

We are actively creating a SALA FAQ page that will be available by the end of the week on our website. It will be communicated once it is available. We have extended the SALA enrollment deadline until Sunday, July 26. In the following days, the district will address the staffing needs for SALA and make adjustments as needed for any ripple effect as a result of enrollment.

At this time, we are working with the health department. We know that families are looking for more answers about the school year. We understand that parents and students are eager to know what the student experience will look like in our buildings (Green/Yellow plans) this year. Barring any additional information from the governor or health department that would change the timeline, we plan to communicate additional information about the health & safety protocols related to the Green and Yellow plans prior to the July 26 SALA enrollment deadline.

We will continue to communicate often to keep you informed.

*Information about the 2020-2021 school year can be found at [backtoschool.sylvaniaschools.org](http://backtoschool.sylvaniaschools.org).*
