

September 4, 2020

Dear Parent/Guardian,

We have had a great start to the 2020-2021 school year! We are very excited to be back with our students!

As many of you know, we are using Schoology as our Learning Management System this year. It is an excellent tool to engage learning within and beyond the school walls. Part of the features of this system is the ability to create your own parent account to monitor and view your student's progress. Your student is bringing home a letter with the access code for your student, along with these instructions on how to set up your parent account.

- In your website browser type *schoology.com*
- At the top right click on "Sign-Up" and select "Parent"
- Enter your student's access code
- Enter your name, email address, and create a password for your account
- Agree to the privacy policy and click register
- At the top right of the screen choose your student's name to view their account
- If you have additional student's to add to your account select "+ Add Child" and enter their access code
- Video: [Setting Up a Parent Account in Schoology](#) (11:30 minutes)

We hope this helps you and your student build upon the successful start to our school year.

If you have any questions, please contact your building principal.

Thank you!
