduct, shall have the right to invoke applicable procedural safeguards set forth in Federal and State law and regulations if, in accordance with Federal and State statutory and regulatory criteria, the District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

- a. The Superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
- b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the District had knowledge the student was a student with a disability, in the following circumstances: 1) it was determined that the student is not a student with a disability as defined by the CSE or Section 504 Team; 2) the parent of the student has not allowed a CSE or Section 504 evaluation of the student; or 3) the parent of the student has refused CSE or Section 504 services.
- c. If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors. However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable Federal and State law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the District, which can include suspension.

4. Parents will be notified of disciplinary removal upon the date the decision is made and shall be provided the Procedural Safeguards Notice. The parents of a student with disabilities subject to a suspension of five (5) consecutive school days or fewer shall be provided with the same opportunity for an informal conference available to parents of students without disabilities under the Education Law. The removal of a student with disabilities other than a suspension or placement in IAES shall be conducted in accordance with the due process procedures applicable to such removals of students without disabilities, except that school personnel may not impose such removal for more than ten (10) consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services to the extent required under IDEA.

D. Expedited Due Process Hearings

1. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this Code, if:

- a. The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
- b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
 - i. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving serious bodily injury, weapons, illegal drugs, or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the District agree otherwise.

2. The District shall arrange for the expedited due process hearing according to the following time period, unless the parent and District mutually agree in writing to waive the resolution meeting or agree to use mediation:

- a. A resolution meeting shall occur within seven (7) days of receiving notice of the due process complaint.
- b. The expedited due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within fifteen (15) days of receipt of the due process complaint.
- c. The expedited due process hearing shall occur within twenty (20) school days of the date the complaint requesting the hearing is filed.
- d. The impartial hearing officer shall make a determination within ten (10) school days after the hearing.

No extension to an expedited impartial hearing timeline may be granted.

E. Referral to law enforcement and judicial authorities

In accordance with the provisions of IDEA and its implementing regulations:

1. The District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The Superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

XII. Corporal Punishment

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden. However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher, or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school District functions, powers, and duties, if that student has refused to refrain from further disruptive acts.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

XIII. Student Searches and Interrogations

The Board is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the Superintendent, building administrators, school nurses, District security officials, and others as designated by the Superintendent to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the District employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should question the student to determine whether the student will admit that he or she possess physical evidence that they violated the law or the District Code, or request that the student voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. School officials, whenever possible, will seek the least intrusive means to conduct a search to safeguard the privacy interests of students in their person and property.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched. The use of a handheld metal detecting wand may be used to search for contraband and other items that pose a threat to school safety and the security of the school. Searches will be conducted in the presence of two adults whenever possible.

Student Lockers, Desks, and other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent. The personal property of student is subject to a reduced expectation of privacy once it enters the school property.

A. Strip Searches

Under no circumstances will any school personnel conduct a strip search of any other person. For the purposes of this section, requiring the removal of an outer coat or jacket, or shoes and socks, shall not constitute a strip search. In the unlikely event that such a thorough search is warranted, the police should be summoned to the scene.

B. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age, and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s) (to be kept confidential).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.
8. Time and location of search.
9. Results of search (that is, what item(s) were found).
10. Disposition of items found.
11. Time, manner, and results of parental notification, if contraband is found.

The authorized school official shall be responsible for the custody, control, and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the items is turned over to the police. The principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

C. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted except in an emergency situation that could threaten the safety of students or others. The principal or designee should also be present during any police questioning or search of a student on school property or at a school function. Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of their attorney.

D. Involvement of School Resource Officers or Other Public or Private Security Personnel

Should the District employ, contract with, or otherwise retain law enforcement or public or private security personnel, including school resource officers ("SROs"), such relationship will be defined by a written contract of memorandum of understanding. Investigations involving possible infractions of the District's Code of Conduct and the imposition of discipline thereunder are the responsibility of the school's administration. While an SRO or other public or private security personnel may act as a resource to a school administrator during an investigation, the SRO may not directly question students or assign discipline.

As noted above, school officials may conduct searches of students' property and person as permitted by New York State Law. The SRO or other public or private security personnel should not become involved in administrative searches unless specifically requested by the school to provide security, protection, or for the handling of contraband. Administrative searches must be at the direction and control of the school principal. At no time shall the SRO or other public or private security personnel request that an administrative search be conducted for law enforcement purposes or have school staff act as his/her agent.

E. Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to Child Protective Services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local Child Protective Services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations. This includes the District providing data and assistance to local Child Protective Services workers, or members of a multi-disciplinary team accompanying such workers who are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as access to any child names as a victim in a report or a sibling of that child, or a child residing in the same home as the victim. Such access includes conducting an interview of such

child without a court order or the consent of the parent, guardian, or other person legally responsible for the child when the Child Protective Services encounter circumstances that warrant interviewing the child apart from family or other members of the home or household where child abuse or maltreatment allegedly occurred.

All requests by Child Protective Services to interview a student on school property shall be made directly to building principal or his or her designee. Child Protective Service workers and any associated multi-disciplinary team members must comply with the District's procedures for visitors, provide identification and identify the child(ren) to be interviewed. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations.

If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other District medical personnel must be present during that portion of the interview.

A Child Protective Services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if not he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

XIV. Visitors to the Schools

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers, and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.
2. All visitors to the school must report to the office of the principal or the District Office upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the principal's office before leaving the building.
3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to request such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum.
5. Teachers are expected not to take class time to discuss individual matters with visitors unless authorized by the building principal.
6. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct and the District's Extra Curricular Activities Student Code.

