

**South Fayette High School**  
**Online Course Option**  
(Open to students in grades 10, 11, and 12)

Student Name \_\_\_\_\_ Grade \_\_\_\_\_

My child MAY be scheduled into an online course. **I understand that I am responsible for any cost (registration, materials, etc.) associated with this course.** My child has the motivation and self-discipline to work quietly and independently for one period during the school day.

The on-line elective course offerings are designed for the highly motivated, self-disciplined student who wants to further their learning or pursue an area of interest that is not currently available at South Fayette High School. Parental approval is required prior to scheduling. Students are limited to one online elective per semester. Students will be assigned one period during the school day to complete the online coursework independently, following the guidelines prescribed by the providers offering the online high school programs. Percentage/letter grades for these courses come directly from the institution offering the course. Students will choose their course at the start of the semester from a current list of providers. The school and parent must approve the course prior to registration.

Questions regarding online courses and registration should be directed to Mrs. Mary Quirk, Enrichment Coordinator, at 412-221-4542 x 647, or [mbquirk@southfayette.org](mailto:mbquirk@southfayette.org).
