Vision Statement

Asheboro City Schools will be a community of excellence where each student graduates globally competitive for college, careers, and citizenship.

Mission Statement

We are committed to providing rigorous, individualized, and engaging learning opportunities for all students in a safe and inviting environment to ensure our students can become successful lifelong learners, prepared for global citizenship.
CONCERNS OR COMPLAINTS

While it is our goal that each classroom and school campus runs smoothly, it is inevitable that conflicts will arise in the classroom or on the school campus. Complaints and grievances are best handled and resolved as close to their origin as possible. We strongly encourage you to speak with your child’s teacher or the school principal when an issue arises. The school principal is responsible for the operation and supervision of their school. With appropriate communication, they will do their best to resolve the issue. The goal of each administrator is to provide a prompt, courteous response to your concern utilizing the most accurate information available. Some concerns may take longer to resolve. Parents that are unable to resolve concerns or complaints at the school level may register a concern or complaint with Student Support Services by calling (336) 625-5104.

DISCLAIMER

School-based administrators reserve the right to handle any incident that is not covered or mentioned in this handbook in a timely and appropriate manner. Serious or repeated violations of one or more rules would suggest a need for strong parent-student-administrator communication, coordination, and consideration of outside assistance and may result in suspension or expulsion.

PARENT/FAMILY NOTIFICATIONS

Asbestos Hazard Emergency Response Act Notification

In 1989, all Asheboro City Schools were inspected for asbestos containing materials according to the rules established by the Asbestos Hazard Emergency Response Act (ASHERA). The inspection results and the Asheboro City Schools plans concerning asbestos have been compiled into a Management Plan for each school. Each school’s Management Plan is available to the public for inspection upon request. Interested parties should contact the LEA designee to arrange for an inspection of the Management Plan. As required by ASHERA, a re-inspection of all remaining asbestos material must be made every three (3) years. This inspection will not cause a health hazard to anyone on the campus. Any questions concerning the Management Plan can be directed to the LEA designee at (336) 625-5104.

Curriculum

All schools follow the North Carolina Standard Course of Study curriculum for each subject. The curriculum can be found at https://www.dpi.nc.gov/districts-schools/classroom-resources/k-12-standards-curriculum-and-instruction. Each school will notify parents of students identified for English as a Second Language services of the reasons for identification; the level of the child’s English proficiency; methods of instruction to be used; how the program will help the child; if the child has a disability, how the language instruction program meets the objectives of the child’s individualized educational program (IEP); and any other information necessary to effectively inform the parent of the program.

Grading Practices

Each school will notify its parents of assessment practices at the school. Our schools operate on a nine-week grading period, with opportunities for interim reports at the midpoint of each period. Health Plans

1. The parent/guardian should notify the school of any chronic health conditions associated with their child by noting the condition on the back of the student’s emergency card and Identified Student Health Conditions form. The parent/guardian may also notify the school nurse of any special health concerns for their child.

2. The school nurse will review all emergency cards to identify students with health concerns. The school nurse will contact the parent/guardian by letter with an emergency action plan. If the parent/guardian agrees with the plan for their child, the parent/guardian should sign and return the plan to the school nurse. When the parent/guardian’s signature is obtained, the nurse will share the emergency action plan with teachers and staff who come in contact with the student.

3. If the parent does not return the plan, the NC Emergency Guidelines for Schools will be used to share a generic plan with teacher(s) and staff.

Internet Use
Student internet use is considered part of an overall plan for a student’s well-rounded education. As such, it will be treated as any other resource within the school and its use will follow all school discipline policies. A parent who does not wish his/her child to have access to the internet must sign an Internet Use Denial Form, available from each school principal. The board also encourages parents to participate in activities designed
Pest Management and Herbicide Application Notification

This notice is being distributed to comply with the North Carolina School Children’s Health Act. Asheboro City Schools has adopted an Integrated Pest Management (IPM) (Pest Management, policy 9205) to comply with this law. IPM is a holistic, preventive approach to managing pests that minimizes pesticide use in our schools and on school grounds.

1. Notification of Pesticide Use: Our school system may find it necessary to use pesticides to control pests at your school. North Carolina state law gives you the right to be notified annually of our school system’s pesticide application schedule, and 72 hours in advance of pesticide applications made outside that schedule, but the latter only if you request notification ahead of time by calling your child’s school and asking for your name and number to be placed on the IPM Notification List.

2. Exemptions: Certain relatively low-risk pesticides are exempted from these notification requirements, including antimicrobial cleansers, disinfectants, self-contained baits and crack-and-crevice treatments, and any pesticide products classified by the US Environmental Protection Agency (EPA) as belonging to the US EPA’s Toxicity Class IV, “relatively nontoxic.” Your right to be notified extends to all non-exempt pesticide applications at your school or other non-school site (office building, garage, workshop, etc.), both indoor and outdoor pesticide applications, and including applications that take place over summer recess, holidays, weekends, or after-school hours.

3. Emergency Pesticide Use: In the event that a non-exempt pesticide must be used for a pest control emergency at your school or other site and there is not adequate time to notify you more than 72 hours in advance, and you have requested advance notice, you will receive a notice of emergency pesticide application less than 72 hours, or as soon as possible after the pesticide application.

4. To request advanced notification of non-exempt pesticide applications at your school or other site, please call your child’s school and ask to be placed on the IPM Notification List. You must request to be placed on the IPM Notification List each year, and every time you wish to update or change your preferred contact information.

5. Notification of Herbicide Applications: State regulations also require notifications for any chemical application made in or around our schools. Asheboro City Schools has a scheduled application of herbicide (weed killer) that is applied once a month.

During 2020-2021, Herbicide will be applied the first full week of each month, unless there is inclement weather.

To request 72-hour notification of unscheduled applications, please call your child’s school and ask to be placed on the Herbicide Notification List. You must request to be placed on the Herbicide Notification List each year, and every time you update or change your preferred contact information. If you have any questions you may contact your child’s principal or the Director of Facilities for Asheboro City Schools at 336-625-5104.

Positive Behavior Intervention and Support

Asheboro City Schools promotes the use of Positive Behavior Intervention and Support (PBIS) for establishing the school culture and individualized behavioral supports needed for our schools to be effective learning environments for all students. PBIS emphasizes positively reinforcing appropriate behaviors and teaching replacement behaviors for non-appropriate actions. Replacement behaviors and social skills are taught just like academic skills, and are integrated into the academic day.

Release of Student Information

Asheboro City Schools may disclose appropriately designated “directory information” without written consent, unless you have advised the district to the contrary in accordance with district procedures.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent’s prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies to provide military recruiters, upon request, with the following information – names, addresses and telephone listings, unless the parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent.

If you do not want Asheboro City Schools to disclose directory information from your child’s education records without your prior consent, you must notify the district in writing within 20 school days of receipt of this policy in the Student Code of Conduct. Asheboro City Schools has designated the following information as directory information:

- Student’s name
- Address
- Telephone listing
- Electronic mail address
- Photograph
- Date and place of birth
- Dates of attendance
- Grade level
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Diplomas, certifications, and awards received
- The most recent school or educational institution attended

It is school system procedure not to require parent permission for students to be photographed, videotaped, and/or interviewed by system employees or media on routine school topics and activities for public information, instructional, and promotional purposes. Parent permission must be given, however, to photograph, videotape, and/or interview exceptional children if they will be identified as exceptional children. Parents, guardians, or eligible students may request not to be photographed, videotaped, and/or interviewed by notifying the school in writing within 20 days of receipt of this policy in the Student Code of Conduct. (Student Records, Policy 4700)

Reporting School and District Progress

The North Carolina School Report Cards for each school and for the district are available through the district’s website at www.asheboro.k12.nc.us and at https://www.dpi.nc.gov/data-reports/school-report-cards. These reports include information regarding student achievement, graduation rates, performance of the school and district, teacher qualifications, and the results of each school’s yearly progress. If a school or the district fails to make Adequate Yearly Progress, parents will be notified by letter and information concerning available services and improvement plans will be posted on the district website.
Rights under the Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days after the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the records they wish to inspect.
2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student’s education records, except to the extent that FERPA authorizes disclosure of directory information without consent.

