Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Spartanburg County School District Three, South Carolina (the "School District"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Spartanburg County School District Three, South Carolina, as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and budgetary comparison schedule - General Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2013 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

This discussion and analysis of the Spartanburg County School District Number Three's (the "School District") financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to present the School District's financial performance as a whole; readers should also review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2013 are as follows:

- The Spartanburg County School District Three SCAGO Education Facilities Corporation ("EFC") was established in July 2006. Although the EFC is a legally separate entity, it is reflected as a blended component unit of the School District and the financial information of the EFC is included in individual columns throughout the financial statements.
- The assets of the School District exceeded its liabilities at the close of the most recent fiscal year by approximately \$20.2 million. Of this amount, approximately \$3.9 million may be used to meet the School District's ongoing obligations to citizens and creditors (unrestricted Net Position).
- The School District's total Net Position decreased by approximately \$0.8 million. This decrease is primarily due to the expenditure of deferred state special revenue from prior year carry-over amounts and capital projects that were completed during the year.
- As of the close of the current fiscal year, the School District's governmental funds reported combined ending fund balances of approximately \$6.0 million, an increase of approximately \$0.5 million from the prior year ending fund balance, which is primarily attributable to the results of operations in the general and food service funds, and much improved budgeting practices and collections of local revenue in the General and Debt Service funds. Approximately 49% of the total fund balance amount (unassigned fund balance), or approximately \$3.0 million, is available for spending at the government's discretion.
- At the end of the current fiscal year unassigned fund balance for the General Fund was approximately \$3.0 million, which was approximately 12% of General Fund expenditures.
- The School District's total net capital assets decreased by approximately \$1.1 million (3.4%) during the current fiscal year. Key factors in this decrease were depreciation expense of approximately \$1.2 million partially offset by the School District's expenditures for equipment of approximately \$0.1 million.
- The School District's total long term obligations increased by approximately \$0.2 million (1%) during the current fiscal year primarily due to new debt that was issued which was approximately \$2.6 million partially offset by regularly scheduled principal payments of approximately \$2.4 million.
- During 2013, the School District's governmental activities type revenues were approximately \$33.1 million compared to \$31.1 million in the prior year. This increase of approximately 6% was primarily due to an increase in property tax revenues.
- The School District had approximately \$33.9 million in expenses related to governmental activities; approximately \$15.7 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues of approximately \$17.4 million provided remaining funding for these programs.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

FINANCIAL HIGHLIGHTS

- The School District implemented Governmental Accounting Standards Board ("GASB") Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position" ("GASB #63" or "Statement") in 2013. This Statement establishes financial reporting requirements and related disclosures for certain elements of a statement of financial position that were discussed in the GASB's 2007 Concepts Statement No. 4, "Elements of Financial Statements". In Concepts Statement No. 4, the GASB defines a deferred outflow of resources as a consumption of net assets by a government that is applicable to a future reporting period; a deferred inflow of resources as an acquisition of net assets by a government that is applicable to a future reporting period; and net position as the residual of all other elements presented in a statement of financial position (the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources). Under GASB #63, amounts for items that the GASB has designated to be deferred outflows of resources are to be presented in a statement of financial position in a separate section following assets, while amounts for items that the GASB has designated to be deferred inflows of resources are to be presented in a separate section following liabilities. The residual of assets and deferred outflows of resources over liabilities and deferred inflows of resources is to be reported as net position rather than as net assets in a statement of financial position.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – *Introductory Section*, *Financial Section* (which includes the financial statements, management's discussion and analysis, and the combining and individual fund financial schedules for governmental funds), and the *Compliance Section*.

Government-Wide Financial Statements. The financial statements include two kinds of statements that present different views of the School District. The first two statements are *government-wide financial statements* that provide a broad overview of the School District's overall financial status, in a manner similar to a private-sector enterprise.

The *Statement of Net Position* presents information on all of the School District's assets and liabilities, with the difference between the two reported as Net Position. Over time, increases or decreases in Net Position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *Statement of Activities* presents information showing how the School District's Net Position changed during the most recent fiscal year. All changes in Net Position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, for some items, revenues and expenses are reported in this statement that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the School District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the School District include instruction, support services, community services and intergovernmental. The School District does not have any business-type activities.

The governmental-wide financial statements can be found as listed in the table of contents of this report.

Fund Financial Statements. The remaining financial statements are *fund financial statements* that focus on *individual parts* of the School District, reporting the School District's operations in more detail than the government-wide statements.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. All of the funds of the School District can be divided into two categories: governmental funds and fiduciary funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The School District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Special Revenue Fund, Special Revenue – EIA Fund, Special Revenue – Food Service Fund, Debt Service Fund and Capital Projects Fund, of which, all are considered to be major funds. In addition, the EFC's Capital Projects Fund and Debt Service Fund are also major funds and therefore shown in separate columns.

The governmental fund financial statements can be found as listed in the table of contents of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the School District's own programs. The School District is the trustee, or fiduciary, for the pupil activity funds of the schools and accounts for this activity in an agency fund. The fiduciary fund financial statement can be found as listed in the table of contents of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found as listed in the table of contents of this report.

Other Information. The combining and individual fund schedules referred to earlier can be found as listed in the table of contents of this report.

The School District has a legally adopted budget only for its General Fund. A budgetary comparison schedule has been provided as a required supplementary schedule for this fund to demonstrate compliance with its budget. This schedule can be found as listed in the table of contents of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, Net Position may serve over time as a useful indicator of a government's financial position. In the case of the School District, assets exceeded liabilities by approximately \$20.2 million at the close of the most recent fiscal year.

Table 1 provides a summary of the School District's Net Position for 2012 and 2013:

Table 1
Net Position

	Governmental Activities

Unrestricted	3,892,579	3,609,276
Total Net Position	<u>\$ 20,169,071</u>	<u>\$ 20,977,301</u>

The School District's current and other assets at June 30, 2013 decreased by approximately \$90,000 from the prior year, attributable primarily to lower accounts receivable balances partially offset by higher cash balances on hand at June 30, 2013. The School District's capital assets at June 30, 2013 decreased by approximately \$1.1 million from the prior year. The decrease was primarily due to depreciation expense of approximately \$1.2 million, partially offset by equipment purchased of approximately \$0.1 million. Total liabilities at June 30, 2013 decreased by approximately \$0.2 million from the prior year which was primarily due to decreases in deferred State revenue and regularly scheduled principal payments on long term debt partially offset by the issuance of new debt during the year.

The School District's Net Position decreased by approximately \$0.8 million during 2013 which is primarily due to the expenditure of deferred state special revenue from prior year carry-over amounts and capital projects that were completed.

In the case of the School District, assets exceeded liabilities by approximately \$20.2 million at the close of the most recent fiscal year. By far the largest portion of the School District's Net Position (\$15.1 million or 75%) reflects its investment in capital assets (i.e., land, buildings, furniture and equipment, infrastructure, etc.) less any related outstanding debt and lease purchase obligations used to acquire those assets. The School District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay these long-term obligations must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

GLENDALE, SOUTH CAROLINA**

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

An additional portion of the School District's Net Position of approximately \$1.1 million (6%) represents resources that are subject to external restrictions on how they may be used. These Net Position are restricted for the food service program, other special revenue programs (which are restricted by the revenue source), and debt service payments. The remaining balance is unrestricted net position of approximately \$3.9 million (19%) which may be used to meet the government's ongoing obligations to citizens and creditors.

