

2017-2018 Value Added Score – Local Districts

The Value Added score measures the growth of students. The growth of TVLS students is compared to the growth of all other Ohio students over a two-year time frame. A grade of C will represent a year's growth for a typical student. This chart shows the value added scores for districts in Tuscarawas County and the surrounding counties.

Rank	District Name	County	Overall Value Added Grade	Overall Composite Score
1	Dover City	Tuscarawas	A	18.69
