

Last night's [presentation](#) at the Board of Education Meeting provided an update regarding the overall efforts of the Task Force Committee including the proposed academic and operational plans for our Hybrid-Yellow plan.

What's Next?

Over 1,000 questions were submitted ahead of the Town Hall. We were able to answer some during the presentation and Town Hall Q&A. While we are working on refining the details for Yellow, it is not yet a Board-approved educational model for this year. Presenting the Yellow plan for approval will be on the agenda for the July 28 Board meeting. We understand that families need to plan for the hybrid schedule and have specific questions about the school environment, protocols, and more. Once the district has an approved plan, we will continue to send out more detailed information as well as establish an FAQ page on backtoschool.sylvaniaschools.org.