Table 2 shows the changes in Net Position for fiscal year 2012 and 2013:

Governmental Activities. Governmental activities decreased the School District's Net Position from 2012 to 2013 by approximately \$0.8 million or approximately 4%. Key elements that impacted the change in Net Position for 2013 are as follows:

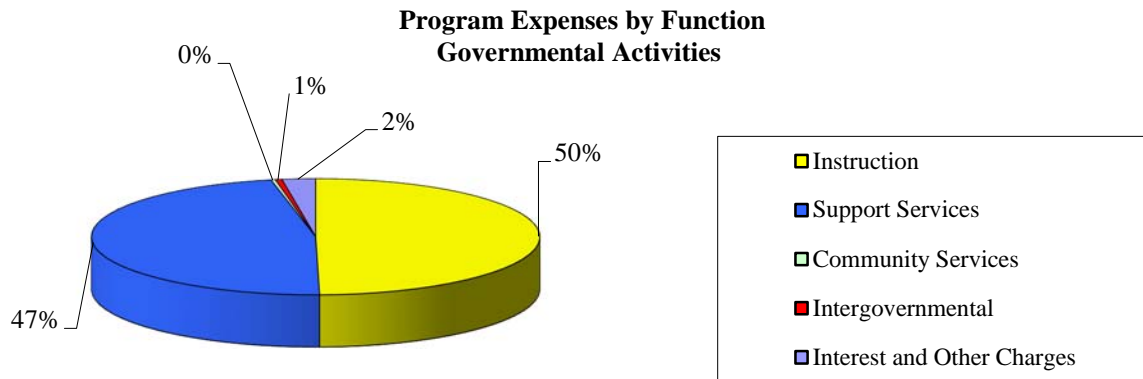

- An increase in instruction expenditures of approximately \$0.4 million.
- An increase in support services expenditures of approximately \$1.7 million.
- An increase in operating grants of approximately \$0.5 million
- An increase in property taxes of approximately \$1.5 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The analysis of governmental funds serves the purpose of determining available fund resources, how they were spent and what is available for future expenditures. Did the government generate enough revenue to pay for current obligations? What is available for spending at the end of the year?

For the year ended June 30, 2013, the School District's governmental funds reported a combined fund balance of approximately \$6.0 million, as compared to \$5.5 million for the prior year. The difference is primarily due to the results of operations in the general and food service funds, and much improved budgeting practices and collections of local revenue in the General and Debt Service funds. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At June 30, 2013, the School District's unassigned fund balance for all governmental funds was approximately \$3.0 million. The remaining amount of approximately \$3.0 million is primarily assigned, restricted or nonspendable for prepaid items, special revenue, capital projects, debt service, and food service.

- The General Fund is the chief operating fund of the School District. At the end of the current fiscal year, unassigned fund balance of the General Fund totaled approximately \$3.0 million. The fund balance for the General Fund increased by approximately \$0.3 million (13%) during fiscal year 2013.

The School District's major funds include the General Fund, as described above, Special Revenue Fund, Special Revenue-EIA Fund, Special Revenue – Food Service Fund, Debt Service Fund, Debt Service – EFC Fund, Capital Projects Fund, and the Capital Projects – EFC Fund.

The School District's Special Revenue Fund and Special Revenue – EIA Fund, generally are used to account for revenues derived from the State of South Carolina and the Federal Government. In general, these Special Revenue Funds do not have fund balances as revenues should be expended, deferred, or returned to the grantor. The Special Revenue – Food Service Fund is used to account for the School District's food service operations. The fund balance increased by approximately \$81,000.

YEAR ENDED JUNE 30, 2013

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (CONTINUED)

Governmental Funds (Continued)

The Debt Service Fund and Debt Service – EFC Fund is shown in the accompanying financial statements of the School District. The funds are used to account for debt retirement. The fund balance for the School District's Debt Service Fund increased by approximately \$81,000 from the prior year's balance primarily due revenues being higher than the required debt service for the year. The fund balance at June 30, 2013 was approximately \$166,000 which is reserved for the payment of debt service. The fund balance for the Debt Service – EFC Fund remained flat and was approximately \$0.9 million at June 30, 2013 and is reserved for future debt service related to the installment purchase revenue bonds.

The Capital Projects Fund and Capital Projects – EFC Fund are utilized to account for the School District's capital project transactions. The fund balance for the School District's Capital Projects Fund decreased by approximately \$137,000 in 2013 to approximately \$0.4 million at June 30, 2013. The fund balances for the Capital Projects – EFC Fund remained relatively flat at approximately \$0.4 million at June 30, 2013. The fund balance of both funds are either reserved or assigned for future capital projects.

General Fund Budgetary Highlights

The School District's budget is prepared according to South Carolina law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The School District has only one legally adopted budget – the General Fund. During the course of fiscal year 2013, no amendments to the School District's General Fund revenue or expense budgets were made. Key highlights are as follows:

- Local taxes were collected at 95% of assessed valuation and 103% of budget, due to more accurate exemption data on owner occupied real estate, corrected from prior years, as well as a bump in assessment due to the re-evaluation of assets acquired in the purchase of Invista SARL by Auriga Polymers, Inc. Overall, there was a surplus of local revenue collections of approximately \$771,681 due mostly to these circumstances and a significant amount of e-rate revenue.
- State revenues were collected at a surplus of \$73,650 due mostly to a one-time allocation of state funds to offset a loss in IDEA Maintenance of Effort funds from a federal audit claim at the state level, partially offset by a negative difference in Manufacturer's Depreciation Reimbursement.
- There were no mid-year reductions in appropriated state funds.
- The General Fund expenditure budget variance was less than 1% while revenues were collected in excess of budget by 3.6%, allowing the District to add \$342,210 to its fund balance, bringing the undesignated amount to 12.6% of the operating budget.
- Enrollment experienced a slight decline, from 2,852 in fiscal year 2012 to 2,824 in fiscal year 2013, based on the average daily membership, grades K through 12, on the 135th day of school.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2013, the School District's capital assets were approximately \$31.0 million, net of accumulated depreciation. The total decrease in the School District's net capital assets was approximately \$1.1 million, or approximately 3%. Major capital asset events during the current fiscal year included:

- Depreciation expense of approximately \$1.2 million.
- Equipment purchases added approximately \$0.1 million.

Debt Administration

As shown in Table 4, the School District had outstanding long-term obligations of approximately \$17.6 million and \$17.4 million as of June 30, 2013 and 2012, respectively. The School District made principal payments on debt and lease purchase obligations in 2013 of approximately \$2.3 million and interest payments of approximately \$0.8 million (excluding bank fees and other expenses). All of the School District's general obligation bond debt is backed by the full faith and credit of the School District.

Table 4
Long-Term Obligations

Long-Term Obligations	Governmental Activities	
	June 30, 2013	June 30, 2012
Debt:		
2006 Installment Purchase Revenue Bonds	\$ 15,640,000	\$ 16,195,000
2010A GOB QSCB	840,000	960,000
2009B GOB	115,000	170,000
2009 SCE Note Payable	-	13,800

Premium on Installment Purchase Revenue Bonds	57,137	60,386
	<u>\$ 17,635,137</u>	<u>\$ 17,399,186</u>

The State limits the amount of general obligation debt that school districts can issue to 8% of the assessed value of all taxable property within the School District's corporate limits. The School District's constitutional debt limit at June 30, 2013, was approximately \$4.5 million of which the School District had approximately \$2.3 million (including short term debt still outstanding at year end) outstanding debt against this limit.