XV. Public Conduct on School Property

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code, “public” shall mean all persons when on school property or attending a school function including students, teachers, and District personnel. Additional guidelines specific to extracurricular activities are outlined in the District’s Extra Curricular Activities Student Code.

The restrictions on public conduct on school property and at school functions contained in this Code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this Code is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

A. Prohibited Conduct

No person, either alone or with others, shall:

1. Intentionally injure any person or threaten to do so.
2. Intentionally damage or destroy school District property or the personal property of a teacher, administrator, other District employee, or any person lawfully on school property, including graffiti or arson.
3. Disrupt the orderly conduct of classes, school programs, or other school activities.
4. Distribute or wear materials on school grounds or at school functions that are obscene, advocate illegal action, are libelous, obstruct the rights of others, or are disruptive to the school program.
5. Intimidate, harass, or discriminate against any person on the basis of race, color, creed, weight, national origin, ethnic group, religion, religious practice, age, gender (including gender identity or expression), sexual orientation, sex or disability.
6. Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.
7. Obstruct the free movement of any person in any place to which this Code applies.
8. Violate the traffic laws, parking regulations, or other restrictions on vehicles.
9. Possess, consume, sell, distribute, or exchange alcoholic beverages, controlled substances, or be under the influence of either on school property or at a school function.
10. Possess or use weapons in or on school property or at a school function, except in the case of law enforcement officers or except as specifically authorized by the school District.
11. Loiter on or about school property.
12. Gamble on school property or at school functions.
13. Refuse to comply with any reasonable order of identifiable school District officials performing their duties.
14. Willfully incite others to commit any of the acts prohibited by this Code.
15. Violate any Federal or State statute, local ordinance, or Board policy while on school property or while at a school function.
16. Smoke and/or possess a lighted or unlighted cigarette, cigar, pipe, electronic cigarette (“e-cigarette” or “e-cig”) or similar devices including but not limited to e-hookahs, hookah pens and vape pens; or use chewing or smokeless tobacco, including dip, chew, and/or snuff in any form, or use of any other tobacco products. Commit acts which threaten the safety and welfare of persons on school property.

B. Penalties

Persons who violate this Code shall be subject to the following penalties:

1. Visitors' authorization, if any, to remain on school grounds or at the school function shall be withdrawn and they shall be directed to leave the premises. If they refuse to leave, they shall be subject to ejection.
2. Students shall be subject to disciplinary action as the facts may warrant, in accordance with the due process requirements.
3. Tenured faculty members shall be subject to disciplinary action as the facts may warrant in accordance with Education Law §3020-a, or any other legal rights that they may have.
4. Staff members in the classified service of the civil service entitled to the protection of Civil Service Law §75 shall be subject to immediate ejection and to disciplinary action as the facts may warrant in accordance with Civil Service Law §75 or any other legal rights that they may have.
5. Staff members other than those described in subdivisions 4 and 5 shall be subject to warning, reprimand, suspension, or dismissal as the facts may warrant in accordance with any legal rights they may have.

C. Enforcement

The building principal or his or her designee shall be responsible for enforcing the conduct required by this Code.

When the building principal or his or her designee sees an individual engaged in prohibited conduct, which in his or her judgment does not pose any immediate threat of injury to persons or property, the principal or his or her designee shall tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. The principal or his or her designee shall also warn the individual of the consequences for failing to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the principal or his or her designee shall have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person.

The District shall initiate disciplinary action against any student or staff member, as appropriate, with the "Penalties" section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the Code.

XVI. Dissemination and Review

A. Dissemination of Code of Conduct

The Board will work to ensure that the community is aware of this Code of Conduct by:

1. Providing copies of a summary of the Code to all students, in an age-appropriate version, written in plain language, at a general assembly held at the beginning of each school year.
2. Making copies of the Code available to all parents at the beginning of the school year.
3. Mailing a plain language summary of the Code of Conduct written in plain language to all parents of District students before the beginning of the school year and making this summary available later upon request.
4. Providing all current teachers and other staff members with a copy of the Code and a copy of any amendments to the Code as soon as practicable after adoption.
5. Providing all new employees with a copy of the current Code of Conduct when they are first hired.

6. Making complete copies of the Code available for review by students, parents, and other community members.
7. Providing training to students and staff about the Dignity for All Students Act, the prohibition against discrimination and harassment, intimidation or bullying, and the availability of each school's Dignity Act Coordinator.

The Board will sponsor an in-service education program for all District staff members to ensure the effective implementation of the Code of Conduct, including, but not limited to, promoting a safe and supportive school climate while discouraging, among other things, discrimination, bullying and/or harassment against students by students and/or school employees; and including safe and supportive school climate concepts in the curriculum and classroom management. The Superintendent may solicit the recommendations of the District staff, particularly teachers and administrators, regarding in service programs pertaining to the management and discipline of students.

The Board of Education will review this Code of Conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the Code's provisions have been and whether the Code has been applied fairly and consistently.

The Board may appoint an advisory committee to assist in reviewing the Code and the District's response to Code of Conduct violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel, and other school personnel.

Before adopting any revisions to the Code, the Board will hold at least one public hearing at which school personnel, parents, students, and any other interested party may participate.

The Code of Conduct and any amendments to it will be filed with the Commissioner no later than 30 days after adoption.

Note: Byron-Bergen Central School District's Code of Conduct is subject to change.
