Re: Notification that two students at Bloomfield High School have tested positive for COVID-19.

This memorandum is to inform you that the district received notification on November 20 that two students at Bloomfield High School have tested positive for COVID-19. While we must protect the privacy of the students involved, I wanted to take this opportunity to communicate with you regarding the facts of the situation.

- After consulting with the Trumbull County Health Department, the district has notified families of students and staff members who **may** have been exposed and therefore excluded from school.
- Because of the limited number of exclusions and the safety protocols that are in place, Bloomfield High School will continue with the current instructional format.
- The District continues to follow all COVID-19 related safety procedures. Please be cautious of the symptoms of COVID-19, which include fever, cough and shortness of breath. If you or any member of your family exhibit these symptoms, please contact your medical provider for advice immediately. Symptoms usually appear 2-14 days after exposure.

There is nothing more important to the District than the safety and health of our students, our staff and their families. Rest assured that the administration is constantly working with the Trumbull County Health Department to ensure that we are following all safety procedures and guidelines.