CAPITAL ASSET AND DEBT ADMINISTRATION (CONTINUED)

Debt Administration (Continued)

More detailed information about the School District's debt and other long-term obligation is presented in the notes to the financial statements.

ECONOMIC FACTORS

The School District is located in the eastern part of Spartanburg County and encompasses a land area of approximately 71 square miles. The county population is estimated to be 288,745, with the School District's population estimated at 18,000. The small municipalities of Cowpens and Pacolet and several historic mill villages are included in the School District.

The present area and boundaries of the School District were established in 1951 as a result of the consolidation of smaller school districts. The School District operates a voluntary non-racial unitary school system under guidelines approved by the U.S. Department of Health, Education, and Welfare. Schools in the School District include four elementary schools, two middle schools, and one senior high school. The School District is fully accredited by the South Carolina Department of Education and the Southern Association of Colleges and Schools.

The largest taxpayers in Spartanburg County School District Three ("District Three") include RR Donnelley & Sons, a catalog printing and binding firm; Duke Energy, a utility company; Auriga Polymers, Inc., a polymer & resin firm which purchased the former Invista SARL; BASF, a surfactants manufacturer; and Johns Manville, a producer of engineered products. Together, these industries account for over 25% of the assessed valuation in fiscal year 2013 for District Three.

FY 14 BUDGET

Many factors were considered by the School District's administration during the process of developing the fiscal year 2013-14 budget, which is balanced without using reserve funds. Increases in Education Finance Act and State Special Revenue funding, provided an overall General Fund budgeted revenue increase of approximately \$667,000. This increase was primarily utilized to fund salary increases for employees, all of whom will receive longevity step increases if they otherwise qualify. There was no Cost of Living (COLA) increase budgeted. The negotiated salary reductions for retirees remain in effect for budget year 2013-14. The School District's top goals continue to be improvement of academic achievement and continuation of its capital improvements and technology refresh programs, while minimizing the impact to the classroom of a budgetary climate which remains austere due to the continued weak economic recovery. There have been no announced reductions in state funding subsequent to the adoption of the fiscal year 2013-14 budget. Due to the overall weak and tenuous economic picture, however, mid-year reductions remain a possibility. Any midyear reductions will test the School District's financial position, but management is confident that through expenditure control, line item sequestration, and budget amendments, the School District's overall operations and financial position will not be compromised.

The School District has managed to provide small salary increases and no reductions in staff outside of normal attrition while absorbing the cost of additions to the employer's share of state retirement and health insurance. This was accomplished through increases in state funding, both in Education Finance Act funding and in State Special Revenue funding areas, as well as the utilization of deferred revenue from state sources. The use of deferred revenue to balance the current budget could create a funding issue for 2014-15 since these funds will no longer be available and alternate sources will have to be found, and/or reductions in expenditures will have to be made.

The economic recovery continues to be weak, and public education in South Carolina is ever more reliant on market sensitive revenue sources. This presents all public school districts in the state with a difficult and ongoing budget puzzle, particularly for the next two to three years. Even assuming economic recovery, growth in program offerings and the replacement of equipment and technology will be much more difficult in the ensuing years, as will the maintenance of current staffing levels. The School District leadership will continue to work closely with state, federal, and local authorities, within the legal confines of taxing authority, to maximize all potential revenue sources while maintaining austerity measures with regard to expenditures to ensure the strongest financial position possible under the current circumstances.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION

JUNE 30, 2013

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS	\$ 5,994,865
---	---------------------

Amounts reported for the governmental activities in the Statement of Net Position are different because:

Property taxes and other revenues that will be collected in the future, but are not available soon enough to pay for the current year's expenditures are therefore deferred in the funds.	459,146
---	---------

Bond issuance costs are amortized over the lives of the bonds; however, in the governmental funds, bond issuance costs are expenditures the year they are incurred. The bond issuance costs of \$592,128 is shown net of accumulated amortization expense of \$167,162.	424,966
---	---------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of these capital assets was \$58,306,477 and the accumulated depreciation was \$27,298,071.	31,008,406
--	------------

Interest is recorded as an expenditure in the governmental funds when it is due and payable. Interest is recorded in the government-wide statements as it accrues regardless of when it is due and payable. This is the amount of interest that is accrued but unpaid at year end.	(83,175)
--	----------

Long-term liabilities, including bonds and lease purchase financing, are not due and payable in the current year and therefore are not reported as liabilities in the funds. Long-term liabilities consisted of the following:

Long-Term Debt (including Lease Purchase Financing)	(17,578,000)
Long-Term Premium	(57,137)

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES**

YEAR ENDED JUNE 30, 2013

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$	462,499
---	-----------	----------------

Amounts reported for governmental activities in the Statement of Activities are different because:

Repayment of principal on long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the Statement of Activities.	2,345,800
--	-----------

Bonds, note payables, and lease purchase financing proceeds provide current financial resources to governmental funds, but issuing debt or entering into lease purchasing financing increases long-term liabilities in the Statement of Net Position.	(2,585,000)
---	-------------

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. They are considered revenue in the Statement of Activities.	94,247
--	--------

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds only when it is due and payable and thus requires the use of current financial resources. However, in the Statement of Activities interest expense is recognized as the interest accrues, regardless of when it is due and payable. The interest reported in the Statement of Activities is the change in accrued interest.	(8,517)
--	---------

Bond premiums are revenues the year they are received in governmental funds, but are amortized over the life of the related bonds in the Statement of Activities.	3,249
---	-------

Bond issuance costs are expenditures the year they are incurred in governmental funds, but are amortized over the lives of bonds in the Statement of Activities.	(24,168)
--	----------

Governmental funds report capital asset additions as expenditures. However, in the Statement of Activities the cost of those assets that are considered capital asset additions is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense (\$1,170,977) exceeded capital asset additions (\$74,637) in the current year.	(1,096,340)

GLENDALE, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

Spartanburg County School District Three, South Carolina (the "School District") is controlled by a Board of Trustees (the "Board"), which has oversight responsibility over the public school educational activities in the School District. The School District receives funding from local, state and federal government sources and must comply with the related requirements of these funding source entities. The School District is governed by a nine member Board.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

A. Reporting Entity

The School District is controlled by a Board of Trustees (the "Board"), which has oversight responsibility over the public school education activities in the School District. The School District is not included in any other governmental "reporting entity" as defined in the GASB Sec. 2100.108 since Board members are elected by the public and have decision making authority, the power to designate management, the ability to significantly influence operations and the primary accountability for fiscal matters. For these reasons, the School District is recognized as a primary government in accordance with GAAP.

As required by GAAP, the financial statements must present the School District's financial information with any of its component units. The primary criterion for determining inclusion or exclusion of a legally separate entity (component unit) is financial accountability, which is presumed to exist if the School District both appoints a voting majority of the entity's governing body, and either 1) the School District is able to impose its will on the entity or, 2) there is a potential for the entity to provide specific financial benefits to, or impose specific financial burdens on the School District. If either or both of the foregoing conditions are not met, the entity could still be considered a component unit if it is fiscally dependent on the School District and there is a potential that the entity could either provide specific financial benefits to, or to impose specific financial burdens on the School District.

