## **New Facility Funding Status**

- Preschool (PK) through 12<sup>th</sup> grade new facility currently costed at \$49.4million
- Margaretta approved for state funding through the OFCC/ELPP program of approximately \$15M of the \$49.4 M project
  - Originally anticipated receiving state funding in approximately 3-4 years
  - Currently, due to the magnitude of other districts successful Bond Issue passage rates, we are anticipating approximately 3 biennial budgets or <u>8 years</u> before the ELPP money will be available
  - 'Forward Progress' by July 2021 Believe to be fulfilled
- Nexus original projections of Margaretta's incremental tax revenue, before Nexus had installed the pipeline (2015 Timeframe) of \$29M:

## MARGARETTA

### **New Facility Funding Status / Nexus**

- Margaretta's Incremental Nexus Pipeline Taxes Update (first 5 years of payments)
  - In the 2015 timeframe Nexus projected a \$29 million tax payment
  - Based on the 2020 and 2021 tax bills, the taxing authorities would project to Margaretta payments of \$42 million
  - Nexus' current tax appeal levels from 2020 (38.5% payment) and 2021 (39.7% payment) would only give Margaretta <u>\$16 million</u>
- Nexus Current first year 2020 tax appeal status original appeal was filed in December 2019
  - First year tax values locks in the base cost of construction for tax purposes
  - First round of appeal The certified tax commissioners billed tax valuations were upheld Nexus lost this round
  - Currently Nexus has appealed (second Round) to the Ohio Board of Tax Appeal (BTA) court
    - Originally, hearing scheduled for May 2021
      - Both parties asked for a hearing extension due to the complexity of the appeal
        - Extension granted to February 7<sup>th</sup> 18<sup>th</sup> of 2022
  - Expecting if Nexus is unsuccessful in second round of appeal, they would take it to the Ohio Supreme Court
  - Realistically <u>2 to 3 years</u> before first year appeal settled
- Nexus taxes are based on Margaretta's voted mils Importance of passing the tax renewal (no new taxes) in calculating Nexus tax bill

- New Facility Funding Status:
- Based on delays in funding (~8 years for \$15 million State money and 2-3 years for first year tax settlement with Nexus, Margaretta has two choices
  - Pause the New Facility Project (put it on the shelf) at the end of the construction documents phase and do not begin any earth moving or construction bidding until the outcome of the Nexus first year appeal (2-3 years out)
- OR -
  - Attempt a 6.00 mil Bond Issue, with the intent to never levy the taxes as a way to keep the project moving forward, without having to pause the project.
