## **Erie County Townships residents and small businesses to receive electric program letters**

Residents and small businesses in all Erie County Townships will be getting letters next week regarding their electric bills. The Erie County Commissioners selected AEP Energy as the supplier of the community electric aggregation program. It began September last year and ends in August next year.

Letters will be dated June 15<sup>th</sup>, and provide information to Opt Out of the program. The continuing fixed rate is 4.565 per KWH. There is no early termination fee. No action is needed to continue with this cost savings effort. Just ignore the notification. The Erie County Commissioners continue to support this program, and ask for yours as well.

Township residents can view more information by visiting [www.eriecounty.oh.gov](http://www.eriecounty.oh.gov), and selecting the Commissioners page under the Elected Officials tab.

Peter S. Daniel  
Erie County Administrator
