

A top priority of Sylvania Schools continues to be the health and safety of our students, faculty and staff. Our district enforces numerous protocols in our buildings for the health and safety of our students and staff due to the COVID-19 pandemic. We ask that students and employees take precautionary measures outside of school to help minimize the risk of spreading the disease further in our community.

If the district is presented with evidence that an individual (employee or student) from one of our buildings attended a mass gathering and mitigating measures were not consistently practiced, the district will follow our established protocol and require that person to quarantine for 10 days.

It is our shared responsibility to keep each other safe and slow the spread of the pandemic so that learning can continue to happen in our classrooms. The health and safety of our students and staff is of the highest importance. We will continue to implement and practice all recommended mitigating strategies to avoid further spread of the virus.
