

MAPLETON LOCAL SCHOOLS  
**Title 1 Family Engagement Policy**

Public Meeting

Parents of children eligible for Title 1 service will be invited to an annual fall meeting to discuss program requirements and all aspects of the Title 1 Program. Parents will be informed of the reasons for their child's participation, instructional objectives, and methods. At the fall meeting, the written Title 1 Parent Policy, (developed after consultation with and reviewed by parents of participating children), will be made.

Learning Standards

Ohio's academic content standards are posted on the district website under *Parent Resources*. Content standards, and levels of achievement, are shared and explained at parent-teacher conferences and at Title 1 parent education events.

Curriculum

Curriculum, and progress measures, for all Title 1 students are shared on the district website and at Title 1 parent education events.

Parent Involvement Activities

Title 1 parents will be consulted through a spring evaluation survey as to program planning, design and implementation. Opportunities for regular home/school communication meetings of Title 1 parents to provide input into the program will be provided. Workshops and progress reports will also be utilized. These ongoing means of consultation will enable parents and school to work together in partnership to better each child's education.

Communication

Parents lacking literacy skills or whose native language is not English will have Title 1 information related to them in a different format (oral, written or facilitated by an interpreter if possible). If parents need an interpreter, please call Mrs. Roblin.

Parent Recommendations

Recommendations of Title 1 parents will receive timely responses.

Reporting

A minimum of one Title 1 parent-teacher conference will be scheduled each year with flexibility in scheduling to accommodate parents. Other conferences may be requested by parents or teachers to discuss the child's progress, placement, and instructional methodology. A progress report will be provided every Title 1 child each grading period. Parents will be invited to observe the Title 1 classroom and Title 1 personnel will be readily accessible to Title 1 parents. Students achieving below grade level will be scheduled a minimum of at least two conferences per school year.
