ClassDojo

School-wide Remote Learning

A step-by-step guide for getting your whole school community connected

Keep in touch with families

Directly message families and instantly translate into 35+ languages

Share lessons and resources

Post videos, photos, links, and files for students and families to see

Assign classwork to students

Students can log in from home and complete activities

Get your whole school community connected

1. **Sign up as a School Leader**
   Go to www.classdojo.com or download the iOS or Android app to sign up as a “School Leader”.

2. **Join your school and get verified**
   Find your school or add it. Use your school email address and verify your email to get verified, or email schoolleaders@classdojo.com with a photo of your school ID or a link to your staff directory.

3. **Upload your student and family roster**
   Go to School Directory and upload your student roster from a Word document or a .CSV. If you have parent email addresses, upload them now to get parents connected to their kids.

4. **Invite teachers to join**
   Invite teachers from School Directory or have them create accounts and join your school. They must use their school email and verify their email, or you can verify them from School Directory.

5. **Have teachers add their classes**
   Teachers can easily create a class and add their students. After adding students, they can invite parents via email, SMS, or printed handouts.

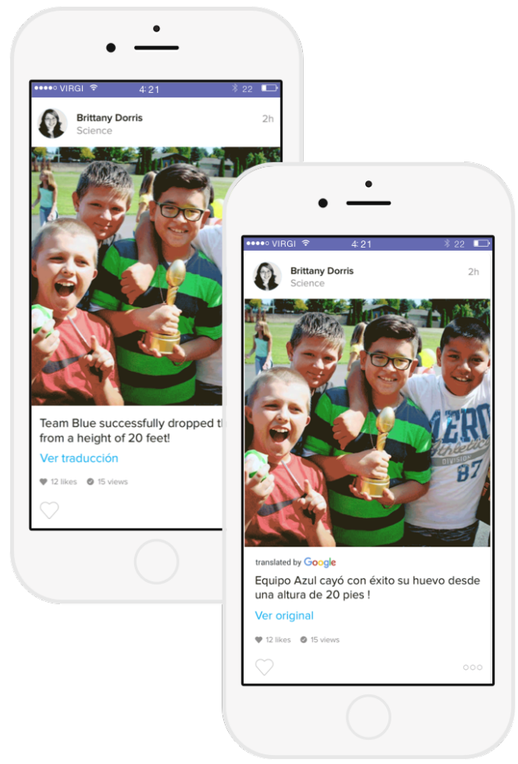
ClassDojo

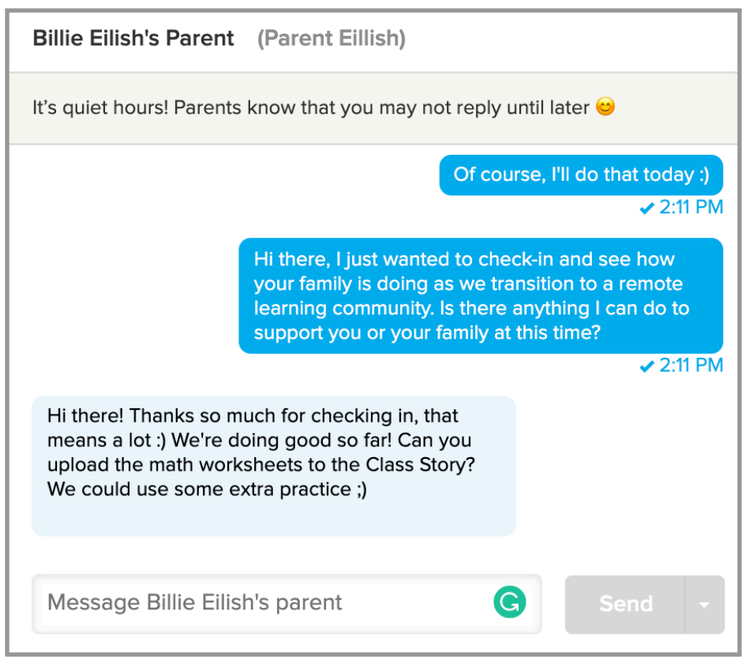
School-wide Remote Learning

Everything you need to keep your community connected and learning

Share lessons, announcements, and more on Class Story and School Story ✨



- Post photos, videos, files, and text updates on a private feed
- Share links to resources, video lessons, read-a-louds, and more
- Create events and schedule automatic reminders
- Posts can be instantly translated into 35+ languages



Use Messaging to instantly communicate with families 💬

- Free, unlimited, instant messaging with every family
- Send messages without using your phone number
- Schedule messages and set “quiet hours” on nights or weekends
- Download your message history for documentation if needed

Assign activities and students can share to Portfolios 💡

- Students can share photos, videos, drawings, and text
- Create activities for students to respond to from home
- Students and families can log-in from any device
- Teachers approve posts before they go on Portfolios

ClassDojo

School-wide Remote Learning

Ways to use ClassDojo for remote learning...but the sky's the limit!

Read-a-louds. Record a video of you reading for students and families to watch from home.

Daily schedule. Send families a photo of your daily schedule, so they can maitain consistency at home.

Check-ins. Reach out to families individually via Messaging to see how they're doing.

Digital meetups. Create an event on Class Story and include a link to Zoom or Google Hangouts.

Physical challenges. Post a video doing push-ups or jumping jacks and challenge students to beat you!

Choice boards. Post Bingo cards with ideas like "upload a room tour" and "write a personal narrative story"

Activities. Create activities that students can respond to on their Portfolio, like a video book review.

Daily journal. Encourage students to document their days during this new adventure of remote learning.

Post PDFs and learning links. Provide families with resources to help students continue practicing skills.

Social emotional learning. Share the Big Ideas videos with families and assign discussion questions as activities.
