## Internet Access During School Closure

In order to assist families during the school closure, we have extended internet accessibility to the parking lot of the Elementary School. Additionally, the Bloomfield Fire Hall has graciously allowed us to use their wifi for students as well.

### How to Access:

- At the Elementary school - You may access the internet with a school issued or personal device with the following settings:  
Name of network: UCASD-Parking  
Password: bears2020
- At the Bloomfield Fire Hall - Please access only using your school district issued device. Your district issued device will connect automatically.
- Stay safely in your car and maintain social distancing protocols of 6 feet at either location
- If you have an issue accessing, please email: [helpdesk@ucasd.org](mailto:helpdesk@ucasd.org)

We hope this will help families in a small way.

Thank you