More information is available in Student Records, Policy 4700, and, Confidentiality of Person Identifying Information, Policy 4705/7825.

Due to a variety of circumstances, it may be necessary to conduct a search of students, their personal possessions, vehicles, and lockers. A student or the student’s personal possessions, car, or locker may be searched by a school administrator, with reasonable suspicion that the search will turn up evidence that the particular student has violated or is violating a specific law or school rule. School officials may use metal detectors, hand-held wands, drug-detecting dogs, bomb-detecting dogs, and other techniques to employ a search. (Student Searches, Policy 4342)

Student Nondiscrimination Statement

The Asheboro City Schools System does not discriminate on the basis of race, color, national origin, sex, or disability. If anyone feels that discrimination has occurred on the basis of any of the above, he/she should contact:

Mr. Jordi Roman, Director of Student Support Services
Mrs. Carla Freemyer, Executive Director of Human Resources
Dr. Wendy Rich, Assistant Superintendent for Curriculum and Instruction
Mr. Ray Horton, Director of Exceptional Children Services

All employees and students should be free of unlawful discrimination, harassment, and bullying as a part of a safe, orderly, caring, and inviting working and learning environment. The board expressly prohibits unlawful discrimination, harassment, or bullying, including on the basis of membership in a socially distinct group, such as race, ethnicity, color, national origin, sex, sexual orientation, gender identity, pregnancy, religion, age, or disability.
The board also prohibits retaliation against an employee or student who has exercised any rights made available through state or federal law, including prohibiting retaliation for reporting violations of this policy. Any violation of this policy is considered a serious violation and appropriate action will be taken in response to a violation. (Nondiscrimination on the Basis of Disabilities, policy 1730/4022/7231, and Prohibition Against Discrimination, Harassment, and Bullying, policy 1710/4021/7230).

Student Performance Standards
It is the goal of the board that all students make adequate academic progress each year and thereby acquire the skills necessary for secondary education and career success. To realize this goal, the Board of Education has adopted the policies in the 3400 series and the Elementary and Secondary Education Act (ESEA). Local and state promotion standards are outlined in policy 3420, Student Promotion and Accountability. Promotion standards are available to all students and families.

If a kindergarten, first grade, second grade, or third grade student is demonstrating difficulty with reading development; is not reading at grade level; or has a personal education plan under G.S. 115C-105.43, the student’s teacher shall provide the student’s parents timely written notice advising them if the student is not demonstrating reading proficiency by the end of third grade.

The teacher of a student who does not meet promotion standards must notify the student’s family that the student has failed to meet the standards for progression to the next level of study and must provide the parents with information concerning intervention, review, and appeal opportunities. When a student is to be retained, the principal shall provide the student’s parents written notice of the retention and, if the student will be retained in accordance with G.S. 115C-83.7(a) for failure to demonstrate reading proficiency, (1) written notice of the reason the student is not eligible for a good cause exemption as provided in G.S. 115C-83.7(b) and (2) a description of proposed reading interventions that will be provided to the student to remediate identified areas of reading deficiency.

Student Surveys
The Protection of Pupil Rights Amendment (PPRA) affords parents certain rights regarding our conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

1. Consent before students are required to submit to a survey that concerns protected areas (“protected information survey”).
2. Receive notice and an opportunity to opt a student out.
3. Inspect the survey.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

Asheboro City Schools will administer Social Emotional Learning surveys to students periodically throughout the school year. Information gathered from these surveys will be used to enhance the learning environment and will inform the social emotional learning curriculum. Specific information regarding the dates and content will be dispersed prior to survey administration.

Asheboro City Schools has adopted policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. (Surveys of Students, policy 4720)

Parents who believe their rights have been violated may file a complaint with:
- Family Policy Compliance Office
- U.S. Department of Education
- 400 Maryland Avenue, S.W.
- Washington, D.C. 20202-5901

Student Wellness
The Asheboro City Board of Education recognizes the importance of students maintaining physical health and proper nutrition in order to take advantage of educational opportunities. The board further recognizes that student wellness and proper nutrition are related to a student’s physical well-being, growth, development, and readiness to learn. The board is committed to providing a school environment that promotes student wellness, proper nutrition, nutrition education, and regular physical activity as part of the total learning experience.

The superintendent shall report annually to the board on the system’s compliance with laws and policies related to student wellness and the implementation of this policy. At a minimum, the superintendent shall measure and report the following:

1. The extent to which the individual schools are in compliance with this policy.
2. The extent to which the board’s wellness policy compares to model local school wellness policies.
3. A description of the progress made in attaining the goals of this policy. (Student Wellness, Policy 6140)

Students with Disabilities
Asheboro City mandates that every student receive a free and appropriate education. Some students may have physical or mental disabling conditions that substantially limit their ability to learn and participate in school activities. If a student or parent believes the student has a disability, the student’s principal should be contacted. (Nondiscrimination on the Basis of Disabilities, policy 1730/4022/7231)

For the 2020-2021 school year, a Remote Learning Services Informed Consent form will be shared with Parents/Guardians for participation in remote/on-line instruction. A consent form is not mandated by law for provision of virtual/online services; however, Asheboro City Schools believes it is imperative that parents/guardians understand the use and implications of online/virtual learning.

Further assistance can be obtained from the Director of Exceptional Children at (336) 625-5104.

A gang is any ongoing organization, association, or group of three or more persons, whether formal or informal, having as one of its primary activities the commission of criminal acts and having a common name or common identifying sign, colors, or symbols. Prohibited behavior includes:

- Wearing, possessing, using, distributing, displaying, or selling any clothing, jewelry, emblems, badges, symbols, signs or other items which may be evidence of membership or affiliation in any gang;

(Gang-Related Activity, policy 4328)

Discrimination, Harassment, and Bullying

Asheboro City Schools Board of Education acknowledges the dignity and worth of all students and employees and strives to create a safe, orderly, caring, and inviting school environment to facilitate student learning and achievement. This includes an environment which is free from discrimination, harassment, and bullying based on an individual’s race, color, national origin, sex, sexual orientation, gender identity, religion, ethnicity, political belief, age, national origin, linguistic and language differences, socioeconomic status, physical characteristics, marital status, or disability. Asheboro City Schools strives to be inclusive of all students and employees.

Discrimination is any act or failure to act, whether intentional or unintentional, that unreasonably and unfavorably differentiates treatment of others. Harassment or bullying behavior is deliberate conduct intended to harm another person or group of persons. Such conduct violates this policy when any pattern of gestures or written, electronic, or verbal communications, or any physical act or any threatening communication:

1. places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property; or
2. creates, or is certain to create, a hostile environment by substantially interfering with or impairing a student’s educational performance, opportunities, or benefits or by adversely altering the conditions of an employee’s employment.

Asheboro City Schools prohibits acts of discrimination, harassment, and bullying. Like other disruptive or violent behaviors, discrimination/harassment/bullying is conduct that impedes both a student’s ability to learn and a school’s ability to educate its students in a safe environment. Therefore, this policy applies to behavior that takes place:

1. in any school building or on any school premises before, during, or after school hours;
2. on any bus or other vehicle as part of any school activity;
3. at any bus stop;
4. during any school-sponsored activity or extracurricular activity;
5. at any time or place when the individual is subject to the authority of school personnel; or
6. at any time or place when the behavior has a direct and immediate effect on maintaining order and discipline in the schools.

Authority of School Personnel

The principal has the authority and responsibility to investigate and take appropriate action regarding any prohibited or criminal student behavior and any other behavior appropriately referred to him or her. The principal is responsible for informing students and parents of any standards or rules that if violated could result in short-term or long-term suspension or expulsion.