In order to be considered fiscally independent, an entity must have the authority to do all of the following: (a) determine its budget without the School District having the authority to approve or modify that budget; (b) levy taxes or set rates or charges without approval by the School District; and (c) issue bonded debt without approval by the School District. An entity has a financial benefit or burden relationship with the School District if, for example, any one of the following conditions exists: (a) the School District is legally entitled to or can otherwise access the entity's resources, (b) the School District is legally obligated or has otherwise assumed the obligation to finance the deficits or, or provide financial support to, the entity, or (c) the School District is obligated in some manner for the debt of the entity. Finally, an entity could be a component unit even if it met all the conditions described above if excluding it would cause the School District's basic financial statements to be misleading.

Blended component units, although legally separate entities, are in substance, part of the government's operations and data from these units are combined with data of the primary government in the fund financial statements. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the School District. Based on the above criteria, the School District has one blended component unit; it does not have any discretely presented component units.

Blended Component Unit: SCAGO Educational Facilities Corporation for Spartanburg County School District No. 3 (the "EFC") was incorporated in 2006 for educational and charitable purposes, specifically to (1) acquire, construct, finance, pledge, improve, maintain, operate, manage, lease and dispose of school buildings and other public education facilities for the use and benefit of the School District and to (2) encourage and promote public education through cooperative arrangements with governmental entities and organizations exempt under Section 501(c)(3) that provide public education in the School District.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

The EFC has five board members which are appointed by the board of directors of SCAGO. Three members of the board of directors for ECF shall also be members of the board of directors of SCAGO (following the initial term, his or her replacement will no longer need to be a member of the board of directors of SCAGO) with two additional members consisting of individuals who reside in the geographic area of the School District.

Upon dissolution, the remaining assets of EFC will be distributed to the School District. Because the EFC exclusively benefits the School District, the EFC's financial information is blended with that of the School District in these financial statements. Separate financial information for the EFC is included in individual columns throughout the financial statements. Separate financial statements for the EFC are not issued.

Related Entities: These financial statements exclude the operations/activities of Daniel Morgan Technology Center ("DMTC" or "Center"), Spartanburg, South Carolina. DMTC serves the high schools in Spartanburg County School District Three and Seven. Three board members each from Spartanburg County School District Three and Seven serve as voting members of the Board of Trustees of DMTC. The superintendents of the two school districts serve as *ex officio* members. DMTC serves Broome High School (a Spartanburg County School District Three school) and Spartanburg High School (a Spartanburg County School District Seven school). The DMTC is a multi district career and technology center. The mission of the DMTC is to provide students with the academic, technical, and decision making skills needed for success in the 21st century workplace. The School District currently serves as the fiscal agent for DMTC. Tuition and other support provided by the School District to DMTC is shown as expenditures/expenses in the School District's financial statements.

B. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the School District (the "Primary Government") and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, would be reported separately from *business-type activities*, which rely, to a significant extent, on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

The **government-wide financial statements** are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are Fiduciary Fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The government-wide financial statements are prepared using a different measurement focus from the manner in which governmental fund financial statements are prepared (see further detail below). Governmental fund financial statements therefore, include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The School District implemented Governmental Accounting Standards Board Statement No. 63, "*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*" ("GASB #63") in 2013. GASB #63 establishes financial reporting requirements and related disclosures for certain elements of a statement of financial position that were discussed in the GASB's 2007 Concepts Statement No. 4, "*Elements of Financial Statements*". In Concepts Statement No. 4, the GASB defines a *deferred outflow of resources* as a consumption of net assets by a government that is applicable to a future reporting period; a *deferred inflow of resources* as an acquisition of net assets by a government that is applicable to a future reporting period; and *net position* as the residual of all other elements presented in a statement of financial position (the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources). Under GASB #63, amounts for items that the GASB has designated to be deferred outflows of resources are to be presented in a statement of financial position in a separate section following assets, while amounts for items that the GASB has designated to be deferred inflows of resources are to be presented in a separate section following liabilities. The residual of assets and deferred outflows of resources over liabilities and deferred inflows of resources is to be reported as net position rather than as net assets in a statement of financial position. Since the School District had no deferred outflows or inflows of resources at June 30, 2013, the School District's implementation of GASB #63 had no material effect on the presentation of its 2013 financial statements.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, federal and state grant programs and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Fund financial statements report detailed information about the School District. The focus of Governmental Fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Fiduciary Funds are reported by fund type.

When both restricted and unrestricted resources are available for use, it is the School District's practice to use restricted resources first, then unrestricted resources as they are needed.

The accounts of the government are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are a minimum number of funds maintained to keep the accounts consistent with legal and managerial requirements. The following major funds and fund types are used by the School District.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental Fund Types are those through which most governmental functions of the School District are financed. The School District's expendable financial resources and related assets and liabilities are accounted for through governmental funds. Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. The following are the School District's major governmental fund types:

The **General Fund, a major fund**, is the general operating fund of the School District and accounts for all revenues and expenditures of the School District except those required to be accounted for in other funds. All general tax revenues and other receipts that (a) are not allocated by law or contractual agreement to other funds or (b) that have not been restricted, committed, or assigned to other funds are accounted for in the General Fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources (that are expected to continue to comprise a substantial portion of the inflows of the fund) that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The School District has the following major Special Revenue Funds:

- i) **The Special Revenue Fund, a major fund** and an unbudgeted fund, is used to account for financial resources provided by federal, state and local projects and grants that are restricted, committed or assigned for special education programs.
- ii) **The Education Improvement Act ("EIA") Fund, a major fund** and an unbudgeted fund, is used to account for the revenues from the South Carolina Education Improvement Act of 1984 (which is legally required by the state to be accounted for as a specific revenue source) which are restricted for specific programs authorized or mandated by the EIA.
- iii) **The Food Service Fund, a major fund** and an unbudgeted fund, is used to account for the United States Department of Agriculture's ("USDA") approved school breakfast and lunch programs.

The **Debt Service Fund - a major fund** and an unbudgeted fund, is used to account for and report the accumulation of resources for, and payment of, all long-term debt principal, interest and related costs for the School District.

The **Debt Service - EFC Fund - a major fund** and an unbudgeted fund, is used to account for the accumulation of resources for, and payment of, all long-term debt principal, interest and related costs for EFC.

The **Capital Projects Fund - a major fund** and an unbudgeted fund, is used to account for financial resources to be used for site acquisitions, construction, equipment, and renovation of all major capital facilities for the School District.

The **Capital Projects - EFC Fund - a major fund** and an unbudgeted fund, is used to account for financial resources to be used for site acquisitions, construction, equipment, and renovation of all major capital facilities for EFC.

Fiduciary Fund types use the economic resources measurement focus and the accrual basis of accounting; they are used to account for expendable assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds and include agency funds. Fiduciary Fund Types include the following fund:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The *Agency Fund* accounts for the receipt and disbursement of monies to and from student activity organizations. These funds have no equity (assets are equal to liabilities) and do not include revenues and expenditures for general operation of the School District. This accounting reflects the agency relationship of the School District with the student activity organizations. Agency funds do not have a measurement focus.

