What is the Student Assistance Program?

- The Student Assistance Program helps students overcome barriers to learning so that they achieve, remain at school, and advance.
- S.A.P. is an intervention program, not a treatment program, that integrates a process of information gathering, and referral through a core team.

What is the Parents’ Role?

Parent involvement strengthens the decision-making process about any behavior that is affecting the education, health, safety, or welfare of their child. Active parent support of the S.A.P. process promotes student success. Students are more likely to benefit from S.A.P. recommendations when parents are informed, involved, and supportive.

What the S.A.P. team can do for your child:

- Speech/Language Screenings
- Gifted Screenings
- Agency Referrals
- Academic Support
- Behavioral Support
- Drug & Alcohol Programming

Referral Process

**STEP I:**
Students are referred to S.A.P. by:
- School Administrator
- Teacher
- Other School Personnel (Counselor, Nurse, etc.)
- Fellow Students
- Self-referral
- Parent/Family

gathered, a determination is made by the core team as to the seriousness of the problem and the level of intervention that is needed. When an in-school screening has been indicated, one is set up with the S.A.P. liaison. Throughout the S.A.P. process, family and core team work together to develop the plan.

**Step IV:**
The core team and/or liaison then assists the student and the parents/family in developing an action plan. The action plan may consist of:
- In-school support services, and/or
- Further evaluation by the mental health system, drug and alcohol system, or both to determine the most appropriate level of care needed and/or
- Other professional services outside the school setting.

**Step V:**
The core team monitors the progress of the student to determine the extent of which the identified problems are being resolved through the action plan. If necessary, changes will be made to the action plan.

**WHAT IS THE S.A.P. REFFERAL PROCESS?**

**STEP II:**
All referrals to the S.A.P. are referred by the core team, and a formal information gathering process begins. Data is collected from various sources such as:
- Student Records (academic, school, attendance)
- Teachers (classroom behavior)
- Guidance Counselors (special areas of concern)
- School Nurse
- Other School Personnel

**Step III:**
Based on the information...
