

September 15, 2021

Dear Union City Elementary Families,

The collaboration between families, students, and our school community is evident in the successful beginning of this school year! It has been a pleasure getting to know our students!

As a school district, we are always working diligently to be prepared for any situation that may arise including a temporary building or district transition to online synchronous learning due to the Pandemic.

As we prepare for this transition this Thursday, our teachers have created schedules which combine live learning as well as independent learning. The back of this letter includes instructions for accessing your child's remote learning. If your child receives additional services such as gifted or special education more details will be provided for your individual child.

We appreciate your continued support and flexibility!

Sincerely,

Dr. Melissa L. Tomcho