C. Assets, Liabilities, and Equity

1. Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents

The School District considers all highly liquid investments (including restricted assets) with original maturities of three months or less when purchased and investments in the South Carolina Pooled Investment Fund ("Pool") to be cash equivalents. Securities with an initial maturity of more than three months (from when initially purchased) that are not purchased from the pool are reported as investments.

Investments

The School District's investment policy is designed to operate within existing statutes (which are identical for all funds, fund types and component units within the State of South Carolina) that authorize the School District to invest in the following:

- (a) Obligations of the United States and its agencies, the principal and interest of which is fully guaranteed by the United States.
- (b) Obligations issued by the Federal Financing Bank, Federal Farm Credit Bank, the Bank of Cooperatives, the Federal Intermediate Credit Bank, the Federal Land Banks, the Federal Home Loan Banks, the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Government National Mortgage Association, the Federal Housing Administration, and the Farmers Home Administration, if, at the time of investment, the obligor has a long-term, unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to a refinement or gradation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations.
- (c) (i) General obligations of the State of South Carolina or any of its political units; or (ii) revenue obligations of the State of South Carolina or its political units, if at the time of investment, the obligor has a long-term, unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to a refinement or gradation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations.
- (d) Savings and Loan Associations to the extent that the same are insured by an agency of the federal government.
- (e) Certificates of deposit where the certificates are collaterally secured by securities of the type described in (a) and (b) above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificates of deposit so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an agency of the federal government.
- (f) Repurchase agreements when collateralized by securities as set forth in this section.

Investments (Continued)

- (g) No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond or other debt issue of that local government unit, political subdivision, or county treasurer if the particular portfolio of the investment company or investment trust in which the investment is made (i) is limited to obligations described in items (a), (b), (c), and (f) of this subsection, and (ii) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, value its assets by the amortized cost method.

The School District's cash investment objectives are preservation of capital, liquidity and yield. The School District reports its cash and investments at fair value which is normally determined by quoted market prices (except as noted).

The School District currently or in the past year has used the following investments:

- South Carolina Local Government Investment Pool ("Pool") investments are invested with the South Carolina State Treasurer's Office, which established the South Carolina Pool pursuant to Section 6-6-10 of the South Carolina Code. The Pool is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any city treasurer or any governing body of a political subdivision of the State, may be deposited. The Pool is a 2a 7-like pool which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but has a policy that it will operate in a manner consistent with the SEC's Rule 2a 7 of the Investment Company Act of 1940. In accordance with GASB Statement No. 31, *"Accounting and Financial Reporting for Certain Investments and for External Investment Pools"*, investments are carried at fair value determined annually based upon quoted market prices. The total fair value of the Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.00.
- Cash and Investments held by the County Treasurer which are property taxes collected by the School District's fiscal agent that have not been remitted to the School District. The County Treasurer invests these funds in investments authorized by state statute as outlined above. All interest and other earnings gained are added back to the fund and are paid out by the County Treasurer to the respective governments on a periodic basis.
- Open ended mutual funds which are primarily invested in money market funds which invest in short term obligations of the United States and related agencies.
- U.S. Treasury Bills are obligations of the United States government and have maturities of one year or less. They do not pay interest prior to maturity; instead they are sold at a discount of par value.

2. *Interfund Receivables and Payables*

Transactions between funds that are representative of reimbursement arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds."

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the statement of net position.

3. *Inventories and Other Assets*

Inventories

Inventories in the Special Revenue - Food Service Fund are accounted for using the purchase method (expensed when paid). If significant amounts of inventories exist at year-end, the School District records these amounts in the balance sheet.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

4. *Capital Assets*

Capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$5,000. However, all land will be capitalized regardless of cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is not capitalized for governmental activities as allowed by GAAP. The School District does not maintain ownership of any public domain ("infrastructure") general capital assets.

All reported capital assets except land and construction in progress are depreciated. Construction projects begin being depreciated once they are completed and placed in service, at which time the complete costs of the project are transferred to the appropriate capital asset category. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Capital Asset Category</u>	<u>Useful Life Range</u>
Buildings and Improvements	30–50 years
Machinery and Equipment	3–10 years

5. *Compensated Absences*

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." School District employees are granted vacation and sick leave in varying amounts. Vacation earned during a year must be used by the end of the year or it is permanently lost. Up to 90 days of sick leave can be carried forward from year to year, but can only be used for valid medical reasons. In addition, upon retirement 12-month employees are not reimbursed for accumulated vacation days or unused sick leave. In addition to vacation and sick leave, employees with 20 or more years of state experience can accumulate annual leave. Employees that have 90 days of sick leave accumulated as of July 1st can start accumulating annual leave. How much they accumulate depends on their contract (ex. 9 month employees accumulate 1 day per month up to 9 days, 12 month employees accumulate up to 12 days, etc.). An employee will only be paid out annual leave at their daily rate when they leave the district if they have worked 5 consecutive years with the District or upon retirement. As is consistent with the prior year, no amounts were accrued for compensated absences in the government-wide financial statements as the amounts were immaterial.

6. *Accrued Liabilities and Long-Term Obligations*

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, contractually required retirement contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due and payable.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Position. Bond premiums, as well as bond issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method, if significant. Amortization of premiums and bond issuance costs are included in interest expense. Bond premiums are included with bonds payable and other long-term obligations. Bond issuance costs are reported as other assets and are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

7. *Fund Balance*

In accordance with GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions" ("GASB #54"), the District classifies its governmental fund balances as follows:

Nonspendable – includes amounts that inherently cannot be spent either because it is not in spendable form (i.e. prepaids, inventories, etc.) or because of legal or contractual requirements (i.e. principal on an endowment, etc.).

Restricted – includes amounts that are constrained by specific purposes which are externally imposed by (a) other governments through laws and regulations, (b) grantors or contributions through agreements, (c) creditors through debt covenants or other contracts, or (d) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that are constrained for specific purposes that are internally imposed by the government through formal action made by the highest level of decision making authority (The Board) before the end of the reporting period. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. Committed amounts for the District consist of amounts approved by a majority vote of the Board Members (a) in the annual budget or (b) in subsequent requests made throughout the year.

Assigned – includes amounts that are intended to be used for specific purposes that are neither considered restricted or committed and that such assignments are made before the report issuance date. The Board has formally granted the Superintendent and the Finance Director the right to make assignments of fund balance for the District.

Unassigned – includes amounts that do not qualify to be accounted for and reported in any of the other fund balance categories. This classification represents the amount of fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts of restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

The District generally uses restricted amounts to be spent first when both restricted and unrestricted (committed, assigned, and unassigned) fund balance is available unless there are legal documents, contracts, or agreements that prohibit doing such. Additionally, the District generally would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The District does not have a formally approved minimum fund balance policy, but generally attempts to keep its unassigned fund balance in the General Fund to be approximately two months of General Fund operating expenditures.

8. *Net Position*

Net Position represents the difference between assets and liabilities in the Statement of Net Position. Net Position is classified as net investment in capital assets; restricted; and unrestricted. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Outstanding debt which has not been spent is included in the same net position component as the unspent proceeds. Net Position is reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments.

9. *Encumbrances*

Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures are recorded to reflect the use of the applicable spending appropriations, is used by the General Fund during the year to control expenditures. Encumbrances do not constitute expenditures or liabilities. For budget purposes encumbrances and unused expenditure appropriations lapse at year end.

