

ONE IN 300 KIDS HAS AN UNDETECTED HEART CONDITION

Don't Let Your Child be the **One**

Sudden Cardiac Arrest (SCA) is a life-threatening emergency that often occurs with no warning. SCA isn't a heart attack.

SCA strikes people of all ages who seem healthy, including children and teens.

Knowledge is power. A cardiac screening detects underlying abnormalities, so you and your child can take precautions.

PROTECT YOUR CHILD'S HEART AND LIFE.

Sign up now for your screening **here**.

BATH HIGH SCHOOL

DATE: April 29, 2024

TIME: 8:00 am - 4:00 pm

LOCATION: Athletic Director's Office

COST: Free, thanks to the Mike Garlock Memorial Fund

Screenings are sponsored by MCORE Foundation, a nationally-recognized non-profit dedicated to preventing SCA in youths and young adults through education, screening, and research.

SCREENING DETAILS:

- Each student will receive an electrocardiogram (ECG) and limited echocardiogram performed by a registered cardiac sonographer
- Results are read by pediatric cardiologists
- Each test lasts around 10-12 minutes
- Images are stored in your secured account for future access