The teacher has the authority and responsibility to manage student behavior in the classroom and while students are under his or her supervision. The teacher is expected to implement the student behavior management plan and any other school standards or rules. The teacher may develop other standards or rules consistent with the direction provided by the board and school.
Students must comply with all directions of principals, teachers, substitute teachers, student teachers, teacher assistants, bus drivers, and all other school personnel who are authorized to give such directions, during any period of time when they are subject to the authority of such personnel. ([Authority of School Personnel, policy 4301](http://www.asheboro.k12.nc.us/boardpolicies.aspx))

**Parental Involvement in Student Behavior Issues**
The board recognizes the need for parents and guardians to work with the school employees in helping students to learn and practice acceptable standards of behavior. School employees are to encourage parents to participate in discussions on effective strategies for correcting misbehavior and appropriate consequences for violations of board policies, the Code of Student Conduct, and other school standards and rules. ([Parental Involvement in Student Behavior Issues, policy 4341](http://www.asheboro.k12.nc.us/boardpolicies.aspx))

**Disciplinary Guidelines**
Asheboro City Schools (ACS) is committed to maintaining effective discipline in order to establish an orderly environment in which students can learn. An orderly school environment will teach expected standards of behavior, help students learn to accept the consequences of their behavior, and provide students with the opportunity to develop self-control.

ACS behavior management policies have been established with the following principles in mind:

- Student behavior management strategies should complement other efforts to create a safe, orderly, and inviting environment.
- Positive behavioral interventions will be employed, as appropriate, to improve student behavior.
- Responsibility, respect, honesty, self-discipline, courage, kindness, citizenship, and other standards of behavior should be integrated into the curriculum.
- Consequences for unacceptable behavior should help a student learn to comply with rules, to be respectful, to learn to accept responsibility for his or her behavior, and to develop self-control.
- Strategies and consequences will be age and developmentally appropriate.
- When feasible, consequences for unacceptable behavior should take into account differences in how individual students respond to discipline strategies.

Detailed student behavior standards are established in board Policy series 4300, all board policies can be found on-line at [http://www.asheboro.k12.nc.us/boardpolicies.aspx](http://www.asheboro.k12.nc.us/boardpolicies.aspx). For complete information on behavior standards, students and parents should consult Board policy and related administrative regulations. If you have specific questions or you would like copies of the board discipline policies or administrative regulations, please contact school administration.

The ACS Student Code of Conduct applies in the following situations:

- While in any school building or on any school premises before, during, or after school hours;
- While on any bus or other vehicle, as part of any school activity;
- While waiting at any bus stop;
- During any school function, extracurricular activity, or other activity/event;
- When subject to the authority of school personnel;
- When participating in remote learning; and
- Any time or place, on or off campus, when the student’s behavior has or is reasonably expected to have a direct and immediate impact on orderly and efficient operation of the schools or the safety of individuals in the schools environment.

**Code of Conduct Violations**

**Minor offenses** – Minor offenses of the ACS Student Code of Conduct will be handled in the classroom in accordance with the school or classroom behavioral guidelines/expectations. Consequences for minor offenses may include, but are not limited to:

- Warning
- Redirection
- Loss of privilege
- Seat change
- Supervised separation from group
- Supervised time outside of regular classroom
- Teacher conference with student
- Parent contact
- Conference with parent
- Referral to school counselor
- Repeated minor violations may also warrant a referral to a school administrator.

**Major offenses** - The following list of behaviors and consequences for major offenses is offered, as a guideline for administrators, for behaviors that rise to the level of the involvement of a school administrator. Because students at different developmental levels may need different consequences, the guidelines for administrators have been grouped into recommendations for elementary schools and middle/high schools. [Administrators reserve the right to adjust consequences based on student(s) age, maturity, grade level, history, learning situation, and circumstances in order to maintain safety.](http://www.asheboro.k12.nc.us/boardpolicies.aspx) In addition, identified students with special needs may have different sanctions or actions based on their Individualized Education Plan (IEP) and/or based on special education or disability law.
**CODE OF CONDUCT**

**School Bus Safety Rules**

Riding a school bus is a privilege afforded to certain public school students. Associated with this privilege is the responsibility for safe, orderly conduct. The safety of every student is the concern of the State Board of Education and the Asheboro City Board of Education. Therefore, the following rules and regulations have been adopted within the Asheboro City Schools. Failure to follow any of the bus safety rules is grounds for temporary or permanent removal of a student from the bus.

Every student who is eligible to ride a school bus shall:

1. Be ready and on time at his/her designated bus stop. Students should be at stop 10 minutes prior to bus arrival time.
2. Stand off the street or highway while waiting for the bus and in no way interfere with traffic.
3. Wait for the bus to come to a complete stop before approaching the bus or crossing the road.
4. Cross the road or street only under the protection of the bus stop arm and IN FRONT of the bus only.
5. Load and unload the bus in an orderly manner: single line, never push, break line, or rush.
6. Observe the same standards of behavior as in the classroom. Ordinary conversation is permissible.
7. Remain seated, in the assigned seat, at all times and never stand except to get off the bus at the properly designated stop, once bus has come to a complete stop.
8. Refrain from talking to or otherwise distracting the bus driver.
9. Keep all of your personal property inside the bus. Refrain from throwing or dropping objects from the bus whether it is moving or standing still. Lost electronic items are not the responsibility of the driver.
10. Provide a neat and safe bus by keeping it clean. Refrain from defacing or littering the bus (that includes free from pencil and pen marks). Do not cut or destroy seats. A charge of $35.00 will be given to replace seat covers.
11. The uses of any tobacco, food, or drink products are strictly prohibited on the bus.
12. Engage in absolutely no profanity or fighting on the bus.
13. Respectfully obey all driver and school official instructions.
14. Never tamper with the bus in any manner or touch the door or mechanical controls at any time.
15. Observe all established safety rules and regulations at all times.

School bus loading and unloading is supervised by teachers, assistant principals, and/or other school staff at all schools. Failure to follow the directions of these school officials is grounds for removal from the bus. Please be advised that any principal of any school in Asheboro is authorized to handle disciplinary matters on buses, which serve his or her school. This includes the suspension of students from the bus even though the students may not attend that school.

**Use of Video Recording Devices on School Buses**

It is the practice of Asheboro City Schools to utilize videotape recorders on school buses. Utilization of such videotape recorders shall be for the purposes of identifying safety concerns and to substantiate bus conduct violations. Such videotape recordings may be periodically and regularly reviewed by school officials, are considered confidential, but may be disclosed as part of school disciplinary proceedings or safety programs. The placing of a student on a school bus shall constitute parental consent to have a child videotaped in such a manner.

**School Bus Discipline Code**

In accordance with the General Statutes of North Carolina, Asheboro City Schools provides transportation to all eligible students. It is the position of Asheboro City Schools that such transportation will be provided safely and efficiently. To ensure this policy and prevent disciplinary action or suspension of school bus privileges will take a combined effort on the part of students, parents, and school administrators.

A school bus driver has complete authority over and responsibility for maintaining order and good conduct on the bus. A driver does not have the power to punish or suspend a student’s riding privilege. The driver, upon observing an infraction of the code, makes a written report to the principal. A principal or their representatives are authorized to take the needed disciplinary action.

A suspension of school bus privileges does not imply suspension from school and attending classes unless deemed necessary by the principal. Therefore, any student suspended from the bus who does not attend school during those days will be subjected to the provision of the North Carolina Compulsory School Attendance Law.

Complaints against a driver or the operation of a bus should be directed to the principal of the school or the transportation supervisor at the administration office (336) 625-5104. Any unauthorized person who boards a school bus to settle a problem is trespassing. A warrant will be issued.

The following offenses and consequences are designed to accomplish the objectives of the code. These offenses and consequences are minimal and not intended to be all-inclusive. They are; however, absolute in that strict adherence is required to retain the privilege of riding school buses in Asheboro City Schools. Bus discipline is divided into three categories. Category I deals with general misconduct and Category II and III deal with severe misconduct. Many of the Asheboro City Schools buses have video cameras.