10. *Accounting Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and assumptions.

11. *Comparative Data*

Comparative data (i.e. presentation of prior year totals by fund type) has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Budgetary Practices – The General Fund budget is presented as required supplementary information. The budget is presented on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America.

The budget is prepared by function and object as dictated by the State of South Carolina adopted Program Oriented Budgeting and Accounting System and for management control purposes. The School District's policies allow funds to be transferred between functions. However, the total budget cannot be increased beyond that level without approval of the Board in a supplementary action. The legal level of control is at the fund level. During the year, the Board did not revise the budget.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

A. Budgetary Information (Continued)

The following procedures are followed in establishing the budgetary data reflected in the budgetary comparison schedule:

- (1) In the spring the School District begins its budget process for the next succeeding fiscal year.
- (2) The School District's leadership team reviews all requests and allocation requirements and related revenue.
- (3) The Superintendent and the Assistant Superintendent for Finance & Operations then presents a proposed budget to the Board of Trustees which reviews it in a series of workshops and makes any additions or deletions it deems necessary.
- (4) Prior to July 1, the budget is legally enacted through passage of a resolution by the Board.

The administration has discretionary authority to make transfers between appropriation accounts. The revised budget amounts in the required supplementary schedule are as amended by the administration. All annual appropriations lapse at fiscal year end.

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES

A. Deposits and Investments

Deposits

Custodial Credit Risk for Deposits: Custodial credit risk for deposits is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. The School District does not have a deposit policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2013, none of the School District's total bank balances (including Pupil Activity) of approximately \$5,184,000 (with a carrying value of approximately \$4,660,000) were exposed to custodial credit risk.

Investments

As of June 30, 2013, the School District had the following investments and maturities:

Investment Type	Credit Rating	Fair Value	Maturity in Less than One Year
South Carolina Local Government Investment Pool	Unrated ^	\$ 1,280,691	\$ 1,280,691
Federal National Mtg Assn Pool	AA+, AAA	1,291,451	1,291,451
Government Money Market Funds	AAAm, Aaa-mf	72,149	72,149
Total		<u>\$ 2,644,291</u>	<u>\$ 2,644,291</u>

^ Investments in 2a-7 like funds are not required to disclose interest rate risk.

Interest Rate Risk: The School District does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Investments (Continued)

Custodial Credit Risk for Investments: Custodial credit risk for investments is the risk that, in the event of a bank failure, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have an investment policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2013, none of the School District's investments were exposed to custodial credit risk.

Credit Risk for Investments: Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District does not have an investment policy for credit risk but follows the investment policy statutes of the State of South Carolina.

Concentration of Credit Risk for Investments: The School District places no limit on the amount the School District may invest in any one issuer. Investments issued by or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools and other pooled investments are exempt from concentration of credit risk disclosures.

B. Property Taxes and Other Receivables

Real and personal property taxes (excluding vehicles) are levied on October 1 for the assessed valuations of property located in Spartanburg County as of the preceding January 1, and are due and payable at that time. All unpaid taxes levied October 1 become delinquent January 15 of the following year, and property taxes attach as an enforceable lien if not paid by March 16 of the following year.

Penalties are added to taxes depending on the date paid as follows:

January 16 through February 1	3% of Tax
February 2 through March 16	10% of Tax
March 17 and Thereafter	15 % of Tax Plus Collection Costs

Motor vehicle taxes are levied on the first day of the month in which the motor vehicle license expires and is due by the end of the month. Property taxes are billed and collected by the County. Property tax revenue is recognized when collected by the County Treasurer's Office. Real property taxes collected within 60 days after fiscal year end are also recognized as revenue for the year.

For the year ended June 30, 2013, the operating and debt service millage rates were 227.9 mills (219.2 mills in the prior year) and 37.1 mills (37.1 mills in the prior year), respectively, based on an assessed value of approximately \$56.2 million for the School District.

On the government-wide and fund financial statements, taxes receivable are approximately \$511,000 (net of an allowance for uncollectibles of approximately \$511,000) at June 30, 2013. Allowances for uncollectibles were not necessary for the other receivable accounts.

Delinquent property taxes of approximately \$41,000 for operations \$11,000 for Debt Service have been recognized as revenue at June 30, 2013, because they were collected within sixty days after year end as they were considered measurable and available.

B. Property Taxes and Other Receivables (Continued)

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At June 30, 2013, the various components of deferred/unearned revenue reported in the governmental funds were as follows:

Deferred Property Taxes - General Fund	\$	389,920
Deferred Property Taxes - Debt Service Fund		69,225
Unearned Revenue from Prepaid Tuition - General Fund		15,465
Unearned Revenue from Special Revenue and Special Revenue - EIA Funds		238,920
Total Deferred/Unearned Revenue for Governmental Funds	\$	<u>713,530</u>

C. Interfund Receivables and Payables

Interfund receivables and payables at June 30, 2013 (all of which are expected to be repaid within one year), are summarized as follows:

In 2007, the Board of Trustees approved a list of approximately \$18,185,000 in capital needs, the result of a prioritization process of the School District's needs. After careful study of funding alternatives, the Board authorized the formation of the EFC, a non-profit corporation which assisted the School District in the formulation of an installment purchase plan, whereby the School District has leased the applicable buildings to the EFC for the purpose of capital improvements, and is in the process of purchasing them back utilizing general obligation debt over a 24 year period, allowing the School District to leverage its constitutional debt limit to complete the capital needs within a short-term construction cycle versus the more piecemeal approach of "pay as you go."

F. Short-Term Obligations

In October 2012, the School District issued a \$3,000,000 tax anticipation note ("2012 TAN") at a rate of 0.17% to help cover current operating needs. The School District drew down \$2,298,760 that was subsequently repaid in March 2013 for approximately \$2,311,000 (including interest). In March 2012 the District issued a \$372,000 general obligation bond ("2012A GOB") at a rate of 2.0 % for the principal portion of the debt service on the Installment Purchase Revenue Bonds. The School District repaid the 2012A GOB in March of 2013 for approximately \$379,000 (including interest). In March 2013 the District issued a \$360,000 general obligation bond ("2013A GOB") at a rate of 1.5% for the principal portion of the debt service on the Installment Purchase Revenue Bonds. The School District will repay the 2013A GOB in March 2014 for approximately \$365,000 (including interest). Following is a summary of the changes in the School District short-term obligations for the year ended June 30, 2013:

Short-Term Obligation	Beginning Balance	Additions	Reductions	Ending Balance
2012 GO Bonds	\$ 372,000	-	372,000	\$ -
2012 TAN	-	2,298,760	2,298,760	-
2013 GO Bonds	-	360,000	-	360,000
Total	<u>\$ 372,000</u>	<u>2,658,760</u>	<u>2,670,760</u>	<u>\$ 360,000</u>

G. Long-Term Obligations

The School District issues bonds to provide funds for the acquisition and construction of major capital facilities. General Obligation Bonds ("GOB") are direct obligations and pledge the full faith and credit of the School District. Installment purchase revenue bonds are obligations of the School District's blended component unit, EFC, and thus are not direct obligations which pledge the full faith and credit of the School District. Lease purchase ("LP") obligations are special obligations of the School District payable from the general revenues of the School District. The full faith, credit and taxing powers of the School District are not pledged for the payment of lease purchase obligations nor the interest thereon.

