

CRIMINAL JUSTICE

Safeguarding tomorrow through law and order

In the Criminal Justice and Law Enforcement program, students will explore the history and evolution of law enforcement while developing a foundational understanding of the legal system and criminal law. Examine vehicle and traffic laws, analyze current events impacting the justice system, and gain hands-on experience with professional procedures such as handcuffing and fingerprint identification. Students will build essential skills in emergency response, public safety, and security operations while learning the teamwork, communication, and leadership qualities expected of today's law enforcement professionals.