**Category I Offenses:**

1. Bus assignment – Only students assigned to the bus are to ride the bus, and they are to get off at their assigned stop only. Any change must be with a note from a parent and signed by a school official. The note should be signed by the principal/designee and a copy given to the driver.
2. Bus stop behavior – Be on time at the designated bus stop only. Stand a safe distance from the roadway and wait for the bus to come to a complete stop before attempting to board.
3. Boarding and unloading – Students are to board the bus in an orderly manner with no pushing, shoving, or breaking in front of another student.
4. Driver instruction – Instructions from the driver are to be obeyed the first time they are given.
5. Language – Use polite language, speak softly, and maintain respectable conduct while riding the bus.
6. Hands and feet – Passengers should keep their hands and feet inside the bus at all times.
7. Seat – Stay in your seat facing forward with feet on the floor while the bus is in motion.
8. Personal items – Items not authorized in writing to be transported will be taken by the driver and given to the principal or designee.

**Category II Offenses:**

1. Trespassing on School Buses
   - Only authorized personnel and students assigned are allowed on school/activity buses. Unauthorized persons may be charged with trespassing (NC General Statue 14-132.2)
**Category II Offenses:**
(Additional action may be taken by the principal) Consequences for students who are guilty of Category II or III misconduct will be administered beginning with the fifth infraction listed below.

1. Physical intimacy – No student will engage in any type of intimate contact with another.
2. Gross disrespect – No student shall show disrespect to another student or driver by use of vulgar and profane language, indecent exposure, etc.
3. Willful disobedience – No student shall willfully fail to comply with any request by school personnel or the driver regarding safety on the bus and the protection of other persons or property.
4. Bus privileges – No student shall ride his/her assigned bus or any other school bus within the system after the principal has suspended riding privileges.
5. Tobacco products – No student shall possess or use a tobacco product on or around the bus or in the bus parking lot.
6. Safety equipment – No student shall tamper with emergency exits, bus equipment, or deface a bus in any manner.
7. Safety equipment – No student shall tamper with emergency exits, bus equipment, or deface a bus in any manner.

**Category III Offenses:**
(Additional action may be taken by the principal and in some cases, the police may be notified.) Students who commit a Category III offense will also receive consequences for the rule violation in the Code of Conduct Disciplinary Standards.

1. Fighting – No student rider shall provoke or engage in a fight or cause personal injury or discomfort to another.
2. Weapons – (Refer to Asheboro City Schools Board of Education policy 4325)
3. Controlled substances – No student rider shall possess, use or be under the influence of any illicit drugs on a bus or in any bus parking area. (Refer to Asheboro City Schools Board of Education policy 4325)

**Elementary Consequences**
Following are the elementary-level consequences for infractions of the rules by a student rider. A school administrator will issue the final consequence:

1. 1st infraction – driver warning (no parent signature required)
2. 2nd infraction – administration conference and parent call (parent signs bus discipline form)
3. 3rd infraction – silent lunch
4. 4th infraction – after school detention

8. 8th infraction – suspension from the bus for 10 to 15 days
9. 9th infraction – permanent suspension of bus riding privileges (for the present school year)

6. 6th infraction – permanent suspension of bus riding privileges (for the present school year)

**General Information**

**Administering Medicines to Students**  
(Policy 6125)

The board recognizes that students may need to take medication during school hours. School personnel may administer medication prescribed by a health care practitioner upon the written request of a student’s parent. To minimize disruptions to the school day, medicines should be taken at home rather than at school whenever feasible. School personnel should not agree to administer any medication that could be taken at home.

**Standards for Administering Medicines**

Authorized school employees may administer medication to students when all of the following conditions are met. These conditions apply to all medications, including those available over-the-counter without a prescription.

- **Parental Consent:** The student’s parent must make a signed written request that authorizes school personnel to administer the medication to the student.
- **Medication Authorization/Order:** A health care practitioner must prescribe the medication for use by the student and provide explicit written instructions for administering the medication.
- **Certification of Necessity:** The student’s health care practitioner must certify that administration of the medication to the student during the school day is necessary to maintain and support the student’s continued presence in school.
- **Proper Container/Labeling:** If the medication to be administered is available by prescription only, the parent must provide the medication in a pharmacy-labeled container with directions for how and when the medicine is to be given. If the medication is available over-the-counter, it must be provided in the original container or packaging, labeled with the student’s name.
- **Proper Administration:** The employee must administer the medication pursuant to the health care practitioner’s written instructions provided to the school by the student’s parent and in accordance with professional standards.

The Board of Education and its employees assume no liability for complications or side effects of medication when administered in accordance with the instructions provided by the parent and health care practitioner.

**Student Self-Administering Emergency Medications**

Students with certain health conditions like diabetes or asthma, or an allergy that could result in an anaphylactic reaction, may need to possess and self-administer medication on school property in accordance with their approved individual health care plan or emergency health care plan. As used in this section of the policy, “medication” refers to a medicine prescribed for the treatment of diabetes, asthma, or anaphylactic reactions and includes insulin or a source of glucose, a prescribed asthma inhaler, or a prescribed epinephrine auto-injector.

Before a student will be allowed to self-administer medicine pursuant to this section, the student’s parent or guardian must provide to the principal or designee all of the documents listed below.
a. Written authorization from the student’s parent or guardian for the student to possess and self-administer asthma medication;
b. A written statement from the student’s health care practitioner verifying:
   1) That the student has asthma, diabetes, and/or an allergy that could result in anaphylactic reaction;
   2) That he or she prescribed medication for use on school property during the school day, at school-sponsored activities, or while in transit to or from school or school-sponsored events; and
   3) That the student understands, has been instructed in self-administration of the emergency medication, and has demonstrated the skill level necessary to use the medication and any accompanying device;
c. A written treatment plan and written emergency protocol formulated by the prescribing health care practitioner for managing the student’s asthma, diabetes, or anaphylaxis episodes and for medication use by the student;
d. A statement provided by the school system and signed by the student’s parent or guardian acknowledging that the board of education and its agents are not liable for injury arising from the student’s possession and self-administration of asthma medication; and
e. Any other documents or items necessary to comply with state and federal laws.

Prior to being permitted to self-administer medicine at school, the student also must demonstrate to the school nurse, or the nurse’s designee, the skill level necessary to use the emergency medication and any accompanying device.

Finally, the student’s parent or guardian shall provide to the school backup emergency medication that school personnel are to keep in a location to which the student has immediate access in the event of an emergency.

All information provided to the school by the student’s parent or guardian must be kept on file at the school in an easily accessible location. Any permission granted by the principal for a student to possess and self-administer emergency medication will be effective only for the same school for 365 calendar days. Such permission must be reviewed annually.

A student who uses his or her prescribed emergency medication in a manner other than as prescribed may be subject to disciplinary action pursuant to the school disciplinary policy. No one may impose disciplinary action on the student that limits or restricts the student’s immediate access to the emergency medication.

The board does not assume any responsibility for the administration of drugs or medication to a student by the student, the student’s parent or legal custodian or any other person who is not authorized by this policy to administer medications to students.

Appeals of Consequences
(Policy 4353)

Students may appeal a long-term or 365-day suspension or an expulsion approved by the superintendent for violation of board policy, school standards, or rules. The student must appeal to the board in writing within five days of the superintendent’s decision.

Assaults, Threats, and Harassment including Bullying and Hazing
(Policy 4331)

Students are prohibited from assaulting, physically injuring, attempting to injure or intentionally behaving in such a way as could reasonably cause injury to any other person. Assault includes engaging in a fight. Harassment and bullying are further defined in Prohibition Against Discrimination, Harassment, and Bullying, policy 1710/4021/7230.

Attendance
(Policy 4400)

Attendance in school and participation in class are an integral part of academic achievement and the teaching-learning process. Regular attendance develops patterns of behavior essential to professional and personal success in life. Regular attendance by every student is mandatory. The State of North Carolina requires that every child in the State between the ages of seven (or younger if enrolled) and 16 years attend school. Parents or legal guardians have the responsibility for ensuring that students attend and remain at school daily.