General obligation, installment purchase revenue bonds, and lease purchase obligations outstanding at June 30, 2013, were comprised of the following:

2006 IPRB: EFC Installment Purchase Revenue Bonds ("IPR Bonds") in the amount of \$18,185,000, principal due in annual installments of \$465,000 to \$1,260,000 at December 1; interest at 4.0% to 5.00% paid semiannually, with a final maturity date in December 2030. Bonds maturing on or after December 1, 2016 are subject to redemption in whole or in part on any date on or after June 1, 2016, at the discretion of the EFC. In connection with the issuance of this indebtedness, a premium of \$79,610 and bond issuance costs of \$592,128 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2013 were \$60,386 and \$449,134, respectively. These proceeds were used for various capital projects at various locations.

2009B GOB: Original issue of \$2,065,000, due in annual installments of \$60,000 to \$1,320,000; interest at 2.25% to 2.4% paid semiannually, with a final maturity date in March 2015.

G. Long-Term Obligations (Continued)

- 2010A GOB QSCB: Original issue of \$1,200,000, due in annual installments of \$120,000; interest at 4.75% paid semiannually, with a final maturity date in March 2020. These bonds receive a rebate at a rate of 4.75% semiannually which is included as revenue in Debt Service Fund. These proceeds were used for construction at Cowpens Middle.
- 2012B GOB: Original issue of \$2,585,000, due in annual installments of \$481,000 to \$1,602,000; interest at 4.0% paid semiannually, with a final maturity date in September 2015.

The IPR Bonds were issued pursuant to a Facilities Agreement and Base Lease Agreement between the School District and EFC. These agreements were authorized and approved by the Board of Trustees of the School District in 2006. The Facilities Agreement permits the School District to design, construct, renovate equip, furnish occupy and operate the facilities in exchange for the payment by the School District on a semi-annual basis of installments of the purchase price of the facilities sufficient to pay the principal and interest on the IPR Bonds as such amounts become due. By making each such payment of purchase price, the School District acquires an undivided interest in the facilities. Upon the making of the final scheduled payment of purchase price under the Facilities Agreement, the School District will have purchased all interest of EFC in the facilities and will own the facilities outright. The School District's obligations under the Facilities Agreement are from year to year only and do not constitute a mandatory payment obligation of the School District in any fiscal year in which funds are not appropriated by the School District to pay the installment payments of purchase price due in such fiscal year. However, the School District would forfeit possession of the Facilities for the remainder of the term of the Lease if it did not make the payment to EFC.

The IPR Bonds were issued by EFC in August 2006 to finance the costs of constructing and renovating educational facilities (the "2006 Facilities") to be sold by EFC to the School District pursuant to a School Facilities Purchase and Occupancy Agreement. EFC executed a Trust Agreement in connection with the IPR Bonds and established the following primary accounts:

- Reserve Account – Funds may only be used to make bond payments to the extent necessary to make up for a deficiency in the Base Lease Rental account – see below. The total in this account was approximately \$1,359,000 at June 30, 2013.

G. Long-Term Obligations (Continued)

Interest paid on the debt issued by the School District is exempt from federal income tax. The School District sometimes temporarily reinvests the proceeds of such tax-exempt debt in materially higher-yielding taxable securities, especially during construction projects. The federal tax code refers to this practice as arbitrage. Excess earnings (the difference between the interest on the debt and the investment earnings received) resulting from arbitrage must be rebated to the federal government. The School District does not have a significant liability for arbitrage as of June 30, 2013.

The School District has authority to issue general obligation bonds each calendar year, subject to a constitutional debt limit equal to 8% of the assessed value of all taxable property in the School District. The debt limitation does not apply to certain certificates of participation, debt approved through a district-wide referendum, and original or refunding debt for obligations issued on or before November 30, 1982. The School District's constitutional debt limit at June 30, 2013, was approximately \$4,496,000. The School District had \$1,938,000 outstanding debt against this limit.

IV. OTHER INFORMATION

A. South Carolina Retirement System Retirement Plans

Full time employees of the District are covered under the South Carolina Retirement System ("SCRS"), a cost-sharing multiple-employer defined benefit pension plan. The SCRS was established by the South Carolina state legislature on July 1, 1945, for the benefit of teachers and employees of the State and its political subdivisions. The PORS was established by the South Carolina state legislature on July 1, 1962, for the benefit of police officers and firemen. Both the SCRS and the PORS offer retirement and disability benefits, cost of living adjustments on an ad-hoc basis, life insurance benefits, and survivor benefits. The Plans' provisions are established under Title 9 of the South Carolina Code of Laws and were originally administered by the South Carolina Budget and Control Board. Effective July 1, 2012, the South Carolina General Assembly transferred administration of the SCRS and PORS to the newly created South Carolina Public Employee Benefit Authority ("PEBA"). The PEBA has the authority to establish and amend benefits and funding policy. A comprehensive annual financial report containing financial statements and required supplementary information for the retirement benefits is issued and publicly available by writing to the South Carolina Public Employee Benefit Authority, P.O. Box 11960, Columbia, SC 29211-1960.

Benefits vest after five years of service, and vested members who retire at age sixty-five or with twenty eight years of service at any age, receive an annual benefit, payable monthly for life. The benefit is based on the length of service and on average final compensation, an annualized average of the employee's highest twelve consecutive quarters' compensation. Reduced benefits are payable as early as age sixty.

Effective July 1, 2012, new hires will be subject to new rules brought about by South Carolina General Assembly action. Average final compensation for this group will be based on the member's five highest years of earnable compensation. Payments for unused annual leave are no longer used in the calculation of average final compensation, nor is service credit given for unused sick leave at retirement. Also for new hires after July 1, 2012, a member may retire only if the member has eight or more years of earned service (vesting), has reached the age of 65 (or age 60 with a 5 percent reduction for each year the member retires before age 65) or has satisfied the Rule of 90 as explained below, and has separated from service. Early retirement at age 55 with at least 25 years of service is no longer available for new hires after July 1, 2012.

IV. OTHER INFORMATION (CONTINUED)

A. South Carolina Retirement System Retirement Plans (Continued)

The Rule of 90 states that age and years of service must add up to 90, with a minimum of 8 years of earned service. A member who is 56 years old, for example, and has at least 34 years of service, eight of which must be earned, would be eligible for normal retirement.

The employee required contribution rates to the SCRS plan was 7.00%, 6.50%, and 6.50% of covered salary for the years ended June 30, 2013, 2012, and 2011, respectively. The employer required contribution rate to the SCRS plan was 10.45%, 9.39%, and 9.24% for the years ended June 30, 2013, 2012 and 2011, respectively. Because the contribution rates to the SCRS are required, they are also actual contributions as well. Thus, the actual contribution rate and amount is 100% of the required contribution rate and amount for the plan for all years presented.

The State of South Carolina also provides an optional retirement plan ("State ORP"). It is a governmental plan administered as a qualified plan pursuant to Section 401(a) of the IRC. The State ORP is a defined contribution plan that provides retirement and survivor benefits for certain administrative positions which allows them to participate. As an alternative to the South Carolina Retirement System, employees eligible for the State ORP may choose between the State ORP plan or the SCRS plan.

