Athletic Eligibility

IMPORTANT ITEMS TO KNOW

HIGH SCHOOL

1. Incoming 9th graders **MUST** earn passing grades in a minimum of **four courses in their final grading period of grade 8** in order to be eligible, with regard to scholarship, during their first grading period of 9th grade.
2. Thereafter, all high school students **MUST** earn passing grades in a minimum of **five one-credit courses** (or the equivalent) during the immediately preceding grading period to have continuing eligibility.
3. Participate in every effort to ensure that all students are fully scheduled in a minimum of **five one-credit courses** each grading period.
4. If a student comes to you and asks to drop a course, ask the following questions:
 - a. Are you a student athlete?
 - b. What sports do you play?
 - c. Have you visited with your athletic administrator or principal to determine if dropping this course will affect your eligibility to play a sport?
5. Advise the student not to drop a course which reduces his/her course load below five credits unless you receive a form from a senior administrator, a template of which can be accessed here: <http://www.ohsaa.org/Portals/0/Eligibility/forms/SuggestedScheduleChangeForm.pdf>
6. Physical Education Courses do count towards athletic eligibility but will **NEVER** count as a full credit course. It usually counts as only $\frac{1}{4}$ or $\frac{1}{2}$ credit. Do not count this course as one of the five full credit courses.
7. Always contact your principal or athletic administrator if you have any questions.
8. The OHSAA has **no** minimum grade point (GPA) requirement, thus issues regarding eligibility when only the GPA is of concern are strictly a local school district matter and **not** an OHSAA matter

Athletic Eligibility

Post-Secondary Option – College Credit Plus

In order for a CCP class to be used for determining eligibility for Bylaw 4-4-1, the class must count toward HS graduation. In addition, students electing to enroll in CCP must be certain that 1.) The faculty members at the post-secondary institution understand that they will need to provide grades or a progress report at the time when the high school's grading period is over, and 2.) The student-athlete is taking enough course work at the post-secondary institution exclusively or between the post-secondary institution and the high school combined to be equivalent to five one-credit courses. Calculating equivalency of credits in the post-secondary institution is conducted in the same manner as in the high school, based on the Carnegie unit. **College courses for which three or more semester hours of credit are earned shall be awarded one Carnegie unit. Fractional Carnegie units will be awarded proportionately. This means that courses which are four, five, six or even seven hours of credit receive just one Carnegie unit.**

For the 2023-24 school year, the OHSAA membership made changes to how "sprint" and/or "A/B" courses can be counted. A student enrolled in a College Credit Plus (CCP) course or courses which credit hours would have counted towards the satisfaction of this Bylaw BUT FOR the fact that the actual course work did not commence in the grading period in question (but within the same semester), can nonetheless have the course credit/credits count towards satisfaction of this requirement PROVIDED the student was enrolled in the CCP course at the beginning of the semester in question. Likewise, if the CCP course work is successfully completed within the semester of the high school's calendar but before the high school's calendar's next grading period within the same semester starts, the CCP credits can count towards satisfaction of this requirement. **A student who is engaged in a CCP course has an added responsibility to immediately notify the school for which they participate when any changes with their enrollment status within the CCP course occurs, and it is the school's obligation to confirm the schedule change upon receipt of notification.**

Examples of CCP options:

Subject	School	Credit & Duration	Credit Equivalency (Must Equal 5 Units or Equivalent)
Equivalent) History	High	1 (year course)	$1 \times 1 = 1$
Literature	CCP	3 semester hours	$1 \times 2 = 2$
Calculus	CCP	5 semester hours	$1 \times 2 = 2$
Biology	CCP	3 semester hours	$1 \times 2 = 2$
Total Credits			7 = eligible for 2nd grading period provided all courses passed

The factor of 2 is used for post-secondary institutions that are on the semester system.

The factor of 4 is used for post-secondary institutions that are using quarters.

Subject	School	Credit & Duration	Credit Equivalency (Must Equal 5 Units or Equivalent)
French	CCP	5 semester hours	$1 \times 4 = 4$
Sociology	CCP	3 semester hours	$1 \times 4 = 4$
Computers	CCP	2 semester hours	$.67 \times 4 = 2.68$
Total Credits			10.68 = eligible for 1st grading period of next school year provided all courses passed

The factor of 4 is used for post-secondary institutions that are using quarters as long as the class is completed during one quarter. Note that this student is taking all courses at the post-secondary institution, which is acceptable.

Apollo Career Center

<https://www.apollocareercenterhs.com/>

ADMISSIONS REQUIREMENTS:

All applicants must meet the following general admission requirements:

Unconditional Admittance:

A minimum of eight (8) total credits in academic courses required by the State of Ohio for a high school diploma (commonly known as the Ohio Core), consisting of: Two (2) English credits, two (2) Math credits, one (1) Science credit, one (1) Social Studies credit, and two (2) additional state required courses.

Summer school credits earned after the end of the tenth grade count towards admittance, as long as the local school records the credit on the student transcript no later than one week before the opening of the Apollo high school year.

COLLEGE CREDIT: Students may want to take advantage of CCP classes and attend Apollo Career Center for a program. Students can obtain cost-free college credit through articulation agreements with many colleges, and Technical Credit Transfers are also available through Apollo programs. This gives students a head start if they choose to go on to college after graduation. Students can decide what is best for them, whether it is going right to work or continuing their education after high school graduation.

CREDENTIALS & CERTIFICATIONS: In addition to receiving college credit for Apollo programs, certifications and credentials can be earned. The industry recognized credentials vary by program. Some industry credentials can be earned in a first year of a program and in a second year of a program. For more information, please visit www.apollocareercenter.com.

ADMISSION STANDARDS: Students need: 2 credits English, 2 credits math, 1 credit science, 1 credit social studies and two additional state required courses for graduation.

Apollo offers 20 programs for high school students in which students earn 3 credits for their program. (Students also earn academic credits at Apollo.)