Excused Absences

When a student must miss school, a written excuse signed by a parent or guardian must be presented to the teacher or principal designee within two days after returning from an absence. Absences due to extended illness may also require a statement from a physician. An absence may be excused for any of the following reasons:

1. Personal illness or injury that makes the student physically unable to attend school
2. Isolation ordered by the local health officer or by the State Board of Health
3. Death in the immediate family
4. Medical or dental appointment
5. Participation under subpoena as a witness in a court proceeding;
6. Observance of an event required or suggested by the religion of the students or the student’s parent(s)
7. Participation in a valid educational opportunity, such as travel or service as a legislative or Governor’s page, with prior approval from the principal
8. Pregnancy and related conditions or parenting, when medically necessary
9. Visitation with the student’s parent or legal guardian, at the discretion of the superintendent or designee, if the parent or legal guardian (a) is an active duty member of the uniformed services as defined by policy 4050, Children of Military Families, and (b) has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting

Extended illnesses generally require a statement from a physician. Once a student has accumulated more than 15 absences in a school year (or more than 5 consecutive absences), a doctor’s note, or other documentation approved by the principal, will be needed to excuse further absences. This standard does not apply to medically fragile students as defined in the North Carolina School Attendance and Student Accounting Manual and approved by the principal.

In the case of excused or unexcused absences, short-term out-of-school suspensions, and absences under G.S. 130A-440 (for failure to submit a school health assessment form within 30 days of entering school), the student will be permitted to make up his or her school work. (See also Immunization and Health Requirements for School Admission, policy 4110, and Short-Term Suspension, policy 4351.) The teacher will determine when work is to be made up. The student is responsible for finding out what assignments are due and completing them within the specified time period.

School-Related Activities

All classroom activities are important and difficult, if not impossible, to replace if missed. It is the intention of the Board of Education that classes missed be kept to an absolute minimum through close scrutiny and a monitoring system on the part of the principal. The following school-related activities will not be counted as absences from either class or school:
1. Field trips sponsored by the school
2. Job shadows and other work-based learning opportunities, as described in G.S. 115C-47(34a)
3. School-initiated and scheduled activities
4. Athletic events requiring early dismissal from school
5. Career and Technical Education student organization activities approved in advance by principal
6. In-school suspension

Assignments missed for these reasons will be completed by students. The teacher will determine when work is to be made up. The student is responsible for finding out what assignments are due and completing them within the specified time period.

**Excessive Absences**

Class attendance and participation are critical elements of the educational process and may be taken into account in assessing academic achievement. Students are expected to be at school on time and be present at the scheduled starting time for each class.

The principal will notify parents and take all other steps required by G.S. 115C-378 for excessive absences.

If a student is absent from school for five or more days in a semester, the principal or a committee established by the principal shall consider whether the student’s grades should be reduced because of the absences. The principal or committee shall review other measures of academic achievement, the circumstances of the absences, the number of absences, and the extent to which the student completed missed work. A committee may recommend to the principal and the principal may make any of the following determinations:

1. The student will not receive a passing grade for the semester;
2. The student’s grade will be reduced;
3. The student will receive the grade otherwise earned; or
4. The student will be given additional time to complete the missed work before a determination of the appropriate grade is made.

Students with excused absences due to documented chronic health problems are exempt from this policy.

Excessive absences may impact eligibility for participation in interscholastic athletics. See Extracurricular Activities and Student Organizations, policy 3620.

**Tardies**

The principal is responsible for handling tardies and for establishing relevant school procedures that are in compliance with the NC School Attendance and Student Accounting Manual. Students are expected to be at school on time and to be present at the scheduled starting time for each class and be present for the entire school day.

**Children of Military Families** *(Policy 4050)*

The board recognizes the unique circumstances faced by children of military families who are often required to transfer to a new school system because their parents or guardians have a new military assignment. The board also recognizes that children whose immediate family members are deployed by the military may be at increased risk of emotional, psychological, or other harm. The board is committed to supporting these children in the school system and undertaking to serve their unique needs.

**Identification of Military-Connected Students**

Each principal shall annually identify all military-connected students enrolled in the school and shall develop a means for serving their unique needs. For purposes of this section, a military-connected student is defined as a student who has a parent, step-parent, sibling, or any other person who resides in the same household serving in the active or reserve components of the Army, Navy, Air Force, Marine Corps, Coast Guard, or National Guard. The identification of military-connected students is not a public record subject to public records law.

**Compliance with the Interstate Compact on Educational Opportunity for Military Children**

In order to promote flexibility and cooperation among the school system, parents and guardians, and children of military families, to promote the children’s well-being, and to assist these children in achieving educational success in their new schools, Asheboro City Schools complies with the Interstate Compact on Educational Opportunity for Military Children and educates employees about the unique needs of children of military families.

**Counseling Program** *(Policy 3610)*

School counseling programs are provided by the school district with the ultimate aim of improving student performance by implementing strategies and activities that support and maximize learning; helping students to grow in their personal and social development; and providing a foundation for acquiring the skills that enable students to make a successful transition from school to the world of work. The principal of each school is directed to develop a counseling program that meets the objectives of the State Board of Education’s comprehensive school counseling program curriculum and the needs of the student population at that school.

School counselors design and deliver comprehensive school counseling programs that promote student achievement. These programs are comprehensive in scope, preventive in design and developmental in nature. A comprehensive school counseling program is an integral component of the school’s academic mission. Comprehensive school counseling programs, driven by student data and based on standards in cognitive, career, and socio-emotional development, promote and enhance the learning process for all students. School staff and school counselors value and respond to the diversity and individual difference in our societies and communities. Comprehensive school counseling programs ensure equitable access to opportunities and rigorous curriculum so that all students may graduate “career and college ready” as school counselors focus their skills, time, and energy on direct and indirect services to students.

**Drugs and Alcohol** *(Policy 4325)*

Students are prohibited from possessing, using, transmitting, selling or being under the influence of any of the following substances:

1. Narcotic drugs
2. Hallucinogenic drugs
3. Amphetamines
4. Barbiturates
5. Marijuana
6. Synthetic stimulants, such as MDPV and methedrone (e.g., “bath salts”), and synthetic cannabinoids (e.g., “Spice,” “K2”)
7. Any controlled substance
8. Any alcoholic beverage, malt beverage, fortified or unfortified wine or other intoxicating liquor
9. Any chemicals, substances or products procured or used with the intention of bringing about a state of exhilaration or euphoria or of otherwise altering the student’s mood or behavior
10. Any substance containing cannabidiol (CBD) or tetrahydrocannabinol (THS), regardless of whether it constitutes a controlled substance under state or federal law

Students also are prohibited from possessing, using, transmitting or selling drug paraphernalia or counterfeit (fake) drugs.
Students are also prohibited from possessing, distributing or displaying any tobacco or drug paraphernalia including, but not limited to:

1. Pipes
2. Rolling papers
3. Roach clips
4. Vape liquid containers (i.e. cartridges, bottles, JUULS)
5. Vaporizing devices, including vape pens
6. Syringes
7. Any other delivery devices for prohibited substances

Students may not participate in any way in the selling or transmitting of prohibited substances, regardless of whether the sale or transmission ultimately occurs on school property.

Prescription and over the counter drugs are not in violation of this policy if possessed and used in accordance with Policy 6125, Administering Medicines to Students.

**PowerSchool Parent Access**

Parents will have access to an online data system through PowerSchool.

A web browser or Smart Phone App allows parents to view:

- Detailed attendance information
- Grade information
- Credits earned to date (high school)
- Standardized testing information
- Personal demographic information
- Emergency contact information

A secured password system allows only authorized individuals to access this information. Parents with more than one child will only need one user name and password to access the information on all of their children. User names and passwords will be provided at the school level.

**Prohibition Against Discrimination, Harassment, and Bullying (Policy 1710/4021/7230)**

The board acknowledges the dignity and worth of all students and employees and strives to create a safe, orderly, caring, and inviting school environment to facilitate student learning and achievement. The board prohibits discrimination on the basis of race, color, national origin, sex, sexual orientation, gender identity, disability, or age. The board will not tolerate any form of unlawful discrimination, harassment, or bullying in any of its educational or employment activities or programs.