Employee required contribution rates to the State ORP was 7.00%, 6.50%, and 6.50% of covered salary for the years ended June 30, 2013, 2012, and 2011, respectively. The employer required contribution rates are 5.45%, 4.39%, 4.24% for the years ended June 30, 2013, 2012, and 2011 respectively. An additional 5% is also remitted to the employees' authorized investment providers. The actual contribution rate and amount are 100% of the required contribution rate and amount for the State ORP for all years presented.

In addition to the above rates, participating employers have contributed (a) .15% of payroll for the SCRS and State ORP to provide a group life insurance benefit for their participants (for the current and preceding two years) and (b) 4.55% 4.30%, and 3.90% surcharge on payroll for retiree health and dental insurance and group life insurance benefit for their active participants for the years ended June 30, 2013, 2012, and 2011, respectively. All employers contribute at the actuarially required contribution rates.

The School District had total wages of approximately \$18,214,000, \$17,889,000, and \$16,939,000 for the years ended June 30, 2013, 2012, and 2011, respectively. The following is a summary of the School District's member wages and employee and employer contributions for the retirement plans:

Year Ended June 30th	Member Wages	Employee Contributions	Employer Contributions	Total Contributions

B. Post-Employment Health Care Benefits

In addition to the pension benefits, and in accordance with provisions of the State Appropriations Act, an employer contribution surcharge (4.55%, 4.30%, and 3.90% for 2013, 2012, and 2011, respectively) percent of covered payroll was added to State and Public School entities covered by the State Health Insurance Program. This assessment is for the purpose of providing retiree health insurance coverage on a pay-as-you-go basis, and is remitted to the Division of Insurance Services. No additional employee contributions are required. The annual contribution rate is determined based on a state-wide estimate of annual premiums and covered payroll. The expenditure recognized by the employer for the year ended June 30, 2013 was approximately \$892,000.

All postretirement benefits paid to the School District's retired members are made from the SCRS and from South Carolina's General Fund (Health Care). The School District has no liability beyond the payment of monthly contributions.

C. Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees' and natural disasters. The School District continues to carry commercial insurance for property and casualty insurance. There has been no reduction in insurance coverage as compared to the prior year. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

D. Grants

The School District participates in a number of federally assisted grant programs. These programs are subject to financial and compliance audits of major program requirements under the Office of Management and Budgets' Circular A-133 *Audits of States, Local Governments, and Non-profit Organizations*. Any disallowed claims, including amounts already collected, could become a liability of the School District. However, the School District expects such amounts, if any, to be immaterial.

E. Fund Balance Restrictions, Assignments and Nonspendable Amounts

In the Fund Financial Statements, the School District restricts those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund equity, which is available for appropriation in future periods. Assignments of fund balance represent tentative management plans that are subject to change. The School District has restricted, assigned and nonspendable portions of fund balance at June 30, 2013 as follows:

<u>Restricted, Assigned and</u> <u>Nonspendable</u>	<u>Fund</u>	<u>Amount</u>
Nonspendable for Prepaid Items	General Fund	\$ 98,121
Restricted for Special Programs	Special Revenue	542,206
Restricted for Food Service	Special Revenue - Food Service	447,123
Restricted for Debt Service	Debt Service	166,253
Restricted for Debt Service	Debt Service - EFC	936,731
Restricted for Capital Projects	Capital Projects - EFC	399,893

F. Related Organization

The School District remits a tuition payment to the DMTC to cover the educational costs of the School District's students attending the Center. This tuition payment is calculated using the Education Financial Act formula. For the year ended June 30, 2013, approximately \$205,000 was recorded as General Fund expenditures for Career & Technical Education Tuition paid to the DMTC. In addition at June 30, 2013, there was approximately \$483,000 due to the DMTC and approximately \$20,000 due from the DMTC. The School District serves as the fiscal agent for the DMTC. The School District pays the DMTC's bills and, in turn, is reimbursed from the DMTC in the form of state and local revenue that the DMTC receives.

G. Concentration of Property Tax Revenue Risk

38.2% of the School District's taxable assessed valuation for operations in 2012 is derived from taxable property owned by R.R. Donnelley & Sons, a catalog printing and binding firm; Duke Energy, a utility company; Auriga Polymers, Inc., a polymer & resin firm; BASF, a surfactants manufacturer; and Johns Manville, a producer of engineered products.

State Budget Cuts

As of October 2013, there has been no mention of mid-year budget cuts from the State of South Carolina due to sales tax and other sources of state revenues either meeting or exceeding budgetary projections. Due to the ongoing economic uncertainties in the State and National economies, however, midyear budget cuts remain a possibility. Any reductions will test the School District's financial position, but management is confident that through expenditure control, line item sequestration, and budget amendments, the School District's overall operations and financial position will not be compromised.

I. Subsequent Events

Issuances of Debt

In September 2013, the School District had one debt issuance for \$1,138,000 with a net effective rate of 0.16%. This debt issuance is due in March 2014. This was issued for the payments of the installment debt and for capital maintenance items.

In July 2013, the School District entered into a tax anticipation note ("TAN") for approximately \$2,352,000 at a net effective rate of 0.16% due in April 2014. In October the School District drew down \$1,200,000 of the available funds.

IV. OTHER INFORMATION (CONTINUED)

J. Pending Implementation of GASB Statement on Pensions

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" ("Statement"), was issued by the Governmental Accounting Standards Board ("GASB") in June 2012. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that are provided by other entities. In addition, state and local governments who participate in a cost-sharing multiple employer plan will now be required to recognize a liability for its proportionate share of the net pension liability of that plan. It is GASB's intention that this new Statement will provide citizens and other users of the financial statements with a clearer picture of the size and nature of the District's financial obligations to current and former employees for past services rendered.

In particular, the District will be required to report a net pension liability for its participation in the SCRS and PORS on financial statements prepared on the economic resources measurement focus and accrual basis of accounting (i.e., the Statement of Net Position) and present more extensive note disclosures. In general, it should not have a significant impact on the District's governmental funds.

The effect of implementation of this Statement has not been determined at this time, but it is anticipated that it will materially decrease the District's unrestricted net position. This Statement is required to be implemented by the District no later than the fiscal year ending June 30, 2015.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED JUNE 30, 2013

A – General

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) presents the activity of all federal award programs of Spartanburg County School District Three, South Carolina (the “School District”) for the year ended June 30, 2013. All federal awards received directly from the federal agencies, as well as those passed through other government agencies, are included on the Schedule.

B – Basis of Accounting

The accompanying Schedule is presented using the modified accrual basis of accounting, which is described in the notes to the School District’s financial statements.

C – Relationship to Financial Statements

Federal award expenditures are reported in the School District’s basic financial statements as expenditures or loans in the Special Revenue Fund and in the Special Revenue – Food Service Fund.

D – Relationship to Federal Financial Reports

Amounts reported in the accompanying Schedule agree with the amounts reported in the related federal financial reports except for timing differences relating to expenditures made subsequent to the filing of the federal financial reports.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
Spartanburg County School District Three
Glendale, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Spartanburg County School District Three, South Carolina (the "School District") as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated November 1, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL
CONTROL OVER COMPLIANCE AS REQUIRED BY OMB CIRCULAR A-133**

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
Spartanburg County School District Three
Glendale, South Carolina

Report on Compliance for Each Major Federal Program

We have audited Spartanburg County School District Three, South Carolina's (the "School District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2013. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
