

August 7, 2020

Dear Parents/Guardians,

Yesterday, the Lucas County Board of Health recommended that schools in Lucas County begin the school year remotely. As a result of this announcement, Sylvania Schools will begin the school year on our Remote Learning (Red) Plan.

We know that you have many questions including the expected duration for Remote Learning. In the coming days, we will communicate specific components of our Remote Learning plan including:

- Duration of Remote Learning
- SALA
- Academic Expectations
- Athletics and Extracurricular Activities
- Support Services, including Special Education
- Student Orientation
- Student Meal Distribution
- Chromebook Exchange/Support

As this was just announced yesterday afternoon by the health department, I appreciate your patience and understanding as we pivot from Hybrid (Yellow) to Remote (Red) Learning. We know that families need to plan for this schedule shift, so we wanted to share this important decision with you as soon as possible.

*Dr. Veronica Motley*  
*Superintendent*