**Prohibited behaviors and Consequences**

Students are expected to comply with the behavior standards established by board policy and the Code of Student Conduct. Employees are expected to comply with board policy and school system regulations. Volunteers and visitors on school property are also expected to comply with board policy and established school rules and procedures.

Any violation of this policy is serious and school officials shall promptly take appropriate action. Students will be disciplined in accordance with the school’s student behavior management plan (School Plan for Management of Student Behavior, policy 4302). Based on the nature and severity of the offense and the circumstances surrounding the incident, the student will be subject to appropriate consequences and remedial actions ranging from positive behavioral interventions up to, and including, expulsion.

Reprisal or retaliation against any person for reporting or intending to report violations of this policy, supporting someone for reporting or intending to report a violation of this policy, or participating in the investigation of reported violations of this policy is prohibited.

**Reporting and Investigating Complaints**

Students, parents, volunteers, visitors, or others are also strongly encouraged to report any actual or suspected incidents of discrimination, harassment, or bullying. All reports should be made in accordance with policy 1720/4015/7225, Discrimination, Harassment, and Bullying Complaint Procedure, and reported to one of the school officials identified in that policy. Reports may be made anonymously, and all reports shall be investigated in accordance with that policy.

**Coordinators**

The superintendent has appointed the following individuals to coordinate the school system’s efforts to comply with and carry out its responsibilities under federal nondiscrimination laws. These responsibilities include investigating any complaints communicated to school officials alleging noncompliance with Title VI or Title IX of the Civil Rights Act, Section 504 of the Rehabilitation Act, the Americans with Disabilities Act (ADA), the Age Discrimination Act, and/or the Boy Scouts Act, or alleging actions which would be prohibited by those laws.

- **Title IX Coordinator** - Director for Support Services
- **Section 504 Coordinator** - Director of Exceptional Child Services
- **ADA Coordinator** - Director of Exceptional Child Services
- **Age Discrimination Coordinator** - Executive Director for Human Resources

**Filing a Complaint:**

Any individual, who believes that he or she has been discriminated against, harassed, or bullied is strongly encouraged to file a complaint orally or in writing to any of the following individuals:

- a. The principal or assistant principal of the school at which either the alleged perpetrator or alleged victim attends or is employed
- b. The Title IX coordinator for claims of sex discrimination or sexual harassment
- c. The Section 504 coordinator or the ADA coordinator for claims of discrimination on the basis of a disability
- d. For claims of other forms of prohibited discrimination, the applicable civil rights coordinator as established in Policy 1710/4021/7230

**Time Period for Filing a Complaint:**

A complaint should be filed as soon as possible but no later than 30 days after disclosure or discovery of the facts giving rise to the complaint.

**Informal Resolution:**

Many complaints may be addressed informally without a full investigation and/or hearing, through such methods as conferences or mediation. Informal procedures such as mediation should be used to the extent possible; however, mediation or other informal procedures will not be used to resolve complaints alleging sexual assault or sexual violence complaints by a student of sexual harassment perpetrated by an employee, or when otherwise inappropriate.

Additional information on this procedure is available in policy 1720/4015/7225. Records of complaints and proceedings will be maintained as required by policy 1710/4021/7230.
Requirements for Participation in Interscholastic Athletics (Policy 3620)

Philosophy of Athletic Program:
We believe that interscholastic athletics is a co-curricular activity and is an integral part of the educational process. Participation in athletics teaches life skills including responsibility, determination, accountability, team building, and fair play.

We emphasize academic accountability and fair play. We promote attitudes and practices that keep winning in perspective and discourage activities that would be considered unsportsmanlike. We believe that all students should have the opportunity to participate in competitive athletics; however, participation is a privilege, not a right. According to Board of Education policy, participation may be reserved for students in good academic standing who meet behavior expectations of the school and the community.

Citizenship/Sportsmanship:
As a team member, an individual must learn to work with others to promote responsibility and obligation for his/her actions. As a student-athlete wearing the Blue Comets uniform, you are special. You are a student first, an athlete second, and most important – you are a role model always. As a member of the Blue Comets, everything you do at school, in the community, and at rival schools is noticed and judged. As a member of the Blue Comets, you are a role model and spokesperson for the Asheboro community and the Asheboro City Schools. We believe that student-athletes must play within the rules, conduct themselves in a sportsmanlike manner, and represent their school in a positive way.

Student/Athlete Behavioral Management Plan:
The athletic program will adhere to the Asheboro City Schools Student Code of Conduct, which is provided to each student upon entry to school each fall. Board of Education policies related to participation in athletics are included in the Code of Conduct. As prescribed by board policy, rule violations and major infractions will be addressed according to the Student Behavior Management Plan of the school.

The following infractions are addressed in the Student Behavior Management Plan:

| a. | Use and possession of tobacco |
| b. | Fighting |
| c. | Use and possession of weapons |
| d. | Assault |
| e. | Arson |
| f. | Intimidation/Bullying |
| g. | Gross Misconduct |
| h. | Insubordination |
| i. | Use of profanity/vulgarity |
| j. | Hazing |

A student-athlete who commits any of the infractions listed above (or any infraction that is in violation of school rules or board policy), may be excluded from participation in the athletic program.

Substance Abuse (Alcohol/Drugs):
We believe that the use and abuse of alcohol and drugs is unhealthy and unacceptable for “Blue Comets” student-athletes.

Students found possessing, using, transmitting, or being under the influence of alcohol or drugs at any time, on campus or off campus, 24 hours per day, 7 days per week, in season or out of season, will suffer the following consequences:

- **First Offense**
  - 30-day suspension from participation in athletic contests
  - Athlete must practice with team, but may not dress or participate in athletic contests
  - Athlete must enroll in an appropriate drug counseling program. Cost for the program is the responsibility of the athlete’s parent/guardian.

- **Second Offense**
  - 365 day suspension from participation in athletics

- **Third Offense**
  - Ineligible for participation in the athletic program

For an offense occurring out of season, the penalty will be imposed during the next season of participation by the athlete.

A student-athlete, who self-reports a substance abuse problem before a charge or conviction occurs, may continue to participate in athletics after seeking appropriate professional counseling. A follow-up plan and review will be required.

NCHSAA Felony Policy:
Student-athletes in grades 9 – 12 are subject to the Felony Policy of the North Carolina High School Athletic Association. The policy may be found in the NCHSAA Handbook.

Other Policies Related to Athletic Participation:

- **a.** On the day of a game or practice, the athlete must be in attendance for a minimum of ½ the school day. Only extenuating circumstances as approved by the principal will be considered as a waiver of this policy.

- **b.** If an athlete is suspended from school (OSS), he/she will not be permitted to practice or play until the suspension is completed. In addition, athletes will be suspended after the OSS is complete as follows:
  - First Offense – 1 game suspension
  - Second Offense – 2 game suspensions
  - Third Offense – Suspension from participation through the end of the school year

- **c.** An athlete assigned to in-school suspension (ISS) may not practice or play until the ISS assignment is completed. In addition, athletes will be suspended after the ISS is complete as follows:
  - First Offense – 1 game suspension
  - Second Offense – 2 game suspensions

- **d.** Penalties for violating team rules will be at the discretion of the coach.

- **e.** An athlete who quits or is dismissed from a team may not begin participation in a new sport’s season, until completion of the previous sport season.

- **f.** Requirements for lettering in a sport will be at the discretion of the coach.

- **g.** All players and team personnel must ride to and from the athletic contest on the team bus. Exceptions to this rule may be approved by the coach, with a note signed by the athlete’s parent/guardian. An athlete may ride only with his/her parent/guardian.
Standards of Appearance or Clothing
Asheboro City Schools Student Dress Code
(Policy 4316)

The board requests that parents outfit their children in clothing that is conducive to learning. Generally, dress and grooming standards as determined by the student and his or her parents will be deemed acceptable. However, the board prohibits any appearance or clothing that does the following:

1. Violates the reasonable dress code adopted and publicized by the school
2. Is substantially disruptive
3. Is provocative or obscene
4. Endangers the health or safety of the student or others
5. Is gang-related

It is the responsibility of the schools to foster good habits of dress and grooming just as it is their responsibility to maintain an atmosphere conducive to optimal learning. It is in the interest of pride in one’s self, school, and community for the students in the Asheboro City Schools to be encouraged and expected to dress safely, cleanly, and decently.

