

Parents/Guardians,

We sincerely hope that you all are safe and healthy! As we continue to refine our plans to “Reset and Return to School”, WE NEED YOUR HELP!

As we reviewed Governor’s Dewine’s guidelines released on July 1, we are revising our plans for busing for the 2020-2021 school year, and will implement protocols for the health and safety of our students and bus drivers. Since each bus's capacity will be significantly lower than in past years, it is especially important that we know which students will ride the bus.

*Why is the district asking for 2020-2021 transportation requests again?*

We realize many families requested transportation in the event that it is needed occasionally. We respect the need for occasional transportation and will continue to provide it. To start the first semester, we are asking all families to commit to their transportation request. Meaning, if you request transportation, your student will be riding daily.

*Who should complete this form?*

Whether you have requested busing yet or not, we are asking ALL FAMILIES to complete and submit this Transportation Commitment form if your child will ride the bus this fall. We appreciate your help in ONLY REQUESTING the transportation you need for the first semester of the school year.

Whether you have requested busing yet or not,

we are asking ALL FAMILIES

to complete and submit this

[Transportation Commitment form](#)

to confirm your child’s transportation needs

as the school year begins.

Please note that we realize situations may arise necessitating the need for transportation to change and we will be working with individual families as these events occur. Thank you for your help!
