Erasers Ear Plugs

The Bellbrook Music Boosters has learned of a program that sells very high-quality ear plugs to students in music organization programs for a discounted rate. The ear plugs will be available for sale to all students in the Bellbrook Music Programs.

Erasers.net started this program as the first flat frequency response earplug so that you can hear clearly, without that plugged up feeling! Musicians have special hearing requirements. While it is important to reduce dangerous high frequency sounds, musicians still want to hear the sibilance, overtones, and space between the notes without feeling plugged up.

All participants will be fitted with a sizing plug to determine the appropriate size needed to perform to its fullest. Any student that purchases this offer will get one pair of earasers and an air tight canister with a Bellbrook logo. The Bellbrook Music Boosters will be selling the Earasers for \$20 a pair (**a \$55 value!**).

For more Information on Erasers, visit their web site (www.erasers.com or email info@erasers.com) or pick up info packets in the Band Room.