Acceptable Standards for Clothing or Appearance
Asheboro City Schools respects the right of the student to choose his/her dress style and appearance. Certain guidelines need to be observed in order to create a wholesome school environment. Student dress and appearance shall not be hazardous to the health or safety of anyone in the school community; nor shall it have a negative effect on or be disruptive to the educational process.

- Clothing or jewelry which advertises products that would be illegal such as drugs, tobacco, and alcohol products, as well as any clothing which depicts statements or pictures that would be offensive to the mores of the community of Asheboro will not be permitted. Clothing recognized as being related to a group or gang, such as rolled up pant legs or bandanas will not be allowed. No clothing or insignia that can be denoted as membership in a gang will be allowed.
- No items that could be used as a weapon, such as large chains and fishhooks are allowed.
- At all times, personal decency, dignity, self-respect and respect for others should dictate student dress.

Student and Parent Grievance Procedure
(Policies 1742/5060 and 1740/4010)

Asheboro City Schools is committed to providing an effective means for parents and the community to voice concerns and complaints. In general, the complaint should be received and addressed at the level closest to which the complaint originated. For example, if it involves a teacher, first talk to that individual. If you are still concerned, talk with the principal. Then, if you are still concerned, make an appointment to talk with the Director of Student Services.

A grievance is a formal complaint regarding specific decisions made by school personnel. A grievance may be submitted in specific circumstances such as when a student or parent believes that board policy or law has been misapplied, misinterpreted, or violated. Any claims of discrimination on the basis of race, color, national origin, sex, pregnancy, religion, age, or disability also may be submitted as a grievance.

A grievance must be filed as soon as possible but no longer than 30 days after disclosure or discovery of the facts giving rise to the grievance. A student who has a grievance must provide the following information in writing to the principal:

- The name of the school district employee or other individual whose decision or action is at issue
- The specific decision(s) or actions at issue
- Any board policy or law that the parent or student believes has been misapplied, misinterpreted, or violated
- The specific resolution desired

Upon receiving the written grievance, the principal will then:

- Hold a meeting with the student within five school days of receiving the grievance request
- Conduct any investigation of the facts necessary before rendering a decision
- Provide a written response to the written grievance within ten days of the meeting

If you need additional information about grievance procedures, a copy of the local school board policies is available online at [https://www.asheboro.k12.nc.us/](https://www.asheboro.k12.nc.us/) under board policies. You can make arrangements with your school principal to review these policies.

Student Discipline Records
(Policy 4345)

Retention of Records and Report of Data:
The principal shall retain in each student’s file, in either paper or electronic form, all records related to violations of board policies, the Code of Student Conduct, school standards, or school rules.

As required by law, the superintendent shall maintain the following data on each student who was suspended for more than 10 days, reassigned for disciplinary reasons or expelled: race, gender, age, grade level, ethnicity, disability status, type of incident or offense, duration of the suspension, whether alternative education services were provided, and whether the student had multiple suspensions in that academic year.

As secretary to the board, the superintendent also shall maintain records from the board’s considerations of 365-day suspensions and expulsions and any readmission reconsiderations of 365-day suspensions and expulsions.

The superintendent shall ensure that data on disciplinary incidents is reported using the state student information system application in accordance with State Board of Education policies and procedures.

Disclosure of Records:
Confidential student records concerning conduct that posed a significant safety risk to the student or others in the school community may be disclosed to teachers and school officials, including teachers and school officials in other schools, who have legitimate educational interests in the behavior of the student.

Removal of Records:
End of Year Removal

The following types of discipline records may not be removed from student records, electronic files, and databases at the end of the school year:

- Notice of any suspension for a period of more than 10 days and the record of the conduct for which the student was suspended
- Notice of any expulsion under G.S. 115C-390.11 and the record of the conduct for which the student was expelled
- Any records (including of in-school suspensions or short-term suspensions) that need to be maintained in order to serve the student appropriately or to protect the safety of others
Expunging Records
The superintendent or designee shall expunge any record of suspension for a period of more than 10 days or expulsion if the following criteria are met:

- A request that the record be expunged is made to the superintendent or designee by the student’s parent or guardian, or by the student if the student is at least 16 years old or is emancipated.
- The student either graduates from high school or is not suspended or expelled again during the two-year period commencing on the date of the student’s return to school after the expulsion or suspension.
- The superintendent or designee determines that the maintenance of the record is no longer needed to adequately serve the child or to maintain safe and orderly schools.

In addition, the superintendent may expunge any notice of suspension or expulsion from a student’s official record in accordance to the criteria defined in Policy 4345.

Student Promotion and Accountability
(Policy 3420)

Student Promotion Standards:
Standards will be based, in part, upon proficiency in reading. The standards and process must provide multiple criteria for assessing a student’s readiness to progress to the next level of study, such as standardized test scores, formative and diagnostic assessments, grades, a portfolio or anthology of the student’s work and, when appropriate, accepted standards for assessing developmental growth. The standards and process will incorporate all state law and State Board of Education policy requirements.

Principals shall ensure that the promotion standards are used by teachers and school administrators in assessing each student’s readiness to progress to the next level of study. Principals have the authority to promote or retain students based upon the standards approved by the board and any applicable standards set by the State Board of Education.

Local Promotion Standards are available in Policy 3420, Student Promotion and Accountability.

Requirements for graduation are available in Policy 3460, Graduation Requirements.

Intervention for Students Unlikely to Meet Promotion Standards
The goal of Asheboro City Schools is to identify, as early as possible, students who are unlikely to meet the standards for progression to the next level of study so the school can provide appropriate intervention. Asheboro City Schools utilizes a Multi-Tiered System of Support (MTSS) to empower each student to accept and meet academic, social-emotional, and behavioral challenges. The focus of MTSS will be that every student is treated in a fair and just manner, providing support to learn the curriculum. The board recognizes our responsibility to provide an array of services that maximizes the potential of each of these students. Teachers are encouraged to challenge these students by expanding the curriculum, providing opportunities to explore subjects in greater detail or providing different types of educational experiences. Differentiated programs and services may be provided through such strategies as appropriate classroom groupings, increased pace instruction, challenging subject classes, differentiated units, content modification, subject advancement, grade skipping, alternative products, enrichment opportunities, curriculum compacting, or individual projects and contracts. To challenge a student sufficiently, the principal may reassign the student to a different class or level of study and/or may identify concurrent enrollment or other curriculum expansion options (see Policy 3101, Dual Enrollment).

Acceleration
Some students may need less time to learn the curriculum. The board recognizes our responsibility to provide an array of services that maximizes the potential of each of these students. Teachers are encouraged to challenge these students by expanding the curriculum, providing opportunities to explore subjects in greater detail or providing different types of educational experiences. Differentiated programs and services may be provided through such strategies as appropriate classroom groupings, increased pace instruction, challenging subject classes, differentiated units, content modification, subject advancement, grade skipping, alternative products, enrichment opportunities, curriculum compacting, or individual projects and contracts. To challenge a student sufficiently, the principal may reassign the student to a different class or level of study and/or may identify concurrent enrollment or other curriculum expansion options (see Policy 3101, Dual Enrollment).

Surveys of Students
(Policy 4720)
The school district must obtain prior written consent of a parent or eligible student before the student is required to participate in any Department of Education-funded survey, analysis or evaluation that reveals information concerning the following protected topics:

- Political affiliations or beliefs of the student or student’s parent
- Mental or psychological problems of the student or the student’s family
- Sex behavior and attitudes
- Illegal, antisocial, self-incriminating or demeaning behavior
- Critical appraisals of other individuals with whom respondents have close family relationships.
Rules for Use of School Technological Resources

- Legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers
- Religious practices, affiliations or beliefs of the student or the student's parents
- Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program)

Parents will have the right to review surveys that may contain these topics and may opt their children out of participating in the survey(s).

