Brentwood Borough SD is not 1:1 in any grade level so the COE task was a challenge. The next school year's focus was to begin a 1:1 program for students in grades 9-12. Because staff is shared among the middle and high school, teachers in grades 6-12 received new devices totaling more than \$48,000. The district is requesting 49 laptops @\$850 for a total of \$41,650. Next the district is requesting the purchasing of an online registration platform in the amount of \$7,855. The PD that will go along with the online platform is a one time cost of \$1500 with an unlimited amount of people participating. To communicate with our ELLs the district is requesting to use Transperfect at a cost of \$4,312. To communicate with our students receiving special education services we are requesting the purchasing of 28 phones and service plans totaling \$4,928. Lastly the printing, postage, and paper costs for special education will total \$1,500.