Technology Responsible Use

(See 3225/4312/7320)

Expectations for Use of School Technological Resources:

The use of school system technological resources is a privilege not a right. Users are responsible for their behavior and communications. Responsible use is ethical, respectful, academically honest and supportive of learning. All student behavior standards both on and off school property apply to use of technological resources as well.

Rules for Use of School Technological Resources:

1. School system technological resources are provided for school-related purposes only. Acceptable uses of such technological resources are limited to responsible, efficient, and legal activities that support learning and teaching. Use of school system technological resources for commercial gain or profit is prohibited. Student personal use of school system technological resources for amusement or entertainment during instructional time is also prohibited. Because some incidental and occasional personal use by employees is inevitable, the board permits infrequent and brief personal use by employees so long as it occurs on personal time, does not interfere with school system business, and is not otherwise prohibited by board policy or procedure.

2. Under no circumstance may software purchased by the school system be copied for personal use.

3. Students must comply with all applicable laws, including those relating to copyrights and trademarks, confidential information, and public records. Any use that violates state or federal law is strictly prohibited. Plagiarism of internet resources will be treated in the same manner as any other incidents of plagiarism, as stated in the Code of Student Conduct.

4. No user of technological resources, including a person sending or receiving electronic communications, may engage in creating, intentionally viewing, accessing, downloading, storing, printing or transmitting images, graphics (including still or moving pictures), sound files, text files, documents, messages, or other material that is obscene, defamatory, profane, pornographic, harassing, abusive or considered to be harmful to minors.

5. The use of anonymous proxies to circumvent content filtering is prohibited.

6. Users may not install or use any internet-based file sharing program designed to facilitate sharing of copyrighted material.

7. Users of technological resources may not send electronic communications fraudulently (i.e., misrepresenting the identity of the sender).

8. Users must respect the privacy of others. When using e-mail, chatrooms, blogs, or other forms of electronic communication, students must not reveal personally identifying information, or information that is private or confidential such as the home address or telephone number, credit or checking account information, or social security number of themselves or fellow students. For further information regarding what constitutes personal identifying information, see Policy 4705/7825, Confidentiality of Personal Identifying Information. In addition, school employees must not disclose on school system websites or web pages or elsewhere on the internet any personally identifiable, private or confidential information concerning students (including names, addresses, or pictures) without the written permission of a parent or guardian or an eligible student, except as otherwise permitted by the Family Educational Rights and Privacy Act (FERPA) or Policy 4700, Student Records. Users also may not forward or post personal communications without the author's prior consent.

9. Users may not intentionally or negligently damage computers, computer systems, electronic devices, software, computer networks or data of any user connected to school system technological resources. Users may not knowingly or negligently transmit computer viruses or self-replicating messages or deliberately try to degrade or disrupt system performance. Users must scan any downloaded files for viruses.

10. Users may not create or introduce games, network communications programs, or any foreign program or software onto any school system computer, electronic device, or network without the express permission of the technology director or designee.

11. Users are prohibited from engaging in unauthorized or unlawful activities, such as "hacking" or using the computer network to gain or attempt to gain unauthorized or unlawful access to other computers, computer systems, or accounts.

12. Users are prohibited from using another individual’s ID or password for any technological resource without permission from the individual. Students must also have permission from the teacher or other school official.

13. Users may not read, alter, change, block, execute, or delete files or communications belonging to another user without the owner’s express prior permission.

14. If a user identifies a security problem on a technological resource, he or she must immediately notify a system administrator. Users must not demonstrate the problem to other users. Any user identified as a security risk will be denied access.

15. Views may be expressed on the internet or other technological resources as representing the view of the school system or part of the school system only with prior approval by the superintendent or designee.

Restricted Material on the Internet:

The school system uses content filtering as a reasonable precaution to prevent students from accessing materials that are deemed harmful to students or does not serve a legitimate academic purpose.

The board is not responsible for the content accessed by users who connect to the internet via their personal mobile telephone technology (e.g., 3G, 4G service).

Parental Consent:

Because of the possibility students could obtain access to inappropriate materials when online, the parent and student must consent to the student’s independent access to the internet and to monitoring of the student’s e-mail communication by school personnel.

Privacy:

Students, employees, visitors, and other users have no expectation of privacy in anything they create, store, send, delete, receive, or display when using the school system’s network, devices, internet access, email system, or other technological resources owned or issued by the school system, whether the resources are used at school or elsewhere, and even if the use is for personal purposes.

Personal Websites:

The superintendent may use any means available to request the removal of personal websites that substantially disrupt the school environment or utilize school system or individual school names, logos, or trademarks without permission.
Title I Parent and Family Engagement (Policy 1320/3560)
The Board of Education recognizes the value of family engagement in a child’s academic success and believes that the education of children is an ongoing cooperative partnership between the home and the school. Parents and other family members are their children’s first teachers; therefore, the continued involvement of parents and other family members in the educational process is most important in fostering and improving educational achievement. School system officials shall strive to support parents and provide parents and other family members with meaningful opportunities to become involved in the programs offered by the Title I schools.

What is the Title I Program?
The Title I program is a federally supported program that offers assistance to educationally and economically disadvantaged children to help ensure they receive an equitable, high-quality, well-rounded education and meet the school system’s challenging academic standards. The Title I program provides instructional activities and supportive services to eligible students over and above those provided by the regular school program.

Parental and Family Engagement Efforts:
• Involve parents and family members in the joint development of the Title I program and school support and improvement and the process of school review and improvement by including parents on the school advisory committee and any committees that review the Title I program.
• Coordinate and integrate parent and family engagement strategies in the Title I program.
• Conduct an annual evaluation of the content and effectiveness of the school system parent and family engagement policies and program in improving the academic quality of the school and assisting students to meet the school system’s academic standards.
• Strive to eliminate barriers to parental/family participation.
• Design a parent–student–school staff compact that sets out respective responsibilities in striving to raise student achievement and explains how an effective home/school partnership will be developed and maintained.
• Coordinate and integrate parental/family involvement programs and activities with federal, state, and local programs and conduct other activities in the community that encourage and support parents/families to more fully participate in the education of their child.
• Ensure that parents are involved in the school’s Title I activities.

Use of Personal Electronic Devices (Policy 4318)
Personal devices are an important tool used by students for communication with parents and guardians. Board policy 4318 governs the use of wireless communication devices. Students are permitted to possess personal devices on school property as long as local school rules and directions from school personnel are followed.

Authorized Use:
Personal or instructional use of a personal device during the school day must be authorized by appropriate school personnel. Use before or after school is generally permitted. Use may be prohibited if interfering with safe operation of a school bus or if a student is participating in an elementary or middle school after-school program.

Consequences of Unauthorized Use
School employees may immediately confiscate any device if suspected of unauthorized use. Disciplinary consequences for unauthorized use will be consistent with Section D of Policy 4300, Student Behavior Policies.

The following factors should be considered when determining appropriate consequences: whether the wireless communication device was used:

1. to reproduce images of tests, obtain unauthorized access to school information or assist students in any aspect of their instructional program in a manner that violates any school board policy, administrative regulation or school rule
2. to bully or harass other students
3. to send illicit text messages
4. to take and/or send illicit photographs
5. in any other manner that would make more severe disciplinary consequences appropriate

Search of Wireless Communication Devices:
Search of a student’s personal device may occur if a school official has reason to believe the search will provide evidence that the student has violated or is violating a law, board policy, the Code of Student Conduct, or a school rule. Student Searches are governed by Policy 4342, Student Searches.

Liability
The school system is not responsible for the theft, loss, or damage to a personal device.

We understand that the use of technology and access to the Internet through the Asheboro City Schools network is a privilege that is to be used for educational purposes only. We have read and understand the Technology Acceptable Use expectations for the Asheboro City Schools and agree to abide by these requirements. We have discussed appropriate and inappropriate use of the network/internet.
